# Integrity

## The Theme of the 2000-2001 Academic Year

Nothing is at last sacred but the integrity of your own mind.

Ralph Waldo Emerson (1803 - 1882)

Integrity - We make a living by what we get; we make a life by what we give

The Prefects decided that the theme for this school year should be Integrity. When you first think of the word integrity, you associate it with a lecture by your teacher at the start of the year on Plagiarism and on honestly taking tests and exams. Although this was our main idea when choosing the theme of Integrity, on more thought it is evident that this Theme can be applied to other parts of our lives as Andreans. Integrity can be applied to our time spent on the Sports field. Ones integrity is shown through working hard at every practice, and being respectful to your teammates, your coaches and your opponents. Also integrity can mean showing respect for your fellow Andreans and respect for their personal property. A wise man once said, "Wisdom is knowing which path to take, integrity is taking that path." Today, as we start a new school year, and on behalf of my fellow Prefects, I challenge you to follow the path of integrity in all your activities at St. Andrews.

Integrity is one of several paths. It distinguishes itself from the others because it is the right path, and the only one upon which you will never get lost.  
M.H. McKee

Winning is nice if you don't lose your integrity in the process.  
Arnold Horshak

Integrity is a choice. It is consistently choosing the purity of truth over popularity.

Wisdom is knowing what path to take next...integrity is taking it.

# The Review

## 2000-2001 Review Staff

What you're holding in your hands right now is the product of hard work. A lot of hard work (and you thought Mr. Walden's Opus was bad...). From the very get-go, we knew that the Review was going to be an extraordinary task, and it was. But it was also fun. The photos we saw flow through our room this year were enough to make us want to laugh, cry, and/or hurl. But they all brought back incredible memories of the year that was. At the Review, we're here to share those memories and moments with you. The photos, the cheesy cliché-filled texts that accompany them — these are all snippets of a year in the life of St. Andrew's. So while it took a little bit of time and energy, we know that it's well worth it. Take a look and I'm sure you'll agree. Enjoy!

### The 2000-2001 Review Staff

(PS. One last thing — we can't really thank our Staff Advisor, Mrs. Berman, enough for carrying this project from the cradle to the press. In short, this book does not exist without her. Thanks!)

Well, they didn't leave me much room, however I do need to thank 4 very special students who devoted countless hours of time plugging away with very little recognition. It certainly was not an easy task to put this book together and they did it on top of all their other commitments. There are a few other people that I thought deserved some mention, Mr. S. Treasure for all of his support and advice, J. Mackenzie & A. Sondhi for taking lots of photos, R. Carter who created a few "interesting" layouts, Mr. J. Walden for being a great neighbor and for always looking out for us and all the other students and staff who kept encouraging us and submitting photos and write-ups when needed. I would like to apologize for all of the "sometimes nasty" e-mails some of you may have received, nagging for blurbs, but I think we will all agree after looking through this book, packed full of memories and pictures, that it was all worth it! Thanks to everyone for a great experience and looking forward to next

## The Review Staff

Jonathan Cheng, Editor. "The best part of the job is putting your name all over the yearbook."

Derrick Choi, Editor. "The best part of the job is lining up rows and rows and rows of exciting text in a linear and grid-like fashion. It's rather stimulating."

Paul Perrier, Editor. Is there anything this guy doesn't do? "The best part of the job is having my precious work deleted, never to be found again. That's one of the many joys of yearbook work."

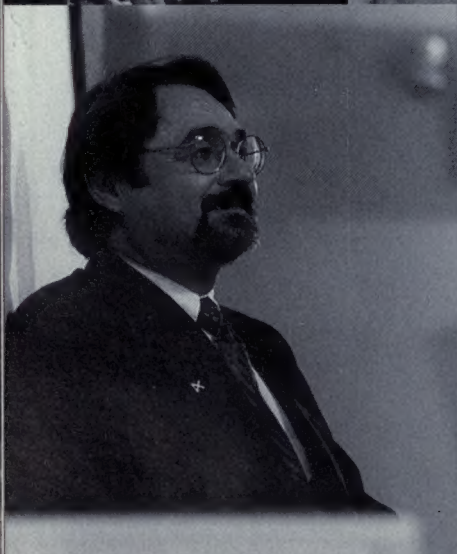

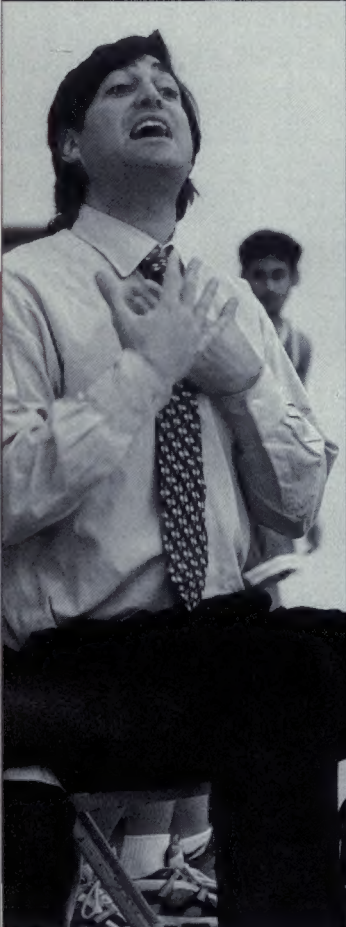

Alex Chow, Photographer. "The best part of the job is taking lots of photos of myself, so the rest of the staff can stick them on the ceiling of the Review Room." How true, how true, Alex.

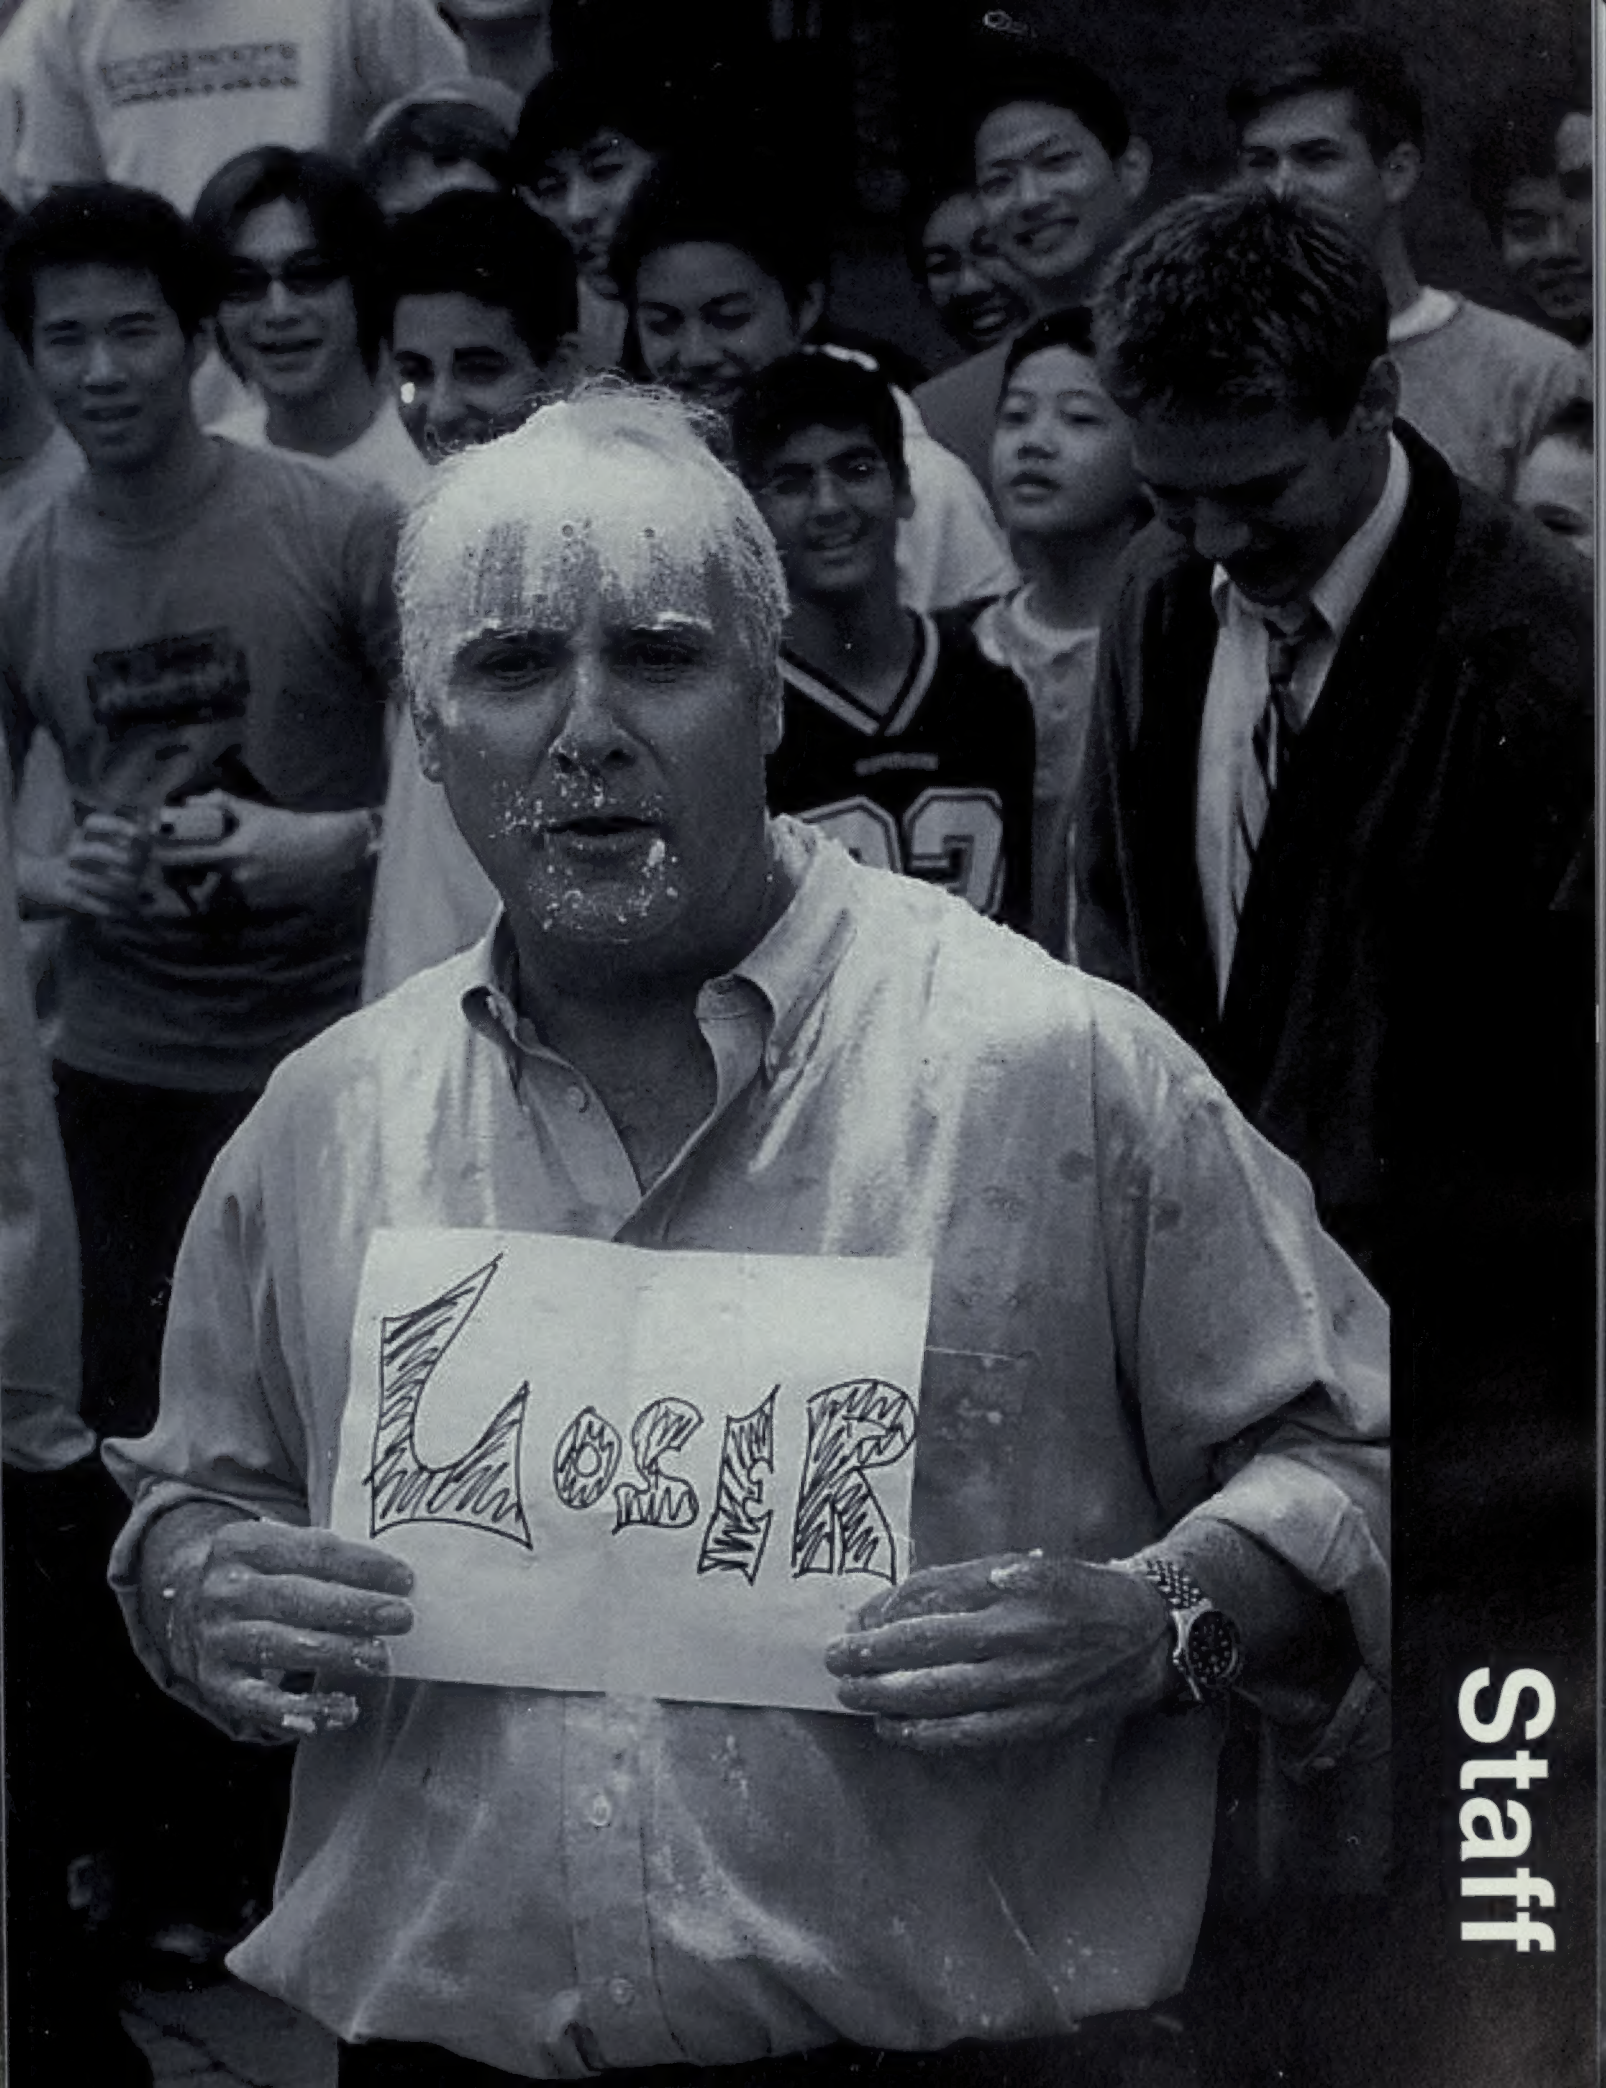

Mrs. Berman, Staff Advisor. There's no way this book would be started (much less finished) without her. We are forever grateful.

("The best part of the job is making up all these lame quotes for the Review Staff page.")

## JACQUELINE BECK

*French*

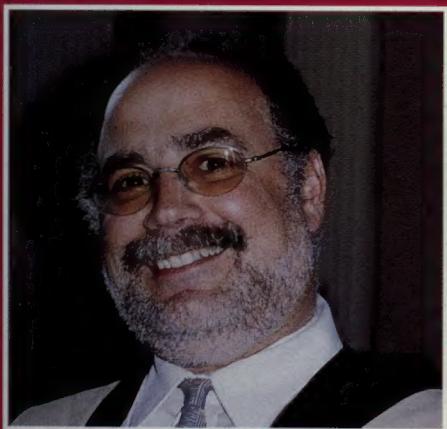

The Modern Languages Dept. will miss the exuberant Jacquie Beck as she heads back west to Alberta. She will continue her teaching career there amongst most of her friends and family. Miss Beck has taught French for two years at St. Andrew's. Her students describe her as "fun, crazy and loves the French language". Miss Beck also assisted in the Duke of Ed. program, coached the ski team, and house league. As a Gr. 8 homeroom teacher, Miss Beck ensured that the young ones were prepared for the day and created a positive and happy atmosphere for them. Thank you Miss Beck for your dedication to everything here at St. Andrew's. Good Luck out west and be sure to visit us sometime!

## BERNARD K. DOUGLAS

*Civics, History*

After a year with the History and Social Sciences Department, Mr. Bernard (Bernie) Douglas will be returning to the Scarborough Board of Education at Agincourt C.I. A former constable with the RCMP and officer in the Canadian Army, Mr. Douglas is an Honours Specialist in History and Law from York University. While here he was given responsibility for writing the course of study and introducing the new Grade 10 Civics course. He also taught Grade 10 history and coached Karate. We wish him well as he returns to his former duties and hope that he will return to visit us as frequently as a busy life permits.

## RON ENGLISH

*Computer Science*

Ron English leaves us after two years in the Computer Science Department. Ron was a great addition to the department and the school. The students were fortunate to have such a capable and fun teacher who cared about them and treated them as mature adults. Those who were close to him were always touched by the fact that he made an effort to celebrate special events. Ron will be remembered for his initiative in starting the Robotics team with Jon Butcher and offering a summer workshop for computer science teachers with Dan Reid. In each of these endeavors, Ron showed his commitment to teaching and helping others to learn. Ron's plans are not definite, but they include writing a book on computer programming this summer and teaching full time at either the community college or even university level. Ron's very positive and friendly manner will be missed and his computer expertise will be difficult to replace. We wish him much success in his future challenges.

# The Prefects

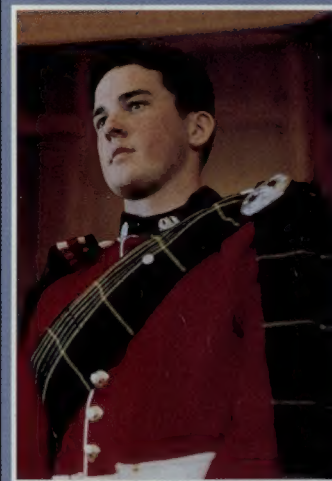

After two days of frantic planning at a summer Prefect Retreat, it was still unclear as to the exact roles we would be playing as Prefects for the ensuing year. We were a bunch of guys brought together with a manila envelope full of expectations and upcoming events thrown at us. One thing was clear from the outset: we were probably the most diverse handful of guys you could pick from the entire SAC population. We were of differing athletic strengths, academic strengths, nationalities and so on. It was also clear that the task ahead was huge and demanded unwavering commitment. In retrospect, those first steps we took as a group in planning were just the beginning of a journey that has been full of adventure, learning and satisfaction.

The Prefects came together solidly and were able to apply themselves successfully in every situation. Although this year was full of challenges that had the potential to harm the group's cohesiveness, these obstacles were met head on and with integrity. Today it is clear that we only got stronger when faced with difficulty. This underlying theme of integrity played a large role in keeping us, and fellow Andreans, committed to doing their best throughout the year. It led us to set new standards with the spirit (and cheerleaders!) of Homecoming, the all-new Springfest Highland Games, and a new level of co-operation between the Prefects and the school. For all these achievements the credit is not ours; we could have planned to no end, but if it wasn't for the student and staff cooperation, driven by genuine enthusiasm, then all of this would not have amounted to much.

Thanks to Mr. Josselyn and Mr. Staunton for their guidance and support. Thanks to Mike Hillick, Ann Burdon, Mrs. Osmond, Mrs. Muratoff, Mrs. Richardson, Mrs. Lamb, as well the rest of the administration who helped us whenever we were in need and kept us up to date with everything. We hope for the best for next year's Prefects. May you build on the foundations that have laid and keep the traditions strong. May your endeavours be blessed so that you leave an indelible mark on SAC. Finally, thanks to all of our fellow students who allowed us the privilege to serve you as your SAC Prefects of 2000-01.

### **GORD BIRKETT**

*Gord was a great part of the team and quickly taught us that if you mess with the bull you get the horns. When he was not venturing on his Arctic expeditions he was the focus of enthusiasm in all his work. Hi cousin...*

### **JOSHUA KELSON**

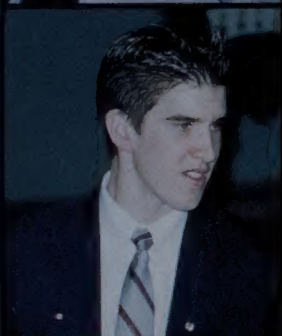

*Josh who was affectionately renamed 'Skeletor' quickly found his groove as the team accountant. Rod set up fun events like bowling and Laserquest. Kettleby Kelson will be missed by all girls from Burger King.*

### **ALI MANIGAT**

*The Yo Men were always the first to volunteer for any social activities involving girls. Olivier hooked it up as he spent hours on the phones in Flavelle, and then when they came it was Ali that pulled his sly moves. For the record Ali is five up. Olivier found himself loving the St. Clement's women after both quickly lost their ties to Trafalgar Castle. However, there go-get-em attitude was irreplaceable and these boys will eventually show us all that they do in fact 'run Cornwall, and now New York'.*

### **OLIVIER MANIGAT**

### **ROSS MARSHALL**

*Gods gift to women, as Ross described himself, was quick with the tongue and equally quick with enthusiasm. This one man wrecking crew on the ice was last seen flying away with an umbrella at Shoeless.*

### **ANDREW MARTIN**

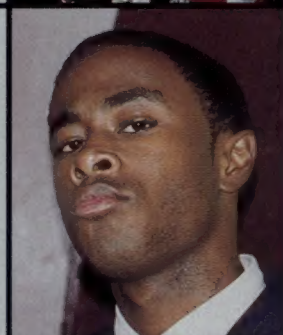

*The owner of Mr. Plank was always found patrolling the halls of Flavelle house where he scared every kid that walked by with his constant yapping of blood. No matter how scary, he will be our Prime Minister one day.*

### **TAPFUMA MUSEWE**

*These two fellows were co-founding fathers of the Christian Fellowship. Often confused with their brothers we were all convinced that they took turns coming to school, and collectively only actually did six courses. No matter how nice these guys, we will all remember the car ride back from Kelsey's when they randomly attacked poor Kelson's car for no apparent reason. Don't worry we'll get over it, and these twins will see you in their doctor's office when you don't get elected Marty.*

### **TATENDA MUSEWE**

### **PAUL PERRIER**

*This french frog was the golden boy, but still loved to get people going in meetings causing endless off topic debates. The hockey star was last seen naked at the Hip concert with a pig, a pony and another frog.*

### **JACK POPIEL**

*Unfortunately, Prize Day was probably the last time any of us will see Jack as this quiet guy will not be forced to resurface at school periodically. However, he was still a beast of an athlete and son of G-POP.*

### **JASON WONG**

*Mastah Wong is still getting over the puking on his shoes by a Sergeant. Wong was the sleeper in the group as he always gave the breakthrough ideas. The devastating football DB will be sorely missed by everyone.*

### **MR. JOSSELYN**

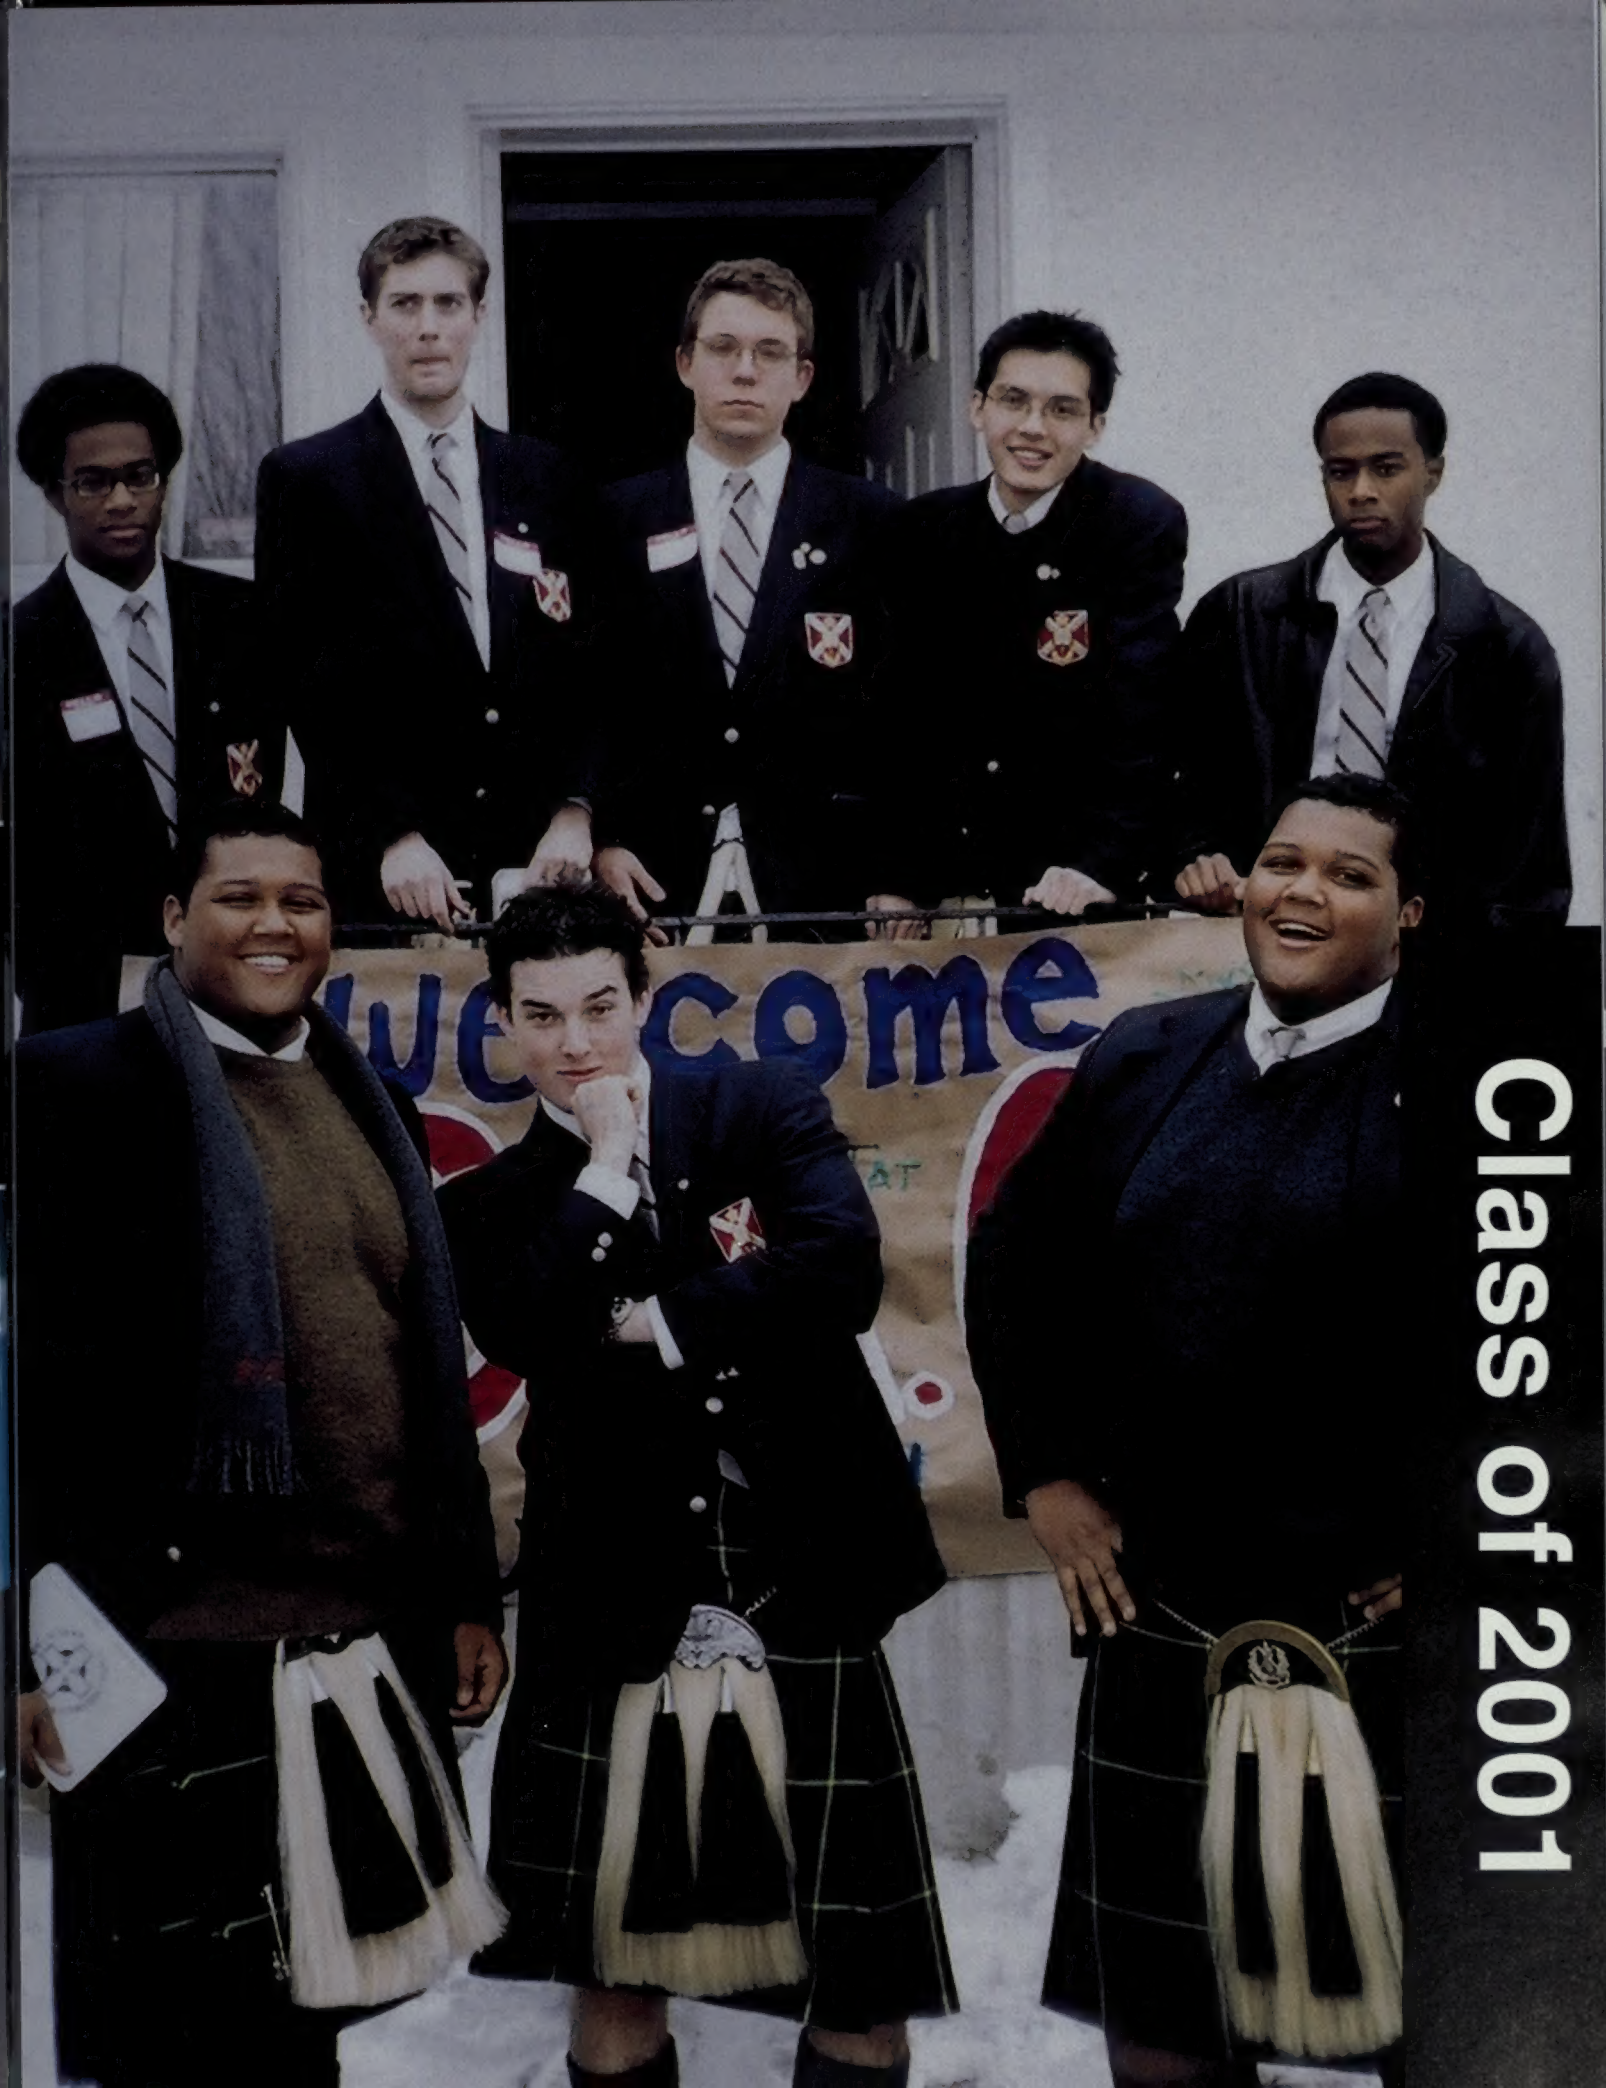

*THE JUICE IS LOOSE! Dr. J thinks this group of Prefects was clinically insane but still found time to come with us to the Outback. He was the man behind all that was accomplished and was our MVP.*

## Devon Ajram

**Ramsey House**  
1997-2001

Coming from Montreal, these past four years at S.A.C. have been very new and exciting. I never thought I would make such good friends (P.P. J.K. G.B.) and I do hope that they will last forever. I have so many memorable times (Dave in Buffalo, 1st Football Homecoming, Birkfest, Mel's Diner), I can only imagine what's to come. Not all have been great times though (Crash, sorry Perra, I should have taken you out Carter), but the good have outweighed the bad. I don't know how much I have really accomplished (Pipe Major, Honor Student, 1st Football, Outreach), but I do hope that I have made my mark on the school. The after-parties, the late-nights, school plays, skanky girls and shameless man-whores will all be laughed at when I leave, but missed in an unexpected way. This school is one of a kind... I guess I'll only be thanking it or cursing it to hell when I see what I've become because of it. This school has taught me that you must make the most of every moment "Celebrate we will 'cause life is short but sweet for certain" I thought I should add a few saying such as

"Gord, you're here, did Warah loosen your chain?" and my favorite "Swenks, it's MINI MOUSE!"

Thanks Mr. Walden (Waldo) for being, well... You... And get a good lawyer, cause if I don't make my millions, I'll be coming after you with a lawsuit for assault with a stapler.

Josh, I'll be knocking at your door when you're a millionaire, so get the guest room ready!

Maman, mon cher père qui est si généreux, je vous aime tellement... merci!

Crash

I am so dam happy to be done high school. Veg and Fraser good luck next year at Guelph and Saint Andrews. Dave and Bloor I hope to see you guys next year in Montreal. Everyone else I wish you the best of luck.

Always beware 301, and Veg, take it easy and try not to puke on anymore cash machines let alone harmless girls. Bloor what can I say about you umm... BLOOT BLONT BLUNT. And no, Ray is not from Saint Mikes, by the way what ever happen to that big Bud Wiser hat Veg was wearing at the Shell Station after homecoming? Dave make sure you say hi to your shelf friends, you know, Avatar, Pingu, Muchumba, Edward, Fat A and his b---, gal!

It was fun raiding people late at night not to mention throwing snow on them. Always being conscious of the Rabbi lurking in the shadows ready to bust us.

No too seriously guys, let us not forget our true memories, the forever greens, the elders and good old Truckasortus. Big up Chucky and his sick jungle beat 'boom boom bam boom' and Dave commenting on how his arms had trails.

Where did the last seven years go? It seems like only yesterday that my father dropped off a frightened boy outside the Bedard gym for his first day of school. Fortunately, St Andrew's was a warm and inviting place. The Andrean community has lived up to my expectations and has allowed me to engage myself in an optimistic environment where we are taught the value of good education.

First and foremost, all my love goes out to my parents for their tireless efforts throughout my academic career, both emotionally and physically. There isn't a single hurdle that they wouldn't jump for me. Bibbs special thanks go out to you for making my first year a struggle! Our friendship thrived over the years and we still have a long future ahead of us. "Ceen?" Zak

your weekend stories over the years has made me laugh even on my worst days at school. T&T I could finally tell you two apart in grade 11 and I've never looked back. You guys have been great friends, thanks for the memories. Swenks and Stick, you guys have been gold this year! Thanks for putting up with my sarcasm, don't worry I really don't mean anything by it. Keep in touch! Big bird and elbow...you guys have been awesome so stay that way! Vic, work on your ball game then challenge me punk! I'm hoping to see you in my programme next year bud. Last, but definitely not least, I would like to thank both Mr. Cameron (The best advisor one could ask for) and Mr. Giel for guiding me in the right direction towards a successful and prosperous future.

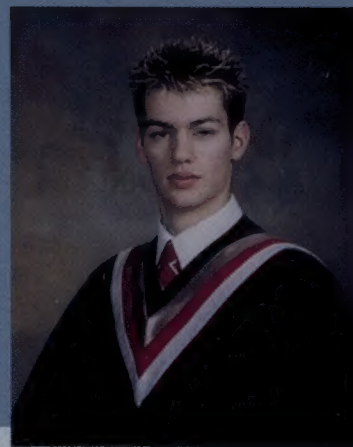

An expert is a man who has made all the mistakes which can be made, in a narrow field.-Niels Bohr-

Ah, the memories. Our U16 hockey team dominating the league for a good 3 years. The 'Kimmerer' style was definitely unique. My days in Rec. golf were good ones too. I don't remember much from those days because I really only went a handful of times, 1st Lacrosse in my final 2 years (the jimmy shake). I don't think I've ever felt better than that moment I laid some UCC boy out. Only one regret, giving up on 1st hockey, but I guess coaching the U14 made up for it. Nothing matches the disrespect you get from the little kids! OAC Biology is the best learning experience I've ever had. Two months of 8 hour classes have never been better. I think it was because of Zaki's 'river crossing' techniques, he lost 20 lbs on that trip. RobAtics turned out to be the greatest academic trip in my life. Dr. Dick, Mackie, Canny, Tse, Robin, Chul, Butchie you guys were the life in the pit. Never forget this... SOMEONE GET ME THE #%@\$10mm. I will never forget ALL the women at a RobAtics competition! My best experience by far was soccer. I've never loved life as much as I do when I play the game. I have all my coaches from U15 to 1st to thank for that. A couple of setbacks in my OAC year, but nothing matches the adrenaline rush from cutting down any Ridley player.

SAC has literally been my life for five years and it's been truly great. It is impossible to say all the things I feel about this place in a small number of words so instead I will thank some of the people that helped make my time at SAC what it was.

Thanks to my friends for putting up with my crap over the years. Warren, you're the best friend a guy could ask for. Drewe and John, don't kill each other. Knutton, park your car closer. Kevin, don't forget to breathe. Andrea, you're my girl. I'm going to miss all you guys next year. Don't forget me! To the grade 12's, have fun at school next year (haha).

Thanks to all my teachers. Cameron, thanks for the support. Cowell, stop making your poor students write those journals. McGee, aren't you glad I'm out of your hair. Robson, Smith House is the best of the best thanks to you. Walden, you're going to have to bug somebody else about their hair. Scoular, thanks for all the drama opportunities and the coffee.

Major Thanks goes out to my family more than anyone. You've done so much for me and I appreciate it with all my heart. I love you guys. These have been some of the best years of my life. It is time to move on now but I will always be an Andrean. See ya around SAC! It's been great! \*You sold my dead bird to a blind kid? Lloyd! Peety didn't even have a head! -Dumb and Dumber

**Sayings:** Bahhh! Face it, You're whack. Seen! Shyo Fraaaaaser. Gord, no eate?, Haney, shinny? I've got a howitzer. Wow! Bait-up. (Marsh) Anticipate. Dah there was school today?

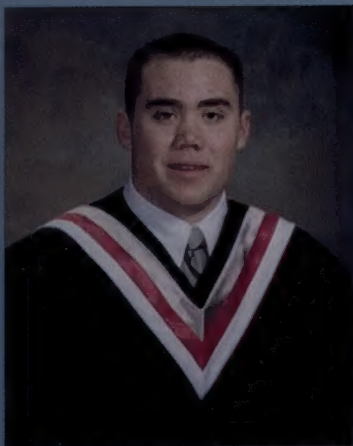

**Activities:** First Swimming, First Weight-Training, Pro Shiny League, Skipping school.

Seven years passed rather quickly, a little too quickly. I would like to start by thanking my parents, for all the sacrifices they made over the years to send me to such a fine College. My bother Jason, for staying on my back, making sure I put in those extra hours of work which have paid off tremendously. Mr. Smith, the one teacher who never criticized my weaknesses in my earlier years, and always having faith in me, I can't thank you enough. Dominator, for putting up with me as an advisor. Uncle Waldo for keeping me out of trouble. All my swim team boys that helped me improve: Pete, Scooter, Dana and C.L. Smooth. Finally the boys:

Gordus: For the good times I can remember. Carter: For being a jerk. Kinger: For helping me "balance." Samir: For keeping faith in me. Chuck: Huh Huh Huh. Manse: For being baaad, Marsh: Anticipate. Fraser: For teaching me to play hock. Veg: For helping me see the light in hip hop. Lakhani: You got skill kid. Haney: For being one of my phatest buds I ever made at SAC. All of you thanks for the memories which will last me a lifetime.

## Gord Birkett

**Activities:** First Football 4a (captain, MVP), First Rugby 4a (captain), Prefect, Community Service Council, Mock Trial team, FOCUS '99, 2000, 2001, Billy Budd, Regimental Sergeant Major, Founding Father of the original "Birkfest", member of the original concert trio - DMB Buffalo 2000, Tragically Hip 2000, 2001 - Scotland Rugby Tour 2001 (captain), Cancun 2000

**Sayings:** "Crazy Dave, it's time to kick 'er up a notch", "Bobby, let's dooo it!", "Boys, to the Peel!", "It's time to kick the tires and light the fires", "The pig is out of the pen", "Marsh let's dance", "Bibbionian", "Cars we need \$31.25!", "Don't start with me Perrier", "Quit being so cunny", "Honey and Chuck, we are always the Last of the Mohicans", "Boys, let's PRE- it up!"

When I look back on the last five years all I can say is "Wow, what an amazing ride!", and how I wish it would never come to an end, but like all great things it must. First of all, I would like to thank the boys for making my great experience here what it was. Bibbionian, Hanes, Perrs, Cars, Chuck, Crash, Kinger, Moose, Veg, Kels, Marsh and Yo Man... you boys will remain near and dear to my heart wherever we end up in the future. We were truly the elite best of the best and we had some great times. Cheers to "Birkfest" and may it never die as long as we live.

To all my teachers and coaches who made me what I am today. To Mr. Cameron... Tu es un entraîneur encroyable, merci du fond de Coeur Michell, Mr. Swan and Mr. Shrimpton for instilling a work ethic in me that I will never forget. Thanks to Mr. Galadja, Mr. Kimmerer and Mr. Smith for all his guidance. Sarah, you are truly the best thing that has ever happened to me, thank you for everything. Timbo, you're my little bud, finish off strong. I know you have it in you. To Timmy, Dewey, Billy and DVD... good luck. It's your school now. And to my mom and dad for making the sacrifice to allow me to come to such an amazing place. I love you more than you will ever know! Everything I did at SAC, I did to make you proud.

**Nicknames:** Bobby, Bobo, Cars, Pony, Ass, Satan, Wobbie

**Sayings:** How 'bout I get a bit more retarded, you English? Hey Cyat Beeeeutons? LETSDOI! Hey guys when is the fellowship meeting? Hey Fraser lets go see the pharmacist, Swenks. No I am not a boarder.

I don't think I could possibly say anything about this place that hasn't already been said by me predecessors. Its amazing how fast these seven years went by. Perrs, Cyat, Bibbionian you all know what I am talking about. It seems like it was just yesterday when I was driven through these gates. Since that day I have

managed to grow a few inches, gain a few (ok a lot) of pounds and I hope miles in character and experience. I'd like to thank my parents for sacrificing so much to give me an opportunity not many rednecks from Barrie receive. Mr. Cameron for keeping me in this school when I, along with everyone else, had given up. Mr. Swan for, well, for just being yourself, thank you. Mr. Kimmerer, I'll see you on Thursday. Mrs. P. and Mrs. B. my second mothers, I'll clean my room soon, I promise. Sylvie it has been a wild 3 year ride but in the end it was all worth it. I love you. The boys... what can I say other than Wow this has been a crazy ride with you all. Pig, Perrs, Kinger, Cyat, Bibbs, Moose, Veg, Yari, Fraser, Badman, Chuck, Craig... I mean UGHHHH ok maybe not. Boys wherever you may end up calling home next year I hope you'll let me sleep on your couch....

First, I would like to thank my family and friends for all their support and guiding me through my high school years. It was definitely an experience I enjoyed and will never forget. Whether it was sending me to SAC or encouraging me through bad times, I thank you with all I can. I entered SAC as a grade 11 student and I still can't believe 3 years have gone by so quickly. When I think back at the times I've been here, I can remember a ton of memorable moments that I hope to keep forever. I want to thank all the teachers and staff especially the Perrier's for taking care of me and I would like to wish the best of luck to all graduating Andreans. Here's a shout out to: Alan, Bors, Sim jai, Gers, Henry, Charles, Ryan, Wang, Franko, Ivan, both Jason's, Vincent, Danny, Jackson, Kenneth, both Adrian's, Roger, Robin, Victor, Nhi, Tap, Tat, Jon, Orson, Sho-can, Dennis, Jay, Fred, Keng-Hao, Ray, Kurt, Peter, Heizer, Viad, Dainard and the Korean crew and anyone I've missed! **Activities:** Captain and MVP 1<sup>st</sup> Volleyball, Rockclimbing, Proud member of 2<sup>nd</sup> hockey, Biathlon/ Nordic Ski, Ramsey Head of House, Lacrosse, founding member of Envirochaos and C-Cat Chat.

Four years at SAC has left me with many memories: Beach in the gym, Thursday Rockclimbing (and chess), mini-putt in the office, cider at Hardwood, blank gazes at calc tests, Timbit Wednesdays, and lets not forget sneakers runs, galaxy runs, and any other run we could think of. However, none of these memories would have been the same without Steedo (see you on Survivor... Oh Yeah!), Lyons (Keep up the good work, Buckwild), Nayan (BRING IT ON!) Fatty/Sideburns Lowe (Just pick one and stick with it), Joakim (please, break the streak!), Roach (This guy, who is this guy), Stick (I noticed your skillz in the maze), Tse (choke yourself!), Dainard (What the #\$@& is this e & # \$!!!), Vic Ip (One day you'll beat me at B. Ball), and Marty (Most dangerous man in Nordic skiing). Through the highs and lows, you guys were....well...you were there.

I would also like to thank my teachers and coaches who have challenged (and sometimes frustrated) me. A final thanks goes to my parents and my brother, who I give 100% credit for everything I've done at SAC and in my life because they are, and always will be, the force that drives me.

**Comments on SAC:**

I've been to several schools in Hong Kong and Canada, and I've never seen another closer-knit school community. As a newboy last year, the way people behave here seemed as if there's a great ethnic division, but when everyone is at the ACC (Aurora Community Center) or lower fields, any suspicion of that is immediately dissolved as we cheer for our 1<sup>st</sup> Hockey, Soccer and Football teams to win. Everyone is there to enjoy watching our friends demolish opposing teams.

I was overwhelmed by the size of this school on my first day. It became a big part of me since then. For the 6 years that I've been here, I spend 6 days a week, 10 hours a day at the school. It affected my family too. They became frequent participants of the school's many activities. They're there for all my basketball games, carol service, cadet inspection and parades, drama productions! K My dad even became the "#1 Fan" of First basketball! I had most of my memories playing for the basketball teams: a missed buzzer-beater in overtime, U13 CISAA Championship (first in school's history), tournaments at Montreal & Bermuda, MIP then Captain of First, the game I scored 33 pts to get our first win, getting my shoes signed by my teammates! K There was even a rumour that I wear a new pair of shoes every game! (Obviously it's not true, but I do have a total of 41 pairs up to date! K) All the teachers here are very funny: Mr. Timms with his list of "no-no's", Mr. Wenk's excitement when we had to do pushups when we're late, Mr. Jones' Email-addiction, Mr. Smith's threats to swallow gum, Mr. Butcher's endless talk about astrophysics! K I'm so glad that the food here got better in my OAC year. The cheese macaroni, wonton soup, and the pasta bar are the major improvements. I'll miss this place and hope that I will have a chance to come back and visit!

cent, Danny, Jackson, Kenneth, both Adrian's, Roger, Robin, Victor, Nhi, Tap, Tat, Jon, Orson, Sho-can, Dennis, Jay, Fred, Keng-Hao, Ray, Kurt, Peter, Heizer, Viad, Dainard and the Korean crew and anyone I've missed! Later... =)

Time has passed so fast, so fast that I don't even have a chance to catch it. I'd like to store my 3 years of memory here in SAC very carefully. Many years later when I look back to my memories of SAC, I'll see many of my friends playing cards in my room while trying to avoid Mr. Perrier's room checks. On another page of my memory, I'll see 3, 4 guys squeezed in a small room discussing a strategy of raiding a person we don't like. The experience here in SAC is a very unique part of my life. I'll keep these 3 years in my memory very deeply.

**Greatest High School Influences** (in no particular order): Mr. Myrans, the Musewe brothers, and the boys and girls of Agape. **Commitments:** Christian Fellowship guy, Debater, Review Editor, Laidlaw Company Commander, and proud member of intramural basketball champions, the Tinky-Winkies (that's not a typo). **Life Ambition:** Prime Minister of Canada, Leader of the Free World. **Probable Fate:** Rock n' Roll Star. **Verse that changed my life:** Romans 8:28.

Five years ago, I was a completely different boy. From what I remember, I was really short, really skinny, and really shy. And sure, I'm *still* skinny, but things have changed a lot since then. As I look back on my high school years, I'm blown away by the many things that have shaped me as a student and a human being. I think in particular of my parents, who love me unconditionally; fellowship, which has allowed me to grow; and of course, the many friends I've met along the way that continue to challenge me.

You know, I did a lot of thinking while writing this, mostly about life. I came to the conclusion that, when I'm 80 years old and lying on my deathbed, there are only three things that will matter to me:

1. that I was a true friend to the people around me;
2. that the world is a different (and hopefully better) place because of me; and
3. that I have lived a life pleasing to my Father.

That's all there is to it. Life is a nutshell. I figure if I've accomplished these three things, I will leave this planet a happy man. As I head for college next year, I look forward to the excitement and surprises that are in store for me there. And as I go, there's one thing that I've learned here that I will certainly never forget: "We know that in all things God works for the good of those who love him." (Imagine that!) Now *there's* a promise, fellows.

Two quick years have gone by, and I realized being an Andean is a great privilege! I would like to thank my parents for their love and care. I really appreciate having such a great family. I would like to thank my Housemaster and my advisor, Mr. Bedard and Mr. Giel. Without their guidance and advice, I am pretty sure I would have struggled more in my last year at the school. As a boarding student, I have learnt how to be an independent student from them and how to solve problems by myself. Thanks for EVERYTHING sirs!

A special thanks to Mr. Perrier, it is an enjoyment to attend his class. Thank you Mr. Arri and Mrs. Mix, for your guidance on my university applications. Last but not least, I would like to thank all those teachers and coaches who have taught me in these two years: Mr. Paolini, Dr. Joiner, Mr. Scuplar, Miss. Kravchenko, Mr. Ray, Mr. Penton, Miss Venters, Mr. Walden and Mrs. Perrier.

"Alex, it's your week for the next millennium!!". Late for Chapel excuse: "Mr. Robson, it's Victor's week...". Member of the 6 year (fast-tracker) club. U13, U14, U15, U16 Soccer and Basketball. U14 and 1<sup>st</sup> Tennis. Captain of U13, U14 B-ball, Assist. Captain U15. MVPs: U14 Tennis, U13 B-ball, MIP; 1<sup>st</sup> Tennis. Editor of the Review.

So here I am, concluding a chapter in my life as another is already in the making. I will miss many aspects of the school. Mr. Arri's insightful chapel services every morning will definitely be missed. Also, playing for Mr. Hanson's Basketball team for 3 straight years or writing feverishly through Mr. Galajda's 180-mark Biology exams. For this and much more, I would like to thank my parents for all the precious years of opportunities, which they have given to me. I also want to thank my brother, Dennis, for all his support and encouragement through my years at SAC. You've been my greatest inspiration to work hard in school. Special thanks to Mr. Hanson for letting me make the championship U13 B-ball team in Grade 7 and being the greatest: U13 (2yrs.) & U14 B-ball coach, Grade 8 Science and Grade 11 Chemistry teacher, advisor and friend. Thank you sir! Most of all I will miss all my fellow Andeans from the past and present, classmates and friends (Chris, Alex, etc...). I realise that, even though I don't feel ready for University, I will have to take it on as a new challenge - just like I did 6 years ago, coming through the front gates to St. Andrew's College.

Looking out the window of the classroom, the red maple leaf flew solemnly in the air. Hidden behind the curtains of the branches and sheets of snow, the flag seemed lost in the distance. A silent dot flickering in front of the pale winter sky, the maple leaf quietly waved to those who paid attention.

Where is that place?

Where are we?

Where am I....

..... and that concludes the sentimental reflection of this grad comment. Now begins the usual words of gratitude. I would like to thank Mr. Butcher for keeping me awake in class with his exciting digression on astrophysics, Mr. Galajda for keeping me awake after class with a million tests and assignments, the Robotics team for keeping me awake at 1AM with a trip to Home

Depot for ABS pipes, Joshua Lim for waking me up when I accidentally doze off in the library....

Despite the severe sleep deficit, this final OAC year is the best one in my career at SAC. Thinking back to eight years ago, and the little boy who sat alone on the doorstep during break, I think I have progressed a long way.

I have had many people guide me, pat me on the back, show me things in a different light, and encourage me to get the most out of the St. Andrew's experience. My thanks to: Staunton - for your faith in me, allowing me to stay true to what I believed was best, and for your laissez-faire guidance of our Prefect group. Mrs. Mix - for putting up with me and helping me out at every step of the way in my University applications - I will definitely miss the good times in the "office". Mr. Service - for affording me the opportunity to do so much here, your guidance and friendship are 1<sup>st</sup> class. Mr. Dunford - I am now a student of the game and know what it takes to win and what it takes to hold your head high after a loss. Prefects - I could not ask for a better, more diverse group to work with - just remember - think big and it will happen! Finally, to my parents - thank you for sending me here and for always being there for me - both on the peaks and in the valleys.

Some advice to those who have time left at SAC: Get involved in everything you can - don't leave this place with any regret; don't take the easy way out - it will all catch up to you in the end; SAC is a cross-section of the world - make bridges with all; SAC is not for everyone, but if it is for you, grab it by the neck.

My housemasters: Mr. Shrimpton, we started new together and I feel we both adapted rather well. I owe most of that to you. Good luck to you and your family in the future. Mr. Giel, you taught me leadership and responsibility, I'll never forget our conversations in accounting. My football coaches: Mr. Shields and Mr. Cameron, you introduced me to a sport in which I never knew, I've now grown to love it, thanks. My lacrosse coaches: Mr. Robson and Mr. Cowell, I must say this sport is really something, I have enjoyed it greatly, thank-you. My advisor Mr. Dominato who made a newboy feel like he belonged. Mr. Scouler, we went through 4 productions and I consider it an honour. All my friends I have made here at SAC (Heizer, Vlad, Steed, Marty, Patton, Wong, Soupie, Lyons, Nayan, Dustin, Stick, Warren and everyone else) I have so many memories that I will never forget, thanks. Lastly I would like to give a special thanks to my family. You gave me this opportunity that is St. Andrews. I owe everything that I have ever accomplished to you. Thank you so much.

As for words of wisdom for future Andreans... Cherish your years here at SAC, get involved. Your time here is only so long, take advantage of it, because once you leave, all you have left is your memories. Good Luck!

Attending St. Andrew's has been a truly memorable and very unique experience. I have made some very strong acquaintances and had some fun moments. In retrospect, SAC has taught me a great deal about life and responsibility. "I'll get up early tomorrow and finish my homework..." Many thanks to all the influential teachers who have helped shape my academic methods and extend my knowledge, particularly Mr. Myrans, Mr. Aril, and Mr. Walden. To Mr. Shrimpton: much appreciation for your constant support and for making living in residence an enjoyable experience. Shouts out to Cat for always having the plan, Hul for "de-stressification", Mastah for the insight, and General for a steady flow of silliness. "Bean, why are you in our room?" All I take with me from SAC I owe to my parents; thank you both for giving me the opportunity to attend St. Andrew's College. I sincerely hope to keep in touch with everyone I have met here.

But one thing I like to do is apologize for any action when I was younger, it was a very rough time. I also love the sports here, we have great facilities where everyone should be encouraged to try and explore themselves.

Other than that it was a blur.

"And here I am... I try, as one's meant to do thinking perhaps the knack of it will come to me here. But it works no better than it ever did. I have been at SAC four years, and I still can't believe that I am going to leave at this moment. I still remember the very first time when I came to SAC which gave me an impression of "I hated this school very much". And I also wondered why my parents sent me here. As time passed with these four quick years, I finally realized that this place has made me gain knowledge, grow up, and become stronger and more mature. All I can say is SAC changed me a lot, and it is just totally different than what I thought the first time. I am lucky that I came here. Special thanks to my parents and my brother, Colin, for their love and care.

Mr. and Mrs. Perrier, for my life in the best house, Memorial House.

Mr. Aril and Mrs. Mix for advising me on the university application.

Three years ago, even now, every day at school I've always looked forward to the next long holiday break. And time always seemed to pass so slowly, especially during the last few weeks before the break; like right now, one and a half hours before March break as I write my Grad Comment. I feel very lucky to be able to come to this school. I love all the activities, programs and sports offered at SAC, it is at this school, that I skied and snowboarded, skated on ice, played rugby and white-water rafted for the first time. There are also lots of nice people here that I'll surely miss. So I'm glad that I spent my last three high school years at SAC, a nice school with lots of activities and sports to do.

It wasn't a very good way of going through the first day of school in my grade seven year. Almost drowning in the swimming pool while doing the Fitness testing, I thought that school would be a living hell from then on. Also, being the Chubby kid meant that I was part of the Elite intramural team. However, things did start to flourish from then on. In one summer, I grew a foot and ever since then, my sports and academic career have been gradually progressing.

My years at SAC had its share of disappointments but were overshadowed with successes. I would like to thank Robson for giving me only two EBs in my whole SAC career although I've been late for more times than I can count, Wenk for his patience and generosity when I ask question after question for calculus, Myrans for his strictness, and Scoular for making class interesting and enjoyable to go to. I would also like to thank my parents for spending seven years of tuition to keep me in SAC.

Lastly, a bit of advice for some people I've come to know over the years. Nhl keep studying and change your name. Samir go eat some bananas. Robin stop taking all the girls. Larn, your English is getting a bit better. John, don't be like the other Princeton boys. Tat and Tap, you guys will beat me in b-ball one day, if you're lucky. Vogel, stop shooting air balls. To the Chinese, stop telling me to drive you everywhere. To the Koreans, stop being so damn smart. And to the English-speaking people, stop saying Chinese swear words!

Looking back over my five years at St. Andrew's, I remember the first day of school and how I felt being welcomed into a school that would end up meaning so much to me. Over the years, there has been hard work and even harder work but there has also been fun and encouragement along the way. SAC has contributed greatly to making me prepared for the future and my university career, but in spite of everything I have learned, I think I have still managed to retain some youthful carefree exuberance and innocence, (some may call it naivete). I've realized growing up may be a trap and I've tried to turn back, but it doesn't work. Although I now know about the Laws of Thermodynamics, read Beowulf and tried to understand it, I still enjoy talking about horsepower as it relates to engine torque. Innocence can be good thing because I believe it does not distort your vision but rather, enhance it. If SAC has taught me anything it is, "To thine own self be true".

My heartfelt thanks to Mr. Scoular, you are an inspiring and extraordinary teacher. I was very fortunate to have you as my English teacher in Grade 9 and OAC. Thank you to Mr. Perrier, Mr. Galajda and Mr. Amir for your positive encouragement and friendship along the way. To my parents: thank you for your love and support and for allowing me to experience St. Andrew's.

Five years ago, a young, frightened Antiguan first set foot on this campus not knowing what was in store for him. Finding himself on the Great Hall's steps, he quickly said goodbye to his family. As he watched them drive away, he realized he was now completely on his own.

The years have flashed by and he finds himself in a similar situation. He has discovered what life at this school is all about and it is now time to leave the place that seemed so foreign at one point, but now is so comfortably called home. Teachers who once seemed so intimidating have now become colleagues and advisors; strangers are now brothers whose friendships will be harder to break than the loaves of bread served in the Great Hall.

Although the academic growth I have undergone at the college is tremendously appreciated, my most precious lessons were not learnt in the classroom.

No words can accurately express my appreciation to my parents. Mom & Dad, thank you for giving me

the opportunity to experience such a school as this. I know that it involved great sacrifice, however I assure you that it was well worth it. I would have never been able to get through these past years without your constant encouragement and advice.

Kurt, we had some crazy times together: all night painting sessions, long journeys along Yonge Street and McNicoll Avenue and the inventive way we tried to chill a can of coke.

Josh, thanks for rooming with me and putting up with my bad habits over the years. I'll never forget those long math-tutoring sessions you gave me that proved to be so beneficial.

Gummie, don't forget the hype mini cricket sessions in 201 Sifton.

**Fav Sayings:** Any lyric to any song, "Ya, we were close, I played like garbage", "Great hair Marsh", "Ya, he's a fag", "Where's the extinguisher, we've got a flamer", "The money's alright, don't worry about it", "No, Bibby, I don't take Bio", "I don't like laser quest", "I was watching TV last night..."

It's been five long years since I first stepped onto the St. Andrew's campus. During that time I have learned that when you attend SAC, all outside life ends and you become consumed by the place. It's a phenomena that I don't completely understand yet, but I'm sure that in the future, when I look back on my time at the College, the answer will become undoubtedly clear. For the time being, I am satisfied to know that I would not change any of the experiences of my youth and will always remember the friends I made at SAC. At this point, I don't know what to say, (I know Marsh won't have this problem), I just hope you guys achieve everything you want to and remember, in the immortal words of Garth Brooks "I could've missed the pain, but then I would've had to miss, the Dancel!" Lastly and above all, I want to thank my parents for giving me every opportunity that they were able to and always trusting in me.

I had tons of different name in SAC. HK, Hyun, Ku, Mr. Kim so on...

I don't even remember all of it. I spent my crucial time in SAC, and SAC taught me life.

SAC life was not that easy as I thought, but I grew up as much as I spent my life in SAC. I have been in SAC about 4 years, and now I realized that I am an Andean. Finally, I'd like to say thanks to all of my friends who helped me when I need you, also I won't forget all of you guys!

First of all I would like to say a lot of thanks: to my parents for the opportunity to attend this school; to my guardians for taking care of me as their own son; to Mr. Shrimpton - my housemaster and OAC history teacher for teaching me how to live and how people lived; to Mr. McCue - for being an example and a friend in the same time; to Mr. Halstead for always helping and advising me; to Mr. Walden for teaching me how to speak, write and think in English; to Mr. Robson for developing my abstract thinking and original writing; to Mr. Myrans for showing me how to observe, classify and understand the world outside; to Mr. Dunford for introducing me to the basics of math and to Mr. Perrier for improving math skills in a fun way. Finally I would like to

thank my friends at SAC and especially in Flavelle House: Heizer (bug), Dainard (hui), Patton (general), Jason the Mastah Wong, Dmitry (eba, nipon), Mike Mast (big German), Marty and all those at SAC, who have been like a family to me for the last three years.

THANK YOU.

## Jamie King

Sifton House

Although my time at SAC only consisted of two years, these will probably be the times that I will remember most. Some of the more memorable ones were: Weekends in Whitby, Carter's back flips into my hot tub, Haney sleeping in a closet, Gord wearing a mitten, Chuck and his technicolor yawns, and me saying "your cleaning it this time." Thanks to all who supported and believed in me during my years at SAC, and you know who you are. I wouldn't have been able to do it without you. I would also like to thank my parents for giving me the opportunity to come to a school such as this.

## Kenneth King

During Kenneth's first year as a Grade 9 student at S.A.C., he established 10 goals for himself. Here's the list.

- 1) Play on three first teams in one year.  
Reason: First team players are cool.
- 2) Get a S.A.C. leather jacket.  
Reason: Show off in front of friends.
- 3) Become a Sergeant or above in cadets.  
Reason: I don't have to stand at attention for ten minutes, when it's -20 degrees.
- 4) Become the head of Sifton house.  
Reason: I will get the biggest single room in the house.
- 5) Get an average of 90% or over.  
Reason: To make myself look smart.
- 6) DUNK  
Reason: Look cool in front of friends.
- 7-10) PRIVATE = P

By Kenneth's OAC year, he achieved all his goals except for "DUNKING". To Kenneth, these are great accomplishments, and St. Andrew's College is the only place that provides him the chance to achieve such success. He would like to thank his parents, his teachers, his coaches, his advisor, and his housemaster for assisting him in reaching his goals, and teaching him the knowledge that he needs to become mature. Through maturity, all the reasons for his 10 goals changed.

## Al Lalani

Being a six-year member of SAC, I have taken advantage of the many opportunities that the school has to offer. From the playing fields of the sports teams to the late night extra curricular activities, right to the academic scholarships and unique opportunities to study abroad, I have tried them all. Not only has the school allowed me to open up and discover what my interests are, it has taught me discipline, respect, manners and has shown me that getting involved in the community can be fun; thus I have also participated in several volunteering activities of my own initiative and of the school's. Yes, fun I have had, but St. Andrew's College has provided me very well with a top quality education and hence there is no fear to move on. It was once stated by a famous author "Live every day as if it were your last, because one of these days, it will be." and this I have.

**Comment:** I remember, when I first came to SAC, that I wasn't used to it. For example: getting up at seven-thirty to go to the dining hall to sign in for breakfast and then going to chapel; giving a slice of pizza to the OAC guys for taking off my ERs; waking up at the midnight to do my computer homework etc. The time has passed so fast, and now this is my final year. I have some special people to thank. First of all, I want to thank my Dad and Mom for giving me the chance to be a student at SAC. I would also like to thank my advisor, Mr Ray

and Mr Kinney for constantly supporting me academically. Special thanks to my housemasters, Mr Giel, and Mr and Mrs Perrier, for getting me up in time for chapel and assembly. Thanks to my my coaches, Mr Cameron, Mr Paolini, Mr Inglis and Mr Halstead. Lastly, a special thanks to all my teachers. Finally, I will never forget ADC (Ivan, Jason and my roommate, Ryan) who have been an important part of my life. Our friendship will last forever and ever. And I'll remember my Memorial family (Jackson, Danny and Kenneth).

SAC has many "wonderful" traditions to follow each year, such as Carol service and Cadets. Some people said Carol Service and Cadets are the most memorable things in their high school years, I think they might enjoy their life in a different way than normal people do. Hopefully the school policy will be changed soon and SAC will become a school where most "normal" people would enjoy. However, in the past seven years, SAC had turned me from a boy to a man. I am very grateful for that.

Good-Bye SAC and thanks. I sure will miss this place a lot.

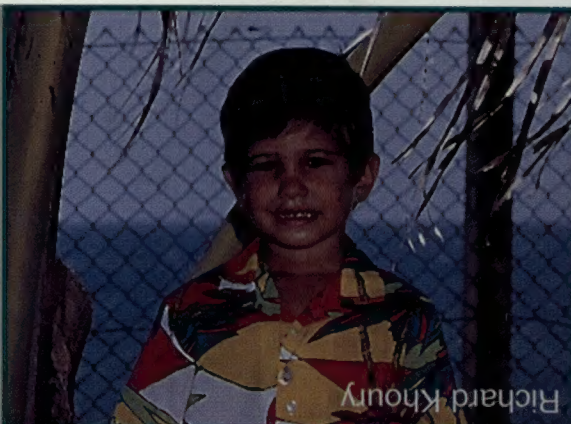

P.S: Special thanks to Victor and Robin. Without them, I would probably still be failing and suffering in grade 9.

I would like to take this opportunity to first thank my parents, for I would not be writing this if it was not for them, for the sacrifices they made to send me to this prestigious institution (my dad kept complaining about how he could have got a new convertible for every year I spent @ SAC). I must say dad, that your convertibles were put to good use. SAC provides a unique environment that cannot be found anywhere else, and it is this uniqueness that gives Andreans the extra edge they need to succeed in the rest of their lives. Of course, it goes without saying that none would be possible without

out the masters @ SAC. Special thanks to Mr. & Mrs. Perrier (my housemasters), Mr. Myrans, Dr. Wenk, and Mr. Whitehead (my advisors), Mr. Rush, Mr. "Sei Guai Lo" English, Mr. "MarkE" Jones, Mr. Walden (the PG plan advocate), Mr. Smith, Mr. D. Inglis, Maj-Capt-Maj Stephens, Mr. Hanson and Mr. Giel (MacDonald Housemasters) for all your assistance throughout my career at SAC. Life would have been unthinkable without your support.

On a final note (for new boys especially), if I had to choose one thing as the most important thing I learned at SAC, it would be "always aim high", because even if you fall short, you would still be pretty well off.

Years at SAC: 5 years

I have been studying in this school for five years. I remember the first day I arrived here, I felt I was thrown into hell, and the people around me except Chinese were evil. But year after year, I was totally assimilated into this school. I knew a lot of new friends from different nations, getting good relationship with teachers, friends, and some staffs inside the school. My English is improving everyday. When I started understand what the teachers are teaching then I was being so enthusiastic to ask and answer questions in class. I feel very very comfortable and without any pressures in this school, and I can't find any place better than here, even my home in Hong Kong. In my opinion, I can tell everyone here is the best place to learn how to be a strong man. This is my final year in this school, and I will enjoy the remain days in here. I will miss this school a lot and a lot.

Thanks for my parents sent me here. I feel proud to be an Andrean.

Special Thanks for my friends: Danny Mak (Dan Dan), Jackson Lau (Ar Son), Roger Chau (Ger Ger), Ernie Lau (Ha Ha), Franko Lam (Fay Gay Lam), Ryan Chan (Bad Boy Chan), Luis Leong (Lu Yee), Ryan Wong (King of Bad Boy), Adrian Ho (Ar Ha), James Chan (Gorilla), Mathew Law (Master Law), Kenneth King (Kin Kin)

Thanx for my teachers: Mr. Bedard, Mr. and Mrs. Perrier, Mr. Halstead, Mr. McGee, Mr. English, Mr. Jones, Mr. Giel

**Comments:** Four years of valuable SAC life have to come to an end. It was quick. The impression I got when I first arrived at SAC was interesting, seeing those football players practice and each of them was like a soldier. From MacHouse to Flavelle, different people gave me different kinds of feelings. I was so worried that I wouldn't fit in. However, three months later, all of these feelings just vanished and what I got in return was some wonderful boarding school life and a bunch of good people around me. When spring came, I liked to see people playing soccer and football on the quad. I still

remembered that I almost burst into tears when singing the Dorset Carol at the Carol Service. Thanks to my parents for providing me with the opportunity to come to SAC. They certainly got their money's worth. The Andrean community allowed me to develop myself as a more complete individual. Also thanks to Mr. Shrimpton, Mr. Walden, Mr. Perrier, and Mr. Foy and other teachers for their assistance and support throughout my SAC career. I will definitely cherish this unique memory and it should be fun when I look back at this in the future.

It's amazing how my first day here seems like yesterday. Coming here to SAC in grade nine, I immediately felt at home. It is this school that has brought me so many opportunities and experiences to which I will never forget such as Homecoming, Thanksgiving Run, MacPerson Tournament, Mayfest, cadets, Prize Day, etc. It is impossible to recapture my experience at this school in 250 words but, in total, SAC has made me become a better person and I will never forget that.

**Optional Line:** (I've made so many friends here at SAC and I would like to thank them for putting up with me. Especially Waabin, you're an awesome friend but remember that I can speak better Cantonese than you! Yic, please promise me that you will stay off the impressions. Uhhhhhh, I take it easy with those arms, you should get them insured before you hurt someone. Capt. Cheng, if I see you again, I hope you won't have your pants above your belly button (nerd). Bong, stay off the stuff. Just being you strikes humour in me, thank you for doing that. Lastly, C, thanks for being an excellent friend and helping me out whenever I need it.)

I would like to thank the following teachers who have provided me with insight, knowledge, and life. Mr. Wenk, thank you so much for your boundless energy and advice. Your wonderful teaching and humorous attitude is one of the reasons why I am still taking math! Mr. Perrier, your patience and dedication has taught me to never give up through any tough situation. Mr. Butcher, you're right, joining the RobotX Team is one of the greatest things I have ever done but having you as a mentor and a teacher is just beyond words. Thank you for allowing me to find, of all courses, physics interesting. Mr. Galajda, I have no idea how I managed to survive in OAC Biology, but I somehow did and so I'd like to thank you for that! Lastly I want to thank my parents for all the sacrifice they had to make to allow me to come to this wonderful school. Dad, thank you so much for working in until the wee hours of the morning to earn every cent to keep me here. I cannot thank you enough for your support. Mom, your love and encouragement has brought me to a level where I am confident in myself and I am in debt to you. Thank you for putting up with me and I hope I've made your proud. I love you both.

Cheers.

First, I would like to thank to my first-year roommate Rodrigo Lopez. He pushed me out of the room because he had to smoke in the room. As a result of that, I could make more friends.

Second, I would like to thank my first year neighbours Adrian Lee and Kenneth King. They always made rice in their room during study time and it made me very hungry and unable to study at all.

Third, I would like to thank Charles Long for giving me a very nice nick name "LIKKID CRRYSTAR". Charles... I didn't mean to.

Fourth, I would like to thank all the Chinese guys for giving me another nickname "SSEY-JJAY" (porno star). Guys! I'm not...

Fifth, I would like to thank all the Korean guys who helped me not to forget our own language so that I could get such a low mark in English.

Sixth, I would like to thank my parents for forcing me to go to a "BOYS SCHOOL" so that I could study instead of doing other things.

**Comments:** Being at St. Andrew's College was a remarkable experience, one that will forever be on my mind. Within these three years at St. Andrew's, I acquired knowledge in a wide variety of subjects, which will be very useful when I start university in September. Within the SAC community, there are many sincere people and I have solidified many new friendships. My personality changed from a quiet person to a sociable and mature person, who always accepted the prevailing conditions with cheers. I am looking forward to the future, and in many years from now, I would be laughing at all the happy moments that I have had here!

First of all, I would like to thank my parents for their wise decision, for giving me an opportunity to attend St. Andrew's College, the best school on Earth! Secondly, I would like to thank my advisor, Ms. Phillips, for her special guidance throughout my life at SAC. Thirdly, I would like to thank Mr. Bedard and Mr. Giel, who have been my housemasters. Mr. Walden has been one of the greatest teacher of mine, not only because he teaches well, but he also makes sure that I come to school to learn and not to do something else. Finally, I would like to thank all the other teachers for their valuable guidance, and all my friends that I have had a good time with. Thank you.

Among the various experiences I have had at SAC since grade 9, my Nepal experience was the most unforgettable and most fulfilling. Inspired by my school precursors, I prepared myself for the Nepal trip of the year 2000. It was the school's fifth Nepal team. Conquering Kala-Patthar (18000 ft.) in the Himalayan range and performing community services at the mountain village of Khumjung for one month, I loved the trip. I was physically and mentally challenged in many aspects through the trip, and most importantly I completed the trip with a positive change in my views and my thoughts.

I want to express my gratitude to my parents and my brother who are always there for me and my appreciation to all of my teachers and friends at SAC.

During my time here, I've developed the necessary physical and mental skills needed to survive later in life.

Firstly, I would like to thank my parents, for putting in so much time and effort. Secondly I would like to thank all my teachers for guiding me through tough stages. And last but not least, I would like to thank all my friends, for they are the ones who shaped my personality and got me where I am today. Nhl - Mobe Pie Ba Bobe Num... When I first started at SAC in grade 9, I hated it. No girls, Saturday classes, uniforms, extra homework. It was all a little overwhelming. As the years went on I liked SAC more and more, and now that I'm leaving, I realise just how much I'm going to miss this place. One thing I will always remember was the day when I was in grade 9 and Mr. Tsiros threw me in a ditch. Nothing was more rewarding for me than being in the many SAC dramatic productions. Mel's runs, Cancun, ISDF, there's so many memories. Cam, you're single and sassy... and a we! REMEMBER FARHAN. Campbell, the fatty/sideburns saga will never die. Naydran, my sign is the sock on the door knob, yours is hell freezing over. Joakim, never break the streak. Kelson, my carpool bud from big bad Kettleby, Lyons from Buckwild, Dainard, Stick, Dustin, Tse (you know what TSE stands for.) Last but not least, Ball. We've got way too many memories to share in one paragraph, but keep on riding. I'll never forget you guys. To my parents, thank you so much for everything you've done for me. I wouldn't be who I am today without your love and support. Oh, and thanks for yanking my butt out of bed in the mornings. I couldn't have asked for better parents, I love you guys. To everyone who has ever gone to SAC, hold your heads high, be proud, and Quit ye like men, be strong.

**Memories:** Kimmerer's 'motivational' hockey program (truly one of a kind). Days of Khakis and deck shoes (for some of us, those days will never die). The smell of smith house lockers. Special Olympics. Homecoming. Friday night at the ACC. The Focus Tent. Grad pranks. Quiz Bowl at Anaheim (3rd). Of Rock and Chalk with Cowell, Sudbury OFSAA, Gangawa. Kilts, pipes, haggis, standing and all that is Scottish. Curley and Moe. Nepal (Haney's hair, Gravel, Sandra Bullock movie, Singapore Airlines, tents, Yak dung, the friggin video...). Math with Weeds. Ball and Lowe at ISDF. The 30-minute drive from Stouffville (all farmland!) and of course the drive home (thank you mom, I couldn't have done any of this without you). The Cadet Store musk.

Mr. Timm's old desks, chairs, and 'no-no' words. Gosbie's huge spills at ski-day. Amazing Grace. HIP with GC. Ronnie and Service hollering after a Volleyball game. Scoular's plays. Petawawa with Captain - thanx cap! Full-scrap. Skiing with Giggles the Children's party clown and of course Stinky was there too. Dinner at DG's. TI-83s. Saturday nights in Richmond Hill (you can always make me smile!). The empty bleachers at volleyball games. Techies (they did exist). Timbit Wednesdays. The old library, filled with computers (email) and rolling chair races. Apple Cider at Hardwood. Exams in Bedard. St. Paul's. The office. Turkey run (10th!). Lasagna on Saturdays (no exceptions). Cadet formal. Prize day 2001.

SAC as it is right now, before the big changes come.

Where to begin? What is most important to me is not what SAC has taught me academically, rather it is what SAC has taught me about myself. SAC is one of those places that give you a million little challenges to handle at once, without you even knowing it until you look back at how you've changed over time. Since I was always kept busy doing something here, being a SAC student was a constant roller coaster ride of peaks and valleys. Fortunately for me the support system here is incredible, I'll never forget getting coached through problems I'd never be able to handle by myself.

Don't get me started about the memories, there's too much to list. On a scale, everything I did here rated from plain crazy (RobotX all-nighters), to totally nuking futz (being the compulsive-nice-guy-after-party-DD-guy). Then there was always the mad Jimmy dash to Upper Canada Mall at 3:05, while making it back in time for sports at 3:30, but that's another story.

To me, SAC is more than a school, it's an experience, a place where all walks of life come together in their own little world at the top of a hill (with that crazy drag strip, err driveway). "I am SO stoked right now. You can't do that in real life."

First, I would like to thank my brother for keeping up with me all these years. Thalia was wack but that's ok. I would also like to thank my parents and my little brother for giving me the opportunity to come to Saint Andrew's. Merci beaucoup pour tout ce que vous avez fait pour moi depuis les sept dernières années.

I will always remember the first night I spent at SAC during football camp, I wanted to leave badly. But the next day, the guys who I will always consider true friends, embraced me, and made me feel like a true Andean. In all it was a very short stay, but I have memories to fill a lifetime, the good ones and the bad ones too. Birkest May 24 weekend on the Dock, the Homecoming victory vs. St Mikes, and just shooting the breeze at Mel's. The list goes on.

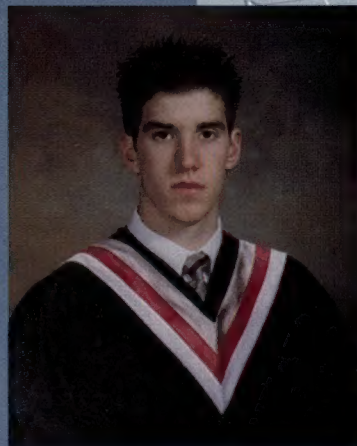

I would also like to thank my Housemasters Mr. Shrimpton and Capt. McCue. Mr. Shrimpton you were always there

when we needed you.

Mr. Cameron, you were a great teacher in the classroom and on the field. You helped us get where we wanted to be.

Boys, you are always welcome to Cornwall. Just ask for the Yo Men residence and they'll point you in the right direction.

Merci Beaucoup!

My four years have been indeed a long and fun journey for me here at SAC. I just can't believe that it's over so soon. There are so many people to thank. First, I would like to thank my parents for giving me the opportunity to attend such a fine school, thanks mom and dad I know you had to put with a lot but I am very grateful for all that you've done for me. I would also like to give thanks to my teachers and coaches, Mr. Cameron, Mr. Halsted, Mr. Bedard, Mr. Roy, Mr. Walden, Ms. Phillips and Mr. Staunton, thank you for making my stay here a memorable one, that I will cherish forever. I also want to give a shout out to all my peeps on the hockey team Marsh, Ovey, Veg, Perris, Pope, and Fully. Ya red leather CISAA Champs, Ceen. To the rest of the boys Bibby, Yari, Moose, Gord, and Bobo, remember homies for life, Ya Herd! Take care boys and Peace Out!!!

Yo Boy! Wow, two years at SAC already past. As I walked into my room in Flavelle for the first time, I gazed at the bunk beds, the tiny desks and the non-existent walking space, and asked myself if I had made the right decision. As the days, weeks, and months passed, I became quite fond of this place, its traditions and its people. My two years were short, but it was a lifetime experience.

First of all, I'd like to thank my parents and my little brother for giving me the opportunity to attend St. Andrew's. Merci beaucoup pour tous les sacrifices que vous avez faites. I'd like to thank all my teachers and especially my great Housemasters M. Shrimpton and Captain McCue. M. Shrimpton you were a great educator in all aspects of life. Special thanks to Coach Cameron who was a great mentor and who believed enough in me to help me get to the next level.

All, keep being the brother you are. I'll probably be driving you around all my life, but I never broke Gord's bed. And you know I'm the better-looking twin. Did I mention Roller Pig?

Lastly a shout out to all the guys I've befriended: Perris, Gord (Where is Wara?), Swenks and his crazy French Durango, the Flavelle Islanders, Moh petit Chucky, Ollie, and DJ (you got to hit those holes harder!).

This place, one that goes beyond the word "school", is by far the most challenging, rewarding, and comfortable one I have ever been in. I will always be thankful for the opportunity my parents and grandmother gave me to be here and for the confidence, knowledge, and friendships that I have gained. I have done amazing things that I never would have started elsewhere. My best advice is to get involved, no matter how unlikely it first seems; what matters most to the success of all your endeavors is effort and integrity, not skill. That is the real way to contribute to the heritage we enjoy here.

My particular thanks to the people that have particularly done so and made SAC a real community: the Dining Hall, Custodial, Grounds, Development, and Admissions staffs for doing the tireless work so integral to life here; my advisors, official and unofficial, Mr. Foy, Mr. Shrimpton, and Mr. Artil; Mr. Ray, for his dedication to debating in Canada; Mr. Hanson and Mr. Galajda for inspiring me in their courses; the guys of Flavelle House, for making it such an amazing place to live; and my role models, then and now, G. Meuser, G. Kwan, G. Chiba, S. Murdock, Y. Yoshioka, R. Brandham, T.&T. Musewe, Mr. Smith, and Mr. Walden.

It is difficult to leave the school because of all the fond memories I have. My experiences at St. Andrew's College will stay with me forever. It has been a long and fun journey here at SAC. These two years at SAC have changed my outlook on life. This school has taught me independence, leadership, organization and pride. I thank my parents for sending me to this fine institution. I would like to thank all the teachers and staff at the school for making my experience a very beneficial one. I also thank my housemaster, Mr. Bedard for always being there in times of need. It's extremely difficult to sum everything up in a few words. This SAC experience has been a unique one that I know I couldn't have found in any other school. It took a while for me to realize how blessed with opportunity I am in an incredible place like this. So for all you people who are coming up in your years, remember that these days won't last forever. Though it sounds like a cliché, make every moment count. You only do it once. I can't say that I know exactly where I'm going to end up in life or even want to end up. But my trust is in God, in faith that I will end up doing something that glorifies him. "Acknowledge the Lord your God in all your ways, and He will make your path straight" - Proverbs 3:6  
I need to big up all the people that made this experience what it really has been for me. I'd like to thank all my teachers, my bomb advisor Mr. Bedard, Coach Galajda and Mr. Butcher, two teachers who kept us working but it was all worth it. I really want to thank Mr. And Mrs. O'Hare, you have been an amazing support and a real refresher whenever I needed it, thanks for always making time for me. I'd also like to thank Mr. Tsioros for all those years of inspirational track training, it ain't easy being cheesy! I'd really like to thank the guidance office especially Mrs. Mix for the encouraging smiles and the "Acknowledge the Lord your God in all your ways, and He will make your path straight" - Proverbs 3:6

**Activities:** 1st weight lifting, 1st hockey, 1st lacrosse, Outreach, Duke of Ed, Cadet Officer, Chinese five pack.

**Most Memorable Moments:** Marsh's fridge, Stock's basement, Roadtrip to Oswego, Spencer, Buddhist Temples, East Side Mario's, Aurora pub crawl, Cab rides, Semi, Ontario's #1 line with Gids and Perrs, MacPherson, CISAA hockey champs!

**Future Aspirations:** Dr. Owens

When I started in September I didn't know what I was getting myself into. I had no idea of the tradition, the pride and the heart which makes St. Andrew's such a unique place. As my days at St. Andrew's come to an end I wish that I had spent more time here. I'd like to thank my parents and the school for making all this possible. Mom and Dad you have always been there for me and I thank you for that. St. Andrew's, thank you for giving me this chance. I hope I have made the best of it. To my boys: Veg, Marsh, Stock, Perrs, Manse, Fully, it's been a crazy ride on our road to beating those smurfs and getting our red leather. Good luck to the younguns: Parent, Hurst, Mitch, Zorro, Rothwell and Shoshine; I just hope my tips have helped. To the leaders of next year: Healey, Weedo, Gids, Snitty and Stock, make it a repeat. Finally to Nichole, thank you for being so special, I love you lots.

Thanks for the memories St. Andrew's!

SAC has proved to be a real blessing in my life: I have received an amazing education, been a part of many teams, joined lots of clubs, made some good friends and much more. However, I haven't always recognized SAC for what it is. For the majority of my Grade 9 and 10 years I really disliked this place; it was out in the middle of the country, there were no ladies and I felt a little out of place at times. When I began to realize that the opportunities at SAC allowed me to tailor my time according to my interests, I began to appreciate it more and more. I also discovered that the more I put into it, the more I seemed to get out of it. It also took some restructuring of my priorities, but that is something that can be expected when you have just entered high school. Basically, I'm a different man than I was when I first entered SAC and a large part of that is attributable to my experience here. To try and name everyone who has contributed to this or to try and recall all of our experiences and label some as more important than others would be futile, so I'm not going to try it. However, I really hope that everyone who has contributed to my life in anyway knows how much I appreciate them; something I've learned as a fact over the years is that "Every good and perfect gift is from above..." (James 1:17) and so each person whom I've had the honor to be affected by, I see as a good and perfect gift. Thank you and may God bless and keep you.

## Adam O'Meara

Thanks Mom and Dad. The second and third chances meant more than you know Dad. I guess you know your nickname is sticking with you when your teachers and coaches start calling you by it. I was labeled "Veg" (pronounced vedge), by the only other true idiot in the school. But because of my great wisdom I was also known as VeggieWonKenoble. A few others call me Blunt.

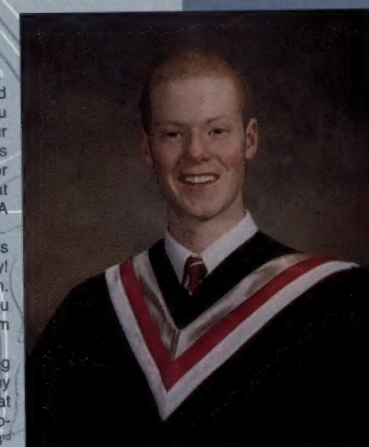

All too often I would catch these words coming out of my mouth. I can't see straight. Chydgy! Seen! So, I'm staying at your house tonight Marsh. Geez, I don't know Mikey... well ok. Let me tell you something... ticca ticca ticca. Awlusyl! Let's Do It! I'm all about...

Most memorable times? KEGS, Homecoming 2000. Forever Greens. That Cabride. ISAA Hockey champs 2001. Manse, Curb! Formal after parties at Chiscolm's. East sides. OFSAA hockey 1999. Sleeping in a bath tub with a shower on. Truckasaurus. 3rd terms. Room 301, Solin House, MB... don't ask. Cancun 2001 Grad Trip. And anything else important that I simply can't remember.

Sports were a blast. 1st hockey, 3 years, OFSAA silver medalists, ISAA champs. OFSAA Cross-country. 1st Lacrosse. When possible, 1st weight training.

Last thanks go to, Mr. & Mrs. Perrier, Mr. Bedard & Mr. Roy and Mr. Walden (I don't know what I would have done without you sir, honestly).

Keep it real crew, (Yari, Bloot, Fraser, Moose), it's been a slice.

**Activities:** Cricket, Island/Asian hockey game groupie, 1st Flavell Ethnic Fatigue Finalist, Chief Representative of the no-accent Islanders, First non-Asian Vampire Club Chairman (Flav. Division), Member of Flavell Raping/Pillaging Committee, Member of the Disgruntled Chapel Readers Assoc... I do "huff tings".  
**Future Appearances:** Enlistment in the Bermudian Army. Perhaps I'll be a great lawyer someday and I can come back and sue this place for "mental damages".  
**Comments:** Thank God... it's over. The five-year ordeal that I call SAC is done with. My parents deserve much praise for trusting me to actually work at a school like this. Thanks mum, dad, for giving me the chance to experience boarding life before it bowled me over at university. I know it was a tremendous sacrifice on your part to get me here, and I'll never forget that.

I might as well thank what few friends I've had here for putting up with my eccentricities. It would be poor taste not to give big ups to the WIC, both past and present. You lot kept me from losing my sanity in a multicultural society, even if I was a bit of a disgrace to our region. I should also recognize fellow OACs and old comrades of earlier years who didn't beat me down too hard.

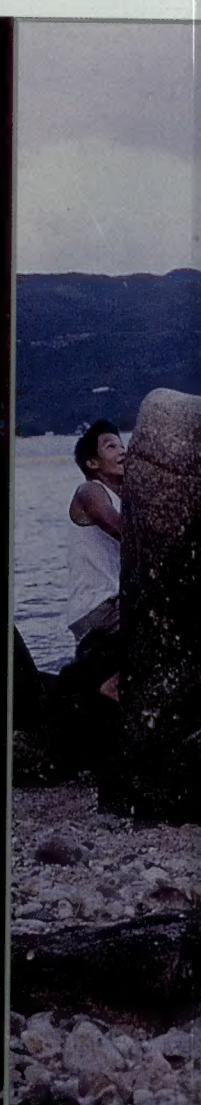

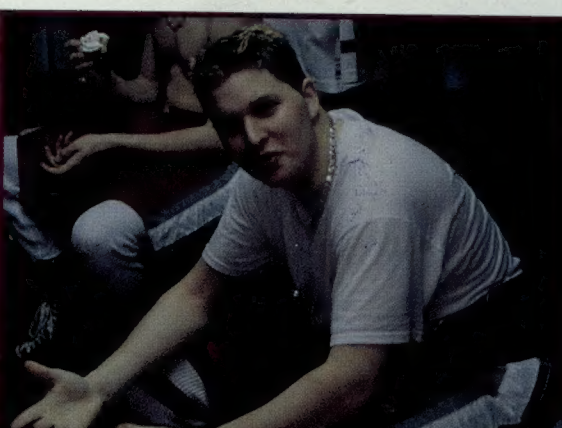

To the Staff: I know you will probably never read this, but thanks all the same for making life easier for SAC students and doing the odd jobs people usually overlook. I've tried not to ignore everyone who works here, despite being too busy sometimes. Hopefully, every SAC student tries to return the common courtesy you show day after day.

Finally, the Faculty. I haven't always agreed with everything you have said, and by no means do I enjoy your collective company. But I am a stubborn student, and it has been the nagging of my Advisor and numerous other members who have goaded me to excel (somewhat). It's safe to say that your efforts to make me a better all-round person have succeeded. No easy task, I know. At any rate, you're rid of me now.

Regards,  
John

Seven years in one place is a very long time. However, when you are surrounded with such great friends, both teachers and fellow students, the time seems to fly by. Lower school was three great years in Laidlaw house. Grade 10 was when we noticed that girls actually did exist. Grade 11 was the jump into the big sports and my only trip to OFSAA. Grade 12 saw me have my best and worst highlight at SAC. Nepal was amazing. This year was just one long swan song that just couldn't go bad, I am so happy I was able to enjoy it. I can still remember back in grade 7 when I sat terrified in Mr. Myrns classroom. How times have changed as he has become my advisor, friend and a valuable resource through the years. Mr. Bedard, and Mr. Bedard Sr. you could not have picked two better role models for me to emulate, your patience, wisdom and humble leadership will never be forgotten. Michel et Michelle  
you have been like parents to me for as long as I can remember. Nepal to the rink, and hopefully more to come. Thanks to Mr. Giel, Mr. Service, and Mr. Robson who stuck by me through the thick and thin. Also I cannot forget to mention Mr. Shrimpton and Mr. Dunford whose mentoring in sports has aided me greatly. I don't know what I am going to do in life away from SAC. I know I will definitely miss the unique camaraderie that takes place within the gates of SAC. I will have trouble living away from the guys who I have become accustomed to be around for years. Carter - my oldest SAC bud. Gord and Devon - friends forever. Ali and Olivier - you guys are irreplaceable! Pope - The man with the plan. Fully - come back to Canada. Best of luck to Kelson, Marshall, Owens, O'Meara, Haney, Chuck, Swenks, Mike, Marty, Wong, Mance, Dave. SM you made this year so special for me. Words cannot begin to show the gratitude and appreciation I have for my parents who have provided me with such a solid education. Your love and support has made me feel special and I will do my best to keep you proud. Thanks also to Jason and Tara for being who you are.

There are qualities in people that reflect the standards they set for themselves. The ability to be gracious in defeat, to affirm big, and to pray big are some of Aaron's traits. Governing his passions at all times, this young Spaniard spent six years at SAC never quite turning into the epitome of an Andrean. After all, his reputation was an infamous one, for he struggled to tone down his recklessness and indiscretions. Nevertheless, Aaron now looks forward to going home to Spain. But before taking his departure, he wishes to thank his advisor Mr. Scouler, as well as Mr. Walden and Mr. Staunton who somehow always understood where he was coming from.

What can I say about my five years at St. Andrew's College? When I first arrived in Mac House I was definitely not all about boarding school and I never thought that I could be happy here. Through the years I figured out that St. Andrew's isn't just a place where

you go to school to learn stuff, it's also about brotherhood and learning how to be men. This place is probably the best thing that could've happened to a shady character like me. I'd like to thank the school for giving me all those chances; I really didn't think that I was going to make it to my OAC year. And to all my boys, what can I say, we've caused a lot of sh&t over the years: Blont, Veg, Yaaari, Pony, Cyat, Mance, Fraaaser (good luck next year), and all of the fallen crew members... Monkey, Dave, Dred, Forbesy, Cook, Rogers, Nate Dog... you will never be forgotten. And for those of you who'll be here next year... live it up, tomorrow comes sooner than you think.

Every year it would seem as though the older guys became smaller and smaller as I grew. Every year we would learn more and more with our experiences both in and out of those front gates. It is always a journey from your first day at SAC to your last, the real question lies in how you get there. Be it through the woods or along a bumpy road, we all take separate paths that lead beyond those distinguished gates, and if we were to retrace our steps at any point, we will all remember where we started.

Next year, everything changes. Everything I learned over my 3 years at SAC may be totally forgotten. I may not remember any valuable lessons, and may not even remember the last bit of great advice my teachers bestowed upon me, but at least I'll remember all the good times I had, and all the friends I made. I'll remember the sweat I threw on the football field, the laughs I had at Focus, and the bonding I had in the dining hall. I'll remember all the times I was passed in the Thanksgiving run. I'll remember all the times I wanted to give up, and I'll remember all the times my friends wouldn't let me. That will be with me forever. Nothing is forever...except memories.

My St. Andrew's College experience was definitely one to be remembered, over my three year stay here I have evolved into a better human being. The people I have met and those who I have made life-long friendships with are forever imbedded into this chapter of my life. None of this would have been possible if it were not for the continued support of my family, who were there through thick and thin offering whatever support was possible and more. I would also like to thank the Perrier's for always being there and my teachers for always offering new challenges.

Nuff respect goes out to Rich who was always my bredrin and the patriotic Spaniard who, although he was on my nerves at times, was like a brother. have made it through. Dad, thanks for all those 2 hour advice sessions over the phone. I really needed them when I was struggling. You made me change the way I look at things, especially those nice Chinese proverbs for my everyday problems. Dennis, you're all alone now, enjoy every little moment you have here. Strive for the best and don't let anything hold you back. I will always be proud of you. Mr. Myrans, thanks for all the things you have taught me, even though I might not always agree with you, I will always remember the things you've said. Mr. Dominato and Mr. Smith thank you for all the countless hours you have spent giving me valuable advice. To all you young Andreans out there, remember, leave a legacy. For once you step out these gates, nothing will be remembered of you except for the things you have done. Finally to my friends, ADC will always be part of my heart, the guys, thanks for letting me work with you all this year. We finally made it and hopefully it's the best we have done. I have to start by thanking my parents for offering me the opportunity to attend SAC for 4 years, and especially my mom for keeping me at SAC for the last 2 remaining years. SAC has completely turned me around from the day I first walked into Dunlap Hall. I made some of my best friends at this school, whom I'd also like to thank. Paul, you've been a great friend and I know the fun doesn't stop here. Gord and Carls, you're always a great time whenever we go out. Samir, you've been a great friend these past two years, remember, its all B-ball 4th period day one, or should we do some worldz?? Eric! I do me proud while you remain at SAC. Ali and Oli, don't forget the little guys. Tom, Chuck, King, would be so much to ask if you could cut down on the CRAZY! Finally I would like to thank Mr. Walden, Mr. McCue, and the Perriers, whom have helped me so much at SAC in times when I needed help, I can't thank you enough. To the rest I've forgotten, forgive me I'm reaching my limit, but I thank you as well.

Integrity, pride and spirit. These are the only things I remember since I stepped into SAC. Time just passes by too quickly. I came into SAC 3 years ago and now I'm leaving. Maybe I should go into grade 14... Nah. If there's one thing I can't stand about this school is that it's not coed. Everybody's too far away (or we're just out in the middle of nowhere). I won't forget about all the nicknames I get either. Tasee, Sai master, Poopy - (oops), and the list goes on.

I would like to thank my friends for such a great time at SAC. Jenny and Cam, stop trying the 5.12, you won't make it. Fatty, enough said. General, keep shooting for the 85. Roger, how many pairs of shoes will you have by the time you finish University? Elbow, still trying to "fit in"? Pop-can, when are you going to teach me the funky robot? Gordo, don't stop the drilling. If I let your name out, don't think I didn't forget about you. It's just that I'm limited to the number of words. Teachers at SAC have also been a great inspiration to me. Mr. English & Mr. Butcher, thanks for showing me a great time in RobotX. Mr. Rush, you've showed me the path to my future (hardcore programming and no pseudo). Mr. Hanson, thanks for helping me with my hard times. Most of all, I would like to thank my parents for providing me with such a great opportunity to be enrolled at SAC.

1999-2001

Although this is my graduation year, it is only my second year in SAC. However, the school already gave me a strong impression during my two-year stay. There are lots of unique characteristics about SAC. One of them is our seriousness about sports. Everyone chooses the sport they are good at and work hard both on and off the field. This year's hockey, basketball, soccer, rugby and many other teams all amazed me with their effort and glorious records. Cadet another thing that's unique about

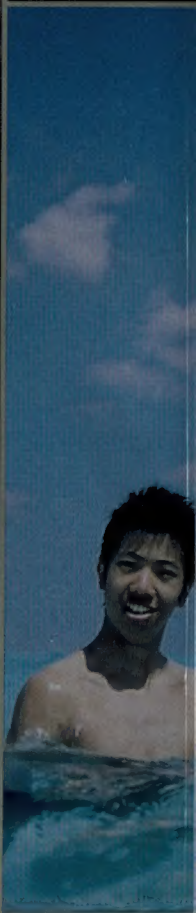

this school. There are people with high ranks and those with lower ranks like me. Nonetheless we all work together and try to bring up our best performance. Both sports and Cadet brings out best of us and let me realize how important school spirit is. Good job Saints! Keep it up.

# Terry Fox Run

September 29 - The first annual St. Andrew's College Terry Fox Run for cancer research took place. Approximately 550 students, staff, and parents participated, contributing slightly more than \$8,000 in total pledges. This is yet another example of the Andean community banding together in support of a worthy cause. The event was held in conjunction with a school spirit day. Students and staff alike were sporting their red and white finest. Morale was high and school pride was evident everywhere you looked. We could not have asked for a more positive lead in to our Homecoming weekend. Congratulations to all those who participated in this event, and thank you on behalf of the Terry Fox Foundation.

# Cross-Country Run

The much anticipated traditional race was once again filled with excitement. The Headmaster's starter pistol signaled the start of the Junior and Senior Cross Country races. The day was cold and wet forcing many people to fall, but it didn't stop the die hard Andreans from running in practically nothing. This years race was wide open with no heavy favorite to be victorious. After a quick loop of the lower fields, tour of the Staff housing, jaunt around the track, and a sprint to the quad everyone was exhausted (well those who ran anyways). Fan favorite Adam O'Meara won the senior race by a large margin, while Jay Smith captured the junior race.

# William Shakespeare's "Hamlet"

Hamlet is the best known, most influential, most quoted, most analyzed and most often performed play in the English language. Why do we do it? Why do we keep putting this play on, over and over, and why do we keep going to see it? It's because Hamlet himself - Hamlet the character - has kept his secret. Is he an idealistic young man driven to despair by a corrupt society, a failed revenger, a manic depressive, or an existential hero?

Our Hamlet - for good or ill - is naive, concrete and archaic, but there is room in the shadow of Shakespeare for everyone. Playing Hamlet, Warren Lowe, displayed an energetic presence on the stage and his riveting portrayal of this bizarre character left everyone awestruck. A cast of fifty students made good use of their hard work as it was shown brilliantly in four wonderful performances.

Once again Mr. William Scoular used the latest theatrical magic in the performance, such as the snow for the graveyard scenes, the fireworks for the Coronation, and the lasers that covered the ghost. All together it was another excellent production for the SAC Dramatic Society.

Hamlet was directed by William Scoular.

# St. Andrew's Night Dinner

November 30, 2000 - December 1, 2000

In late November, the Andean community gathered once again to celebrate St. Andrew's Day. The Upper School received words of wisdom from guest speaker Judge Jim McPherson, while the Lower School heeded the advice of Mr. Steven Creber ('90). Mr. Ray gave the Ode to the Haggis in his traditional Robert Burns style, while Mr. Inglis took care of the awards portion of the evening. Everyone thoroughly enjoyed the meal and entertainment, provided by Capt. McCue and Mr. McGillivray.

# Carol Service

On a windy Saturday afternoon, St. Andrew's College gathered in St. Paul's Anglican Cathedral for a full day of music and Christmas spirit.

# Ski Day

**January 25, 2001**

The annual Ski Day took hundreds of downhill skiers, snow-boarders, and snow bladers to Blue Mountain Ski Resort in Collingwood for an intense day on the slopes.

Light snow and sun made for a great day of skiing, with the exception of a few injuries (thanks to our snowboarding friends).

Thanks to Mr. Walden and Ms. Beck for all their hard work, and to all the staff who attended. It was yet another successful ski day for the school.

# MacPherson Tournament

The St. Andrew's College Varsity Hockey team continued to play inspired hockey at the 18th annual Macpherson Invitational Tournament. Finishing the tournament with a record of four wins and one loss, the Saints won bronze medals in convincing manner with a 5-1 win over St. Francis College (Athol Springs, New York). Like usual the Friday evening game was entertaining. The Saints rallied around Luc Zoratto's two goals to defeat Albany Academy (New York) 3-0 in front of a large energetic crowd. Goalies Tyler Hurst and Jimmy Healy posted a combined 1.2 Goals Against Average throughout the tournament and joined fellow Saints forward James Gideon on the tournament all-star team.

# Mousetrap

In 3.5 short months, this terrific ensemble cast of 8, pulled together a play of extraordinary proportions and magnitude. One of the world's best known and most loved plays, with the theatre world's best kept secret, this small cast brought each character to life. The cast showed tremendous spirit and enthusiasm in recreating these roles for their audiences. Cameron Steed as the ever sleuthful Detective Trotter; Laura Bonesteel as our charming hostess Mollie Ralston; Michael Reid as the questioning, yet supportive husband, Giles Ralston; Collin Collins as the eccentric suspect Christopher Wren; Mrs. Jane Staunton as the difficult, set in her ways, Mrs. Boyle; Michael Dainard as the calming, thoughtful Major Metcalf; Meghan Marshall as the boisterous, sarcastic Leslie Casewell; and Mr. Fraser Cowell as the mysterious stranger, Mr. Paravicini. Thanks also have to go to our crew: Pablo Sanders as the stage manager, sound operator and prompter; John Housser as the lighting technician/wizard and Brandon McNally and Jeremy Springer as his crew, and Austin Ball as the designer's assistant. Thank you also to Mr. William Scoular, D'Arcy Montgomery and Torin Buzek.

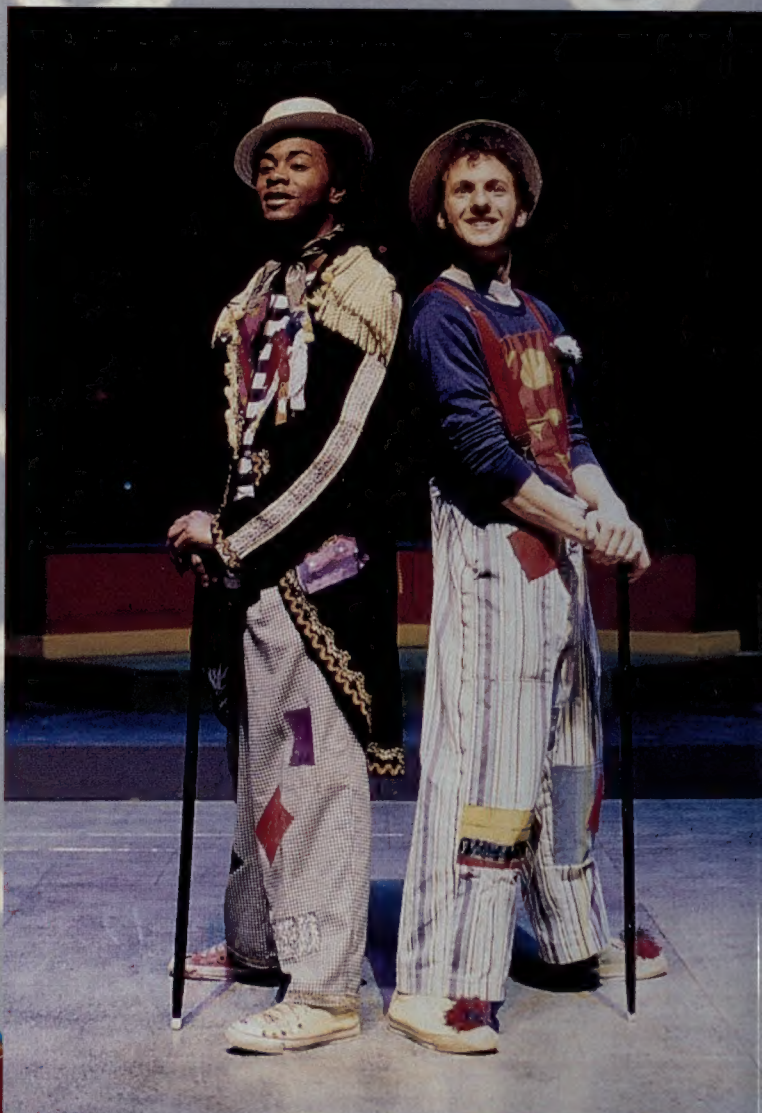

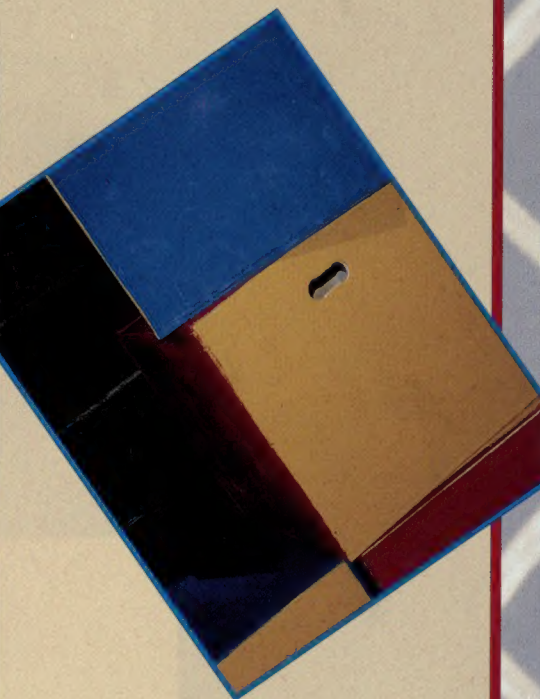

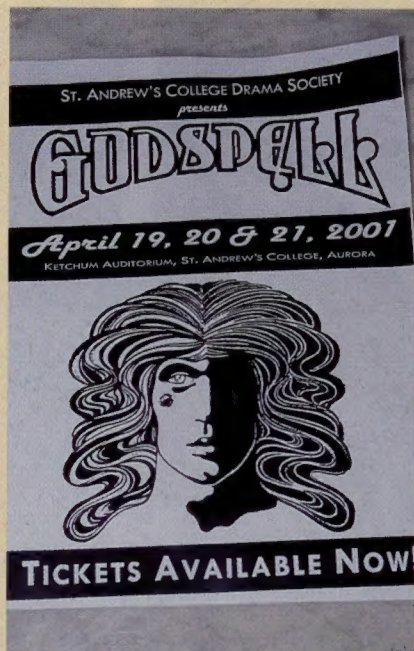

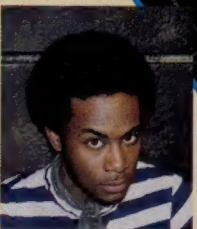

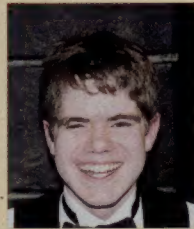

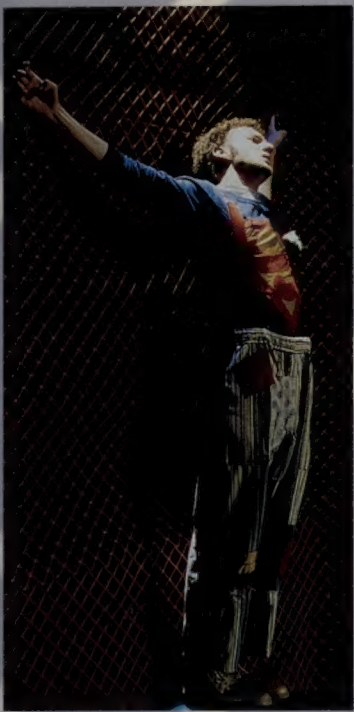

# Godspell

The St. Andrew's College Dramatic Society put on its first annual musical revue this year, the 1960s musical Godspell. It was a small cast, but it was enjoyed by all.

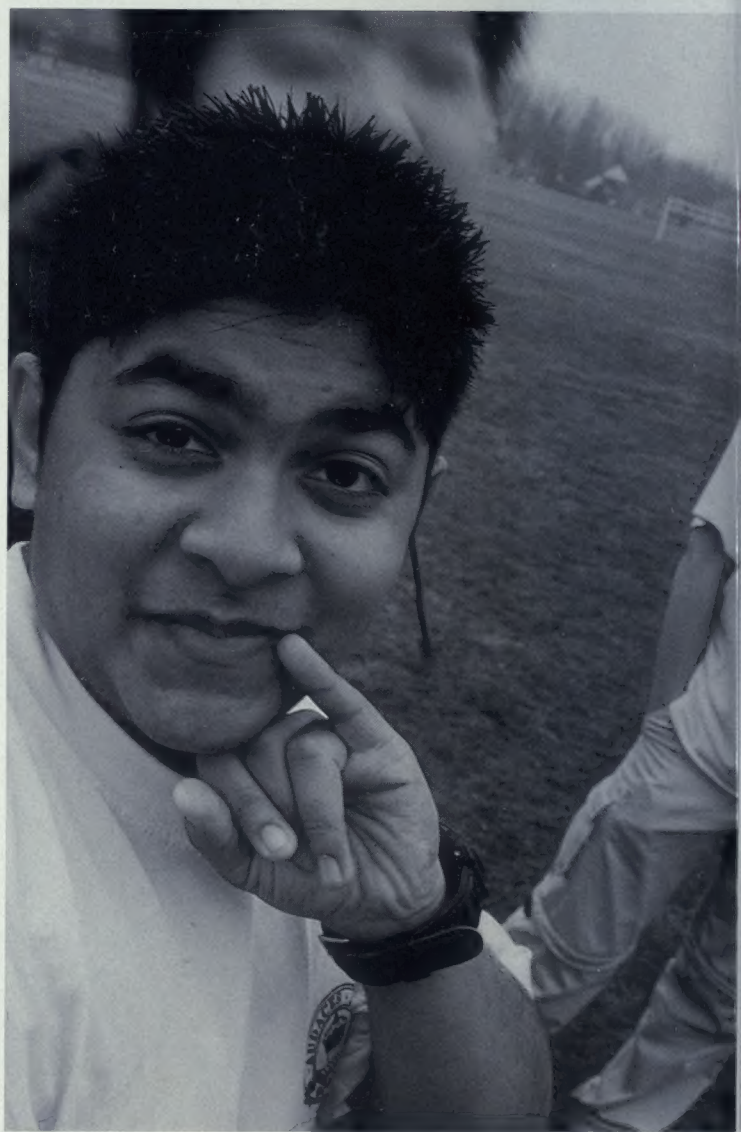

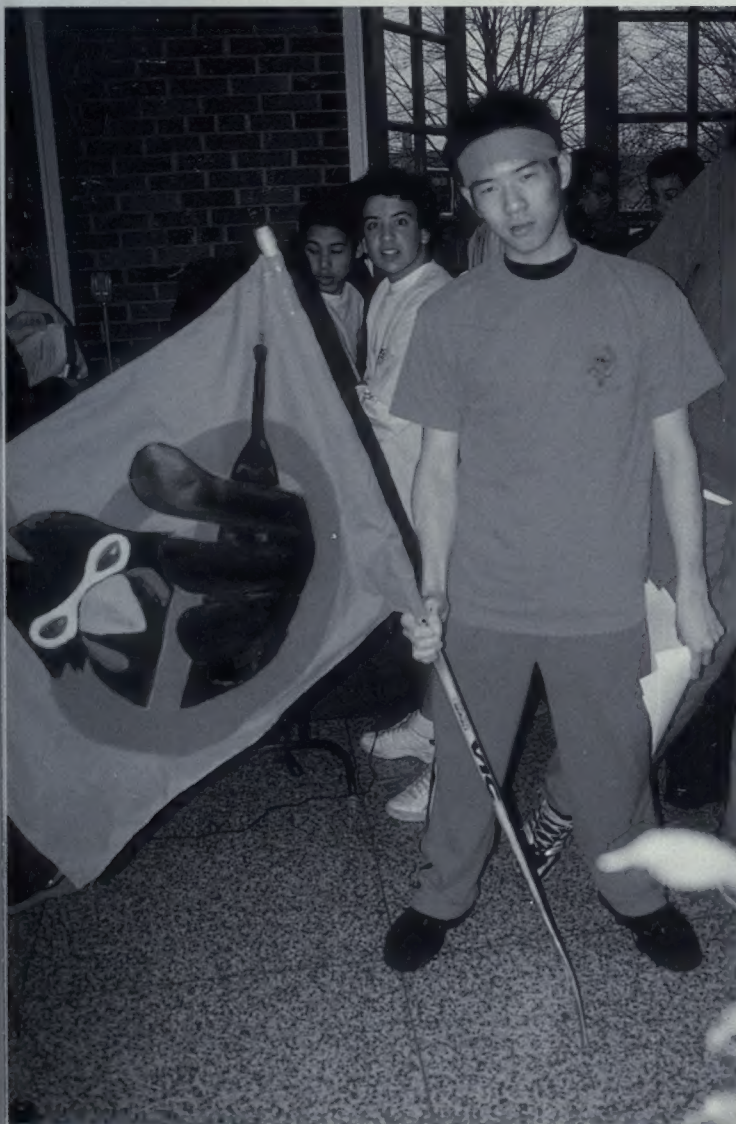

# Springfest 2001

It was a rainy day in Aurora when the boys of St. Andrew's gathered together for Springfest 2001, a celebration of the season of blossoms and sunshine. Ironically, the day was rainy, windy, and cold, but it did little to dampen the spirits. Spread out over the upper and lower fields, the boys spent the morning competing house-against-house in a series of twelve Highland Games, from Hydro Basketball and Ultimate Frisbee to Karaoke and Slip and Slide.

The eventual winner of the day was Laidlaw House, who managed to pick up the most points in competition. The OAC boys served as team captains and games leaders over the course of the day, which was followed by an indoor barbecue and the Springfest Dance. Thanks to the prefects for putting this day together.

# Casino Night

On Friday, April 6<sup>th</sup> the Outreach Committee hosted a Casino Night Charity Fundraiser. All proceeds from the event went towards the sponsorship of two underprivileged children to attend a school called Dr. Graham's Homes in India. The cost to take a child off the streets of Calcutta, to feed, clothe, educate, and to provide shelter for him/her for one year is approximately \$500. S.A.C. has been affiliated with this organization for thirty years now. We currently support two young men by the names of Clive Smith, and Jennie Basumata.

Students from S.A.C., as well as girls from some of the independent schools and local public schools, purchased tickets to attend this event. Casino equipment was provided by a company called *The Main Event*. The St. Andrew's Ladies' Guild provided baked goods and beverages. There were Black Jack, Crown and Anchor, and Craps tables as well as slot machines. At the end of the evening, students were able to use their winnings to bid on prizes during a surprise auction. The event was extremely successful both in terms of entertainment, and fundraising.

# Track and Field Day

Before heading out for a much-deserved Victoria Day long weekend, the boys of St. Andrew's gathered in the Upper Fields for the annual Track and Field Day, an afternoon of athletics that pitted house against house in a series of demanding events. It was a gorgeous day of friendly competition, but in the end, it was Flavelle House that came out on top.

Houses

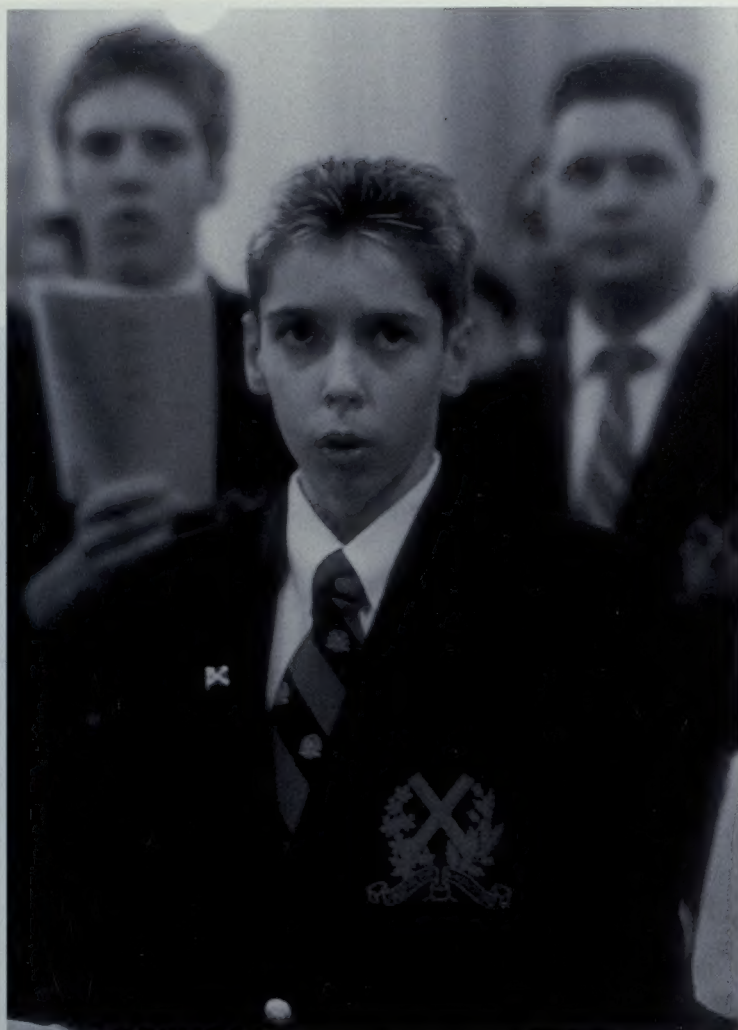

# MacDonald House

Housemaster: Robert Giel

## Housemaster Robert Giel says:

With 48 new boarders arriving in September much had to be done to orientate all to the routines of the House and the College. With the help of House Captains and returning boarders, all went smoothly. Regular bar-b-ques on the triangle plus House sports activities in the evening ensured that friendships were made. Weekend program trips made Sundays enjoyable experiences. Trips to Ottawa, Montreal, whitewater rafting as well as two ski trips to Mont Tremblant were exciting experiences.

This year's award winners were representative of the many talents which were seen in the House. Senior athlete was Zameer Velji-Pirani, junior athlete was Jay Smith and winner of the Manny Cominsky award as chosen by his peers, was Mark Gupta. Our most distinguished awards, The Edith Grant Trophy was presented to Jay Smith and The King Memorial Trophy to Mark Gupta.

Special thanks as always to T, Mr. Tsioros, for his ongoing support and to Stew, Mr. Stewart who, as our new Don, jumped in with both feet. I would be remiss if I did not thank the ladies of the House, Sandra, Mary and Mrs. Wiseman for their ongoing efforts to pick up after, and make the boys presentable on a daily basis. Also thank you to the Duty Masters and House Captains for their tireless efforts.

Mrs. Giel and myself will take away many fond memories of our five years in Mac House.

## Housemaster Courtenay Shrimpton says:

2000-2001 has been a banner year in Flavelle. We began with a strong showing in the cross-country run and had Brad Downey place second overall, quite the feat for this grade ten boy. Over the first term, with the leadership of Dave Richardson and the Floor Captains, all of the boys worked extremely hard. At Christmas we had 21 scholars out of 60 boys.

The second term saw even greater accomplishments, first with the appointment of Andrew Martin and Jason Wong to two of the top three leadership positions in Cadets. The annual Cadet Inspection marked another outstanding set of achievements with the "Platoon of the Year" Award, and with Mitch Myers walking away with individual top honours. Finally on to the annual Track and Field Day led by David Richardson. Flavelle dominated the day leading by as many as 60 points at one point and coming away with a thirty point victory.

Future years of Flavellians will have to live up to the standards set by this group and will have to continue to demonstrate excellence and commitment if they are to match or surpass this year's success.

We say goodbye to faithful grads... Dave (Moose) Richardson, Matthew "Pilgram" Fullerton, Jason "Mastah" Wong, Andrew Flavelle Martin, Michael Dainard, Eric Heizer, Vladimir Kim, James Chan, Ivan Leung, John "The General" Patton, The "Yo-Man" Twins, Yari Azzopardi.

## Housemaster Paul Bedard says:

Nearly 25% of the students in Sifton House were in Grade 9. This represented a pretty unique mix but one that will be common place after the elimination of Grade 13.

June '01 marks the end of some long standing members of Sifton House. Tom Haney, Josh Lim, Adrian Lee, Hyun Kyu Kim, Boun Hun Lee, Kenneth King and Richard Khoury have all spend at least four years in the House and have set a fine example of deportment which reflected the tone of the residence. They were solid citizens, who got involved, but were not interested in the spotlight as evidenced by the fact that I am writing my first house review in my seven years as a Housemaster.

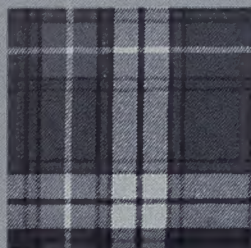

Peter Vogel, Vincent Leung, Jason McKenzie, and Sam Hsu graduate after three years in the residence while Ryan Cheung and Jamie King completed Grade 12 and 13. These six also made significant contributions to the life of the school and the house. All but one were scholars, joining four of the seven in the first group. On the whole, Sifton boasts 23 scholars from Grade 10 to 13. This includes five boys whose averages topped 90%.

Some other individual accomplishments were also noteworthy. Peter Vogel won an OFSAA Gold medal in swimming, Brian Lin, John-Ross Lennox, and Adam Guy were named as Prefects for the 2001-2002 academic year, and Randall Blom was selected as the Head of Sifton House. Josh Lim earned the Sifton House award for contribution to the life of the school and the residence. A steady trail of students made their way to Josh's room prior to Math tests, he refused no one.

Regrettably, also no returning are an outstanding group of Mexicans. Roberto Flores, Roberto Figueroa, Julio Martin, and Cesar Gonzalez, in particular, took full advantage of the SAC experience and gave so much back in return.

On behalf of the House, I thank Mark Service for his three years as a loyal, friendly and helpful Assistant Housemaster.

The fabulous 60, assembled from many different countries, handled the demands of the very fast paced lifestyle of St. Andrew's remarkably well. The combination of academics with the wide range of after class activities kept most in Memorial busy and productive. With Charles Long, Jackson Lau, and Kurt Schmick leading the day to day operation of the House we were in good hands.

Highlights have to include Mrs. Perrier's House Breakfasts, special treat nights and those steak BBQ's, taking in two Raptor's playoff wins, Jason Bayley's ping-pong tournament, Chucky Bergeron making the SAC history books with his marksmanship, Jimmy Healey closing the door on UCC, Jamie Lawson winning the hockey pool, IJeff Williams making the Honor Roll, Adam O'Meara winning the School X-Country Championship, Gordon Hunter achieving elite status in X-Country Skiing, Aladdin Diakun rocking the stage, John Brooks providing music entertainment for dances, Andrew Douglas' piping magic, several chipping in with community service, and much more. Of course the highlight for the late risers was running ER's, hourly sign-ins on weekends, and generally missing on what could have been done.

In the halls of Ramsey, May 31 brought an end to a year that was unparalleled by any other dayboy house. Our final four-day festivities included an "Out Of The Blue" Pizza morning (cold pizza - the Breakfast of Champions!), a HUGE Bar-B-Q, and the last of our infamous Timbit Wednesdays! Truly a fantastic four days!

But now that we, the students of Ramsey, are well into our exams - morning chapels, EB's, and sign-ins have become a thing of the past and it is now time we reflect on the past 10 months, and the house that given us so much this past year. We remember our fabulous Housemaster who, even though is leaving us, gave everything he had to ensure that Ramsey remains one of the most exciting House's in the school. Next year, Mr. David Galajda will leave the exciting halls of Ramsey House to venture into the Middle School Boarding residence, Macdonald House. Although sad to see him go, Ramsian's look forward to what will surly be a pleasurable year with their new Housemaster, Mr. Michele Cameron.

Joining Mr. Galajda in his departure from Ramsey are the graduating students, who include Devon Ajram, James Allen, Chris Chui, Roger Chau, Paul Joakim, Prefects Gord Birkett and Tapfuma Musewe, as well as the three Ramsey Heads of House, Mike Campbell, John Lyons and Cameron Steed. In a year of vests, Bar-B-Q's, paintballing, Highland Games, Track & Field victories, and great music 70's classics playing from days of old, it is hard to think of a time when being a member of Ramsey House wasn't the best thing to be. Good luck to those leaving, as well as returning, and everyone who helped make Ramsey House what it is today!

## Housemaster Stephen Kimmerer says:

This was the first year that Laidlaw House was member of the Upper School Fraternity. But even as the "new-boy" on the block, we were able to show the veteran Houses a few new tricks. We had solid leadership in Co-Heads of House Paul Perrier and Robbie Carter and the *Three Prefects*, in Mike Craig, Ross Marshall and Perris. These guys epitomized involvement and lead by example all year. This along with the cagey drafting of Mr. Kimmerer created a positive atmosphere of involvement. We prided ourselves in having the best commitment in any and all school functions and the result was simple - we won almost every Clan/House competition that occurred this year. Laidlaw House (**Robertson Clan**) won the X-Country with the best over-all standing. Raised the most money through pledges for the Terry Fox Run - lead by Brendan O'Dwyer and Jeremy Lee. Donated a ton of food for the Outreach Food Drive. Went undefeated during the Springfest competitions and finished a strong second in Track & Field, winning the 4x100 earning the title as the "School's Fastest House." Simply put, Laidlaw House had an outstanding year - even passing most of our courses!

Now, not everything was perfect. We had our House Ghosts - guys who are in the House but rarely get involved and zoom out the gates at 3:10pm. They know who they are but it was their loss and we were successful in spite of them. Secondly, we got ripped off every time it was our week off chapel, with shortened weeks and finally we spent all year trying to trade Lorrimer for future considerations, but there were no takers.

This year's House set a very high standard but the future remains bright with more solid leadership next year with three more Prefects in Graydon Stock, James Gideon and D.J. Bennett, who will continue to lead by example.

*"Thanks to all the members of the House for making this 1<sup>st</sup> year as an Upper School House such a successful one for Laidlaw House and an easy one for me. Perris, Carter... what can I say? **"HouseMeeting!!"***

# Fall Term Athletic Assembly

Wednesday November 22, 2000

The school gathered to celebrate its sporting achievements for first term in Ketchum Auditorium. Here is Mr. Reid's speech:

"It is with great pleasure that I stand before today as we honour the accomplishments of our athletes and coaches from the fall term.

"Although I have only been at St. Andrew's a short while, I have already developed a deep sense of pride in the quality, integrity, and accomplishments of our athletes and coaches.

"While it is true that championships are always desirable, what is more desirable than winning championships is being a *winner*. Dr. David Chambers, former NHL coach and Director of Coaching Programs at York University, best describes what it truly means to be a *winner*.

## Winner vs. Loser

1. When a *winner* makes a mistake, he says, "I was wrong"; when a *loser* makes a mistake, he says, "It wasn't my fault."
2. A *winner* credits good luck for winning, even though it isn't good luck. A *loser* blames bad luck for losing even though it isn't bad luck.
3. A *winner* works harder than a loser and has more time; a *loser* is always too busy to do what is necessary.
4. A *winner* goes through a problem; a *loser* goes around it and never past it.
5. A *winner* shows he's sorry by making up for it; a *loser* says, "I'm sorry," but does the same thing the next time.
6. A *winner* knows what to fight for, and what to compromise on; a *loser* compromises on what he shouldn't and fights for what isn't worthwhile fighting about.
7. A *winner* says, "I'm good, but not as good as I ought to be"; a *loser* says, "I'm not as bad as a lot of other people."
8. A *winner* would rather be admired than liked, although he would prefer both; a *loser* would rather be liked than admired, and is even willing to pay the price of mild contempt for it.
9. A *winner* respects those who are superior to him, and tries to learn something from them; a *loser* resents those who are superior to him, and tries to find chinks in their armour.
10. A *winner* feels responsible for more than his job; a *loser* says, "I only work here."
11. A *winner* never quits! A *quitter* never wins!

"Lastly, if you all strive to be *winners*, in whatever you do, you will ultimately be Champions in Heart, Body, Mind, and Spirit. You will be a man of which the Andrean community can be proud."

- Greg Reid

## Harry J. Addison Memorial Awards

These special awards are presented to graduating football players for their dedication and hard work throughout their careers at St. Andrew's. This year's recipients are Robbie Carter, Gord Birkett, Ali Manigat, Olivier Manigat, Jack Popiel, Paul Perrier, and Dave Richardson. The awards were presented by Mr. Jim Herder and Mr. Bill Graham, an Old Boy and former CFL superstar.

## U12

This year's under 12 soccer team had a very successful year. The players worked very well together as a team and continued to grow throughout the season. With such finals as being named co-champions at the UCC invitational and finally winning the under 12 soccer championship, these soccer players should be very proud of their accomplishments. We had a winning season of 14 wins, 3 losses and 2 ties. We had a real mixture of players who all came together to create the best under 12 team that they could be. We had great leadership from our captains Chad Davis and Nick Leslie and from our top goal

scorer Adam Lebar, as well as our centre mid-fielder Ben Udashkin. This under 12 soccer team would not have been successful if it did not have all 17 of the players on that were on it. Congratulations team, from a very proud coach.

## U14

The Under 14 soccer season started off with tremendous interest as over 50 boys tried out for the sacred spots. This year's talent came from Mexico, Bahamas, Markham, Aurora, King City and Unionville. With a record number of games played this season, the team watched more than 10 videos in the coach buses as we conquered teams such as Ridley, Albert College, UCC, De La Salle and CDS.

Sadly we also had many injuries but that didn't stop the players from doing their best on the field. They are to be commended on their first class behaviour and positive attitude on and off the field.

U13 soccer had an active season. Fitness and skill levels were raised considerably, and all boys enjoyed their practises. Games were more difficult especially when losing by close scores. A few mistakes in the defensive end of the field were usually all that separated us from winning numerous games, as we often controlled the play. Highlights of the year, were games against a strong Hillfield Strathall side ending in a draw, and after losing badly 8-3 early in the season, replaying UCC to a heartbreaking 4-3 loss, despite leading for much of the game. Strong efforts were made by Erik Lebar, Blake Muir, Mark Hanson, Mike McIntosh, and fine improvement was obvious from Ankush, Jose, Dylan, and Matt Langer. In spite of attempts at immobilizing his coach with a few broken ribs, our MVP this year goes to Matthew Suddaby for his strength of will on the field. And finally, congratulations go to our MIP for his most dramatic improvements in our final game - our goalkeeper, Lennon Sweeting.

Right from the outset I had a feeling that the U15 soccer squad was going to have a great year. It seemed that the team possess some highly talented players, but more importantly they were keen and would never give up – a trait that certainly benefited our cause as the year progressed. Our regular season flew by rather quickly as we amassed an outstanding 13-1 record with an amazing 64 goals for and 9 against. Although we were blessed with outstanding talent in our practically impenetrable defence anchored by Mark (Goopt) Gupta and our goalie Jordan (Big Guy) Cyr, our explosive offence lead by our leading scorer and sure footed Gonzalo (Rodrego) de la Mora and our Army in the midfield (Armughan Chistie), it was the effort and never give up attitude that the team displayed which make them true champions. Our MIP this year was a voracious player who never accepted anything less than his best and indeed rose to every challenge. Congratulations to Jordan Cyr. Our run-away MVP choice this year was Gonzalo de la Mora, who led the offence with one of the most potent shots I have ever witnessed at this level. Skillful and aggressive, he single-handedly wove his way through defences to set up and score some of our most bedazzling goals. Congratulations guys on an outstanding year!

# U15

## U16

The U16 Soccer season got off to a slow start under a new head coach who continued to use hockey jargon when instructing drills and strategy. With early losses to Ridley, UCC, Lakefield and St. Mike's there was much work and a lot of improvement to be done. But with the final cuts from 1<sup>st</sup> Soccer and the return of injured players to their normal positions, the team began to gel. The boys worked extremely hard in practice, and after switching players around (Ryan Foreman from Mid-field to Sweeper, Iker Cabrera from Goalkeeper to defense, David Nudds

from defense to goalkeeper, along with the additions to the lineup by Patricio Gorozpe and Philippe Dabo at mid-field the team, looked like it had the makings of a much better side, and it was. After the early blowouts, the team went on a four game unbeaten streak with easy victories over TCS, Albert College, Hillfield and a tie against Ridley, who we dominated, despite having previously beaten us 6-0.

The Saints barely made it into the final tournament, ranked eighth over all, because disappointingly, 3 of the last 4 regular season victories did not count towards tournament standings.

In the first game against Hillfield our side did not play to their full potential and fell behind with only three minutes remaining in regulation, a disappointing loss which relegated us to the consolation round. An easy second game against a very cocky Appleby squad (6-0) placed the team in the hunt for the consolation championship against Country Day. The Saints played extremely well in the final and beat CDS 5-0, coming home third overall, the consolation champions.

The coaches want to thank the team for never giving up, even when it seemed hopeless. Well done.

The Most Improved Player is Iker Cabrera, a young player who did everything we asked of him (including playing goal) and became a valued member of our stingy defense.

The MVP honour is given to the player we could least be without. In this case it had to be shared!! Our leading scorer and Captain, Patrick McGrath, carried this team through the early dark days. Patricio Gorozpe "quarterbacked" this team through the successful second half of the season and was often the best player on the field for both sides. Congratulations.

Tier II Soccer is a very competitive league made up of 13 teams in 2 divisions. We played 10 games in all, half of which were exhibition, and the other half, league play. We had a good team with many talented players at every position. We had confidence we would do well.

However, it didn't work out that way. Some of the smaller schools in our league which do not have enough players for two teams did not have to play at the first team level, and played against us instead. Some of the teams were very strong.

Our finest moment was the game in Belleville against Albert College. It was one of those days where everything seemed to go well, and the difficult seemed easy. Despite the fact that they were unbeaten and sitting in first place, no one was intimidated by them. On the contrary, everyone seemed motivated to do well. The game was fast and physical. The ball control and passing was excellent, and communication between the players was better than usual. We pounced on the opponents as soon as they touched the ball, and pressured them to make mistakes and lose possession. When we had the ball we managed to hang on to it long enough to create many scoring chances. The game ended in 4-4 tie. With two wins and a tie, we earned enough points to qualify for the playoff round, but we didn't get very far. We played against Lakefield in Toronto in a disappointing game where we just couldn't find the net. We lost 1-0, officially bringing our season to an end.

I'd like to thank all the members of the team for their hard work. The MIP is Tyler Smith; the MVP is Jorge Bouffier. You are a fine group of people and I had a great time working with you. Thank you!

Back-to-back CISAA League and Cup Champions. 20 games without a loss. The "buzz" of a three-peat was not so subtle. Was it a possibility? Yes. Was it probable? No. With the graduation of key players like Richards and Sinclair our hopes were tentative at best.

The team dynamics had shifted from a team with dominant seniors to a squad which, on average, was much younger but with talent evenly distributed throughout the ranks. This factor proved to be a team strength and in the final analysis gave us many options in how we played.

Emerging as Early-Bird Tournament winners put us in good position for the season though our schedule was brutal. In the first 10 days after the Early-Bird almost half our games were played including tough matches against rivals Ridley and UCC. Hard work and strategic play got us the results and we were off to an impressive start 3-0-1! The notion of a possible three-peat was a reality.

We left for Stanstead College and the CIS Senior Soccer Tournament with a 6-0-1 record. Traditionally this tournament serves, as its main purpose, as an opportunity for final team "gelling" before the season finale. It was unfortunate that a case of meningitis forced the tournament cancellation and our early departure (Luckily it appears that the boy is on the road to a full recovery). We had won our tough division including a tremendous team effort and victory against St. George's Vancouver. The disappointment, however, faded quickly as we set our sites on the remainder of our season.

The pressure mounted as we won our last two league games thus winning the Stuart League Cup and finishing the season 8-0-1. Winning a tough semi-final match against RSGC, 4-2, we were poised for the three-peat. For the fourth time in a row, the last three at home, we faced the Ridley Tigers in a battle for the Championship Cup. In the end the better team (that day) won as Ridley captured the coveted Aylott Trophy with a convincing 3-0 victory. The 'bubble' had finally burst for SAC after a record 30 games undefeated.

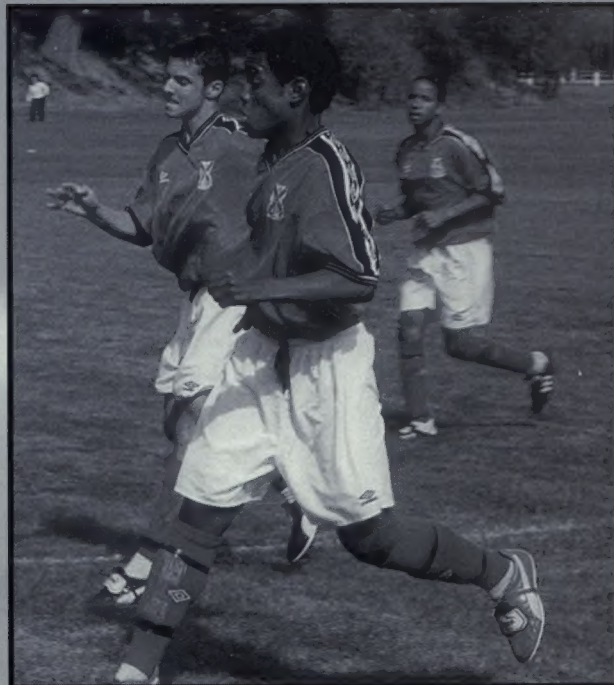

Never has the team voting for MVP and MIP been so spread out. Testimony to the aforementioned team depth. As coaches we were very impressed with the way James Gideon conducted his role as Captain. He inspired and led by example. MIP candidates included Tim Thwaites, Adam Parent, David Domingues, and Nicholas Dadson. The MIP as chosen by both coaches and team mates went to backup goalie Kenneth King. MVP candidates included James Gideon, and Nick Weedon. The MVP, chosen in similar fashion, was awarded to Jonathan Suddaby.

Not too long after the defeat the young SAC team, many of whom are returning next year, set their sights on the upcoming season with an optimistic and enthusiastic view.

The U16 Volleyball team had a rebuilding year under their new coach Mr. Reid. The team had a slow start as they were learning to play a more complex and strategic level of volleyball. Our players improved tremendously over the course of the season, which lead to their finishing league play ranked second in their division. Despite splitting their match with top ranked Hillfield, a difficult loss to Appleby in the playoffs ended their drive to the championship. Mr. Reid would like to thank the team for their efforts and positive attitude throughout the season. Well done boys!

The U14 volleyball team had an awesome season finishing league play in first place with a 7 and 1 record. This was due to a consistently superb effort from all of the team members throughout September and October. At the championship finals SAC won a very hard-fought battle against SMC in the preliminary round, soundly trounced HTC in the semi-finals, and emerged victorious in the final defeating UCC 25-12, 25-16. Congratulations on repeating as champions - you are very deserving of this honour!

With only three returning players, the 1st volleyball team this year was young and inexperienced. However, under the leadership of captain, Mike Campbell, they gelled quickly. They worked hard and improved steadily throughout the season. There were some definite ups and downs during league play, but they managed to hold on to a fifth place standing going into the year-end reallignment tournament. Lead by a powerful middle attack from Peter Vogel, they played some outstanding volleyball that day to finish the tournament with a 9 and 3 record. This boosted them into fourth place in league standings - enough to move on to the semi-finals against first-place, St. Mike's. In a hard fought match, they lost in three games to this powerful and experienced squad by scores of 25 -13, 28 - 26, and 27 - 25. St. Mike's went on to beat UCC in the finals. St. Andrew's finished the year with an overall record of 30 wins, and 27 losses. Congratulations to the team, and a special thanks to graduating players, Mike Campbell, Roger Chau, Peter Vogel, John Lyons, and Alex Tse.

# Cross-Country

It was a busy with several meets for both our Middle and Upper School teams. There were no CISAA championships won, but there were many fine performances from Jay Smith, Brad Downey, and Adam O'Meara. In particular, there was a 2nd place finish by our Midget team in the York Regional Finals that qualified them for OFSAA.

Trinity College School's course is best known for its longish distances and "The Hill," commonly referred to as Mount Trinity, which for many seasons has rendered several runners, walkers. But it was here that Brad Downey won the Juniors race by a comfortable margin, preventing a clean sweep by St. Michael's College, who won all the other boys' races. Brad also won his race in the York Regional Finals.

Adam O'Meara put together his best season. He often went out on his own for some extra mileage, and it showed in competition. Adam, along with Tapfuma Musewe, were consistently with the front-runners, and were our Senior OFSAA competitors. Needless to say, we will miss these two very fine competitors next year. Next year looks promising: Peter McClelland has started running again, and will be back. New runners Gordon Hunter, Geoff DeLean, Lindsay Boulter, Jay Smith, and Brad Downey will be even better next year, so our prospects for remaining competitive are looking very good.

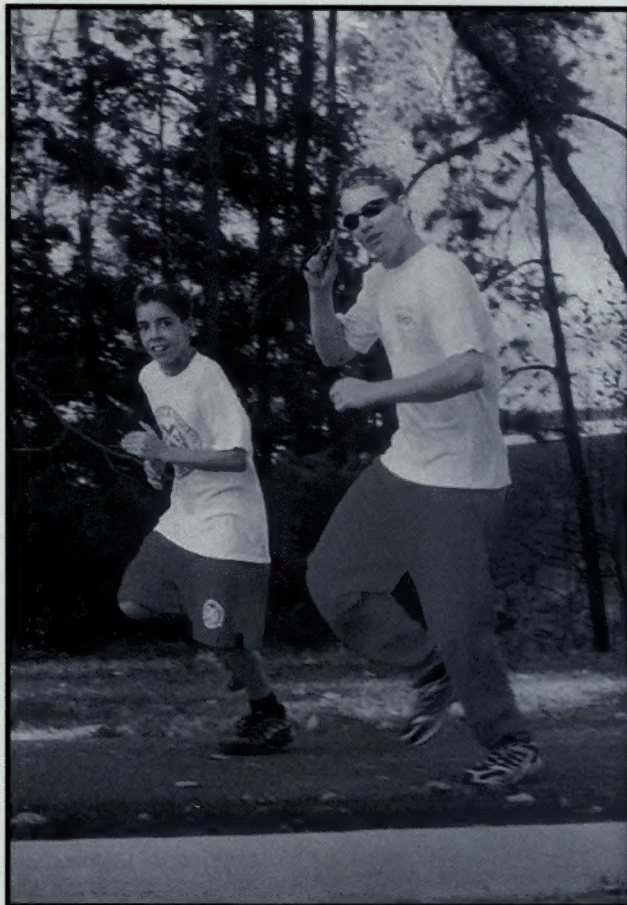

The Middle School Most Improved Player Award goes to Tyler King, a hard-working individual who began the year struggling to complete our 1 km. training circuit, only to finish races in the middle of the pack by season's end. Jay Smith, the Most Valuable Player winner coped quite well with the rigours of daily training, and managed to consistently finish with the front runners.

In the Midget category the MIP award goes to Carlos Celorio, another hard worker who impressed the coaches with his determination and his aspiration to improve. Our MVP winner, Brad Downey was nothing but a pleasant surprise. It wasn't until he started putting forth a full effort and winning races that his potential became apparent.

In the Junior category, the MIP winner is Geoff DeLean, a talented runner who will be counted upon heavily next year. He came out every day, worked hard, and improved steadily. Another individual who is certain to get a lot better is our MVP Gordon Hunter. If he had not been out of action for the Finals, he would have shown his true potential.

In the Senior category, our MIP is Jonathan Cheng, a runner that was a regular at practice and willing and eager to get better. The MVP is Adam O'Meara, a difficult selection that was hotly contested by another fine runner, Tapfuma Musewe.

# U16 Football

An awesome season. With only 8 of 45 players in their final year of U16 eligibility it looked like it might be a rebuilding year for this very young U16 Football team. The year started with an exhibition game against Ridley which went reasonably well but showed we still had a lot of adjustments to make. The first league game against perennial rivals UCC was the next weekend and your Saints went to the big smoke thinking they had a serious job ahead of them - but it was not to be. UCC looked dismally unprepared and, in front of a foggy A-Day crowd, threatened rarely and managed only one touchdown. Your Saints had vastly improved over the previous week and managed 23 points - even though three times they settled for field goals that could just have easily been touchdowns. St. Mike's was next in line and left no doubt who was the better team on the day, but the 26-6 score in favour of the Homecoming guests got your Saints thinking that St. Mike's just might be beatable. The St. Mike's game notwithstanding, your Saints offense and defense were forces to be reckoned with - racking up a convincing 28-8 win at TCS. Every aspect of the game worked well and your Saints were now in a battle for second spot in the league with Appleby. Having no First Team at Appleby we knew they would be both big and strong - and they were! However, going into the final quarter the game was neck and neck with both teams exchanging touchdowns until Appleby ran back an interception for the game winning margin of 6 points and a final 27-21 score to seal second place. Now it was a battle for 3<sup>rd</sup> place against Ridley.

Having gone there for the season opening exhibition game it was SAC's turn to be good hosts in what turned out to be the most exciting game of the year. In the second half the Ridley offense managed only two first-downs - a spectacular defensive battle in which the red & white offense managed to get two touchdowns to ensure that we meet Appleby once again in the playoffs. The first ever U16 Football playoffs took place on a warm October 25<sup>th</sup>, and for the first half it looked as if the Saints were going to pull off an upset against Appleby. With a 14-7 lead at the half in what had been a brilliant demonstration of passing and rushing your Saints knew that they might have what was needed to go all the way. Appleby however were not to be denied and went back to the one part of their game that was working - the power ground attack. Driving up the middle for play after play they wore down both the clock and the red defense. By the middle of the fourth quarter they had produced four unanswered touchdowns - earned 5 yards at a time - and it seemed to be all over. A lovely quarterback draw saw Jeff Johnstone sprint 40 yard for the major score, then Adam Hoffman's short kick-off was recovered by Kyle Beatty, but it was not enough and your Saints bowed out 33-21, satisfied that they had been beaten by a bigger if not better team on the day. It was a fantastic season thoroughly enjoyed by all. ***Go Saints!***

# First Football

This year's football season was an excellent and exciting one, but one that finished, unfortunately, too abruptly, losing our semi-final game to UCC. Our team represented our school with honor and pride. The captains, Gord Birkett, Robbie Carter, Jack Popiel, and Paul Perrier were great role models and lead our team with our motto "SILVER" in mind. We had a fantastic regular season, finishing undefeated with many great victories. Our record was 5-1-1.

I hope you witnessed this year's homecoming! This was a great team victory against St. Mike's. We definitely had this year's best performance that day.

Offensively, Michael Faulds, with incredible precision, completed over 80% of his passes connecting with prime receivers Paul Perrier, and Brad Smith for more than 300 yards in the air. On the ground D.J. Bennett and Gord Birkett, with the help of our explosive offensive line (Knutton, Skolnick, Fullerton and the Manigats) ran through the St. Mike's defense. It was truly beautiful to see! Also D.J.'s electrifying run, beating more than 9 St. Mike's tacklers and finishing it with a TD.

Defensively that day, our linebacker core led by Robbie Carter, David Richardson and Jack Popiel kept St. Mike's running game in check, punishing them with powerful tackles. Our defensive backs were outstanding intercepting St. Mike's passes twice and covering their receivers like a blanket.

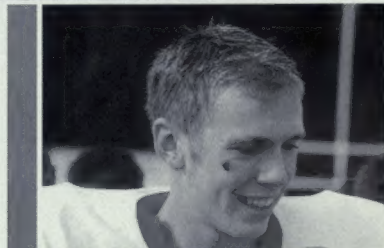

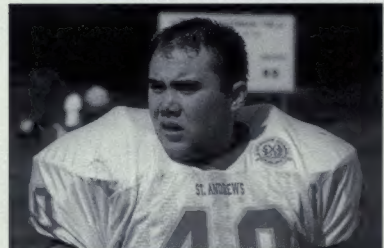

This game was probably the best a St. Andrew's football team has ever played under this coaching staff's era. We might have peaked too soon this season, but certainly our team's misfortune in our following game against TCS with Mike Fauld's injury, made our road more challenging.

I would like to thank our senior players for the first class commitment they all gave to our team throughout their career. I will have great memories of this year's team; full of players with outstanding character.

# Second Term Sports

# Winter Term Athletic Assembly

April 2001

(Some excerpts from Mr. Reid's opening remarks:)

Many of you, like me, are only experiencing your second Athletic Assembly at St. Andrew's. Like the Fall Term Assembly, you will get to see many of your peers recognized for their athletic accomplishments this morning. My hope is that the majority of you will get called up here one day to receive recognition for your, or for your team's, success.

However, this will not happen for all of you. For some, it will be your last year with us. For others, your strengths lie in other areas of interest, such as debating, music, drama, art, and other academic pursuits. The crucial thing to remember is that it is not important what area you seek to achieve excellence in. What matters most is the integrity with which you approach the attempt.

I challenge you to hold yourself to a higher standard than anyone expects of you. If you can do this you will experience excellence in whatever you choose.

I would like you to consider the words of Mike Ditka, former coach of the NFL's Chicago Bears: "There are certain qualities that you look for in people, whether you are on the football team or in business. You look for people who are committed, and devoted to doing the best job. Talent isn't going to matter either. I'll take the guy who is out breaking his butt over a guy with talent in a close situation every time. I may get my butt beat a few times, but in the long run, I'll win because I'll have a guy with more character."

I challenge you to make a list of all the people who have had a role in your sports participation this term. Once you have completed the list of coaches, parents, peers, etc., I encourage you to take the time to seek out each one and thank them personally for the support they have given you. Best of luck to all of you in the upcoming sports season.

— Greg Reid

Nordic skiing is a test of the mind and body. This year at SAC, 10 boys attempted this test, and although the team members' skills varied, they consistently worked hard and were true to their goals from the start of the season. Their dedication was evident not only in the long practices at Hard wood Hills but in the long hours travelling in the van; in addition to their physical training, they adhered to a strict regimen of musical endurance.

The team fared well in competitions, led by Randall Blom in senior and Gordon Hunter in junior, both of whom were always one step ahead of the competition. An excellent second place showing at the CISAA championship and another big win at the York Region Championships capped off the teams highlights. Individually, Gordon Hunter placed seventh in junior OFSAA, one of the best results from a southern school. On the biathlon front, the team spent many memorable hours at the range in Gormlea, time which certainly paid off when Gord Hunter and John Lyons qualified for the Ontario championships.

Honourable mentions go to the graduating skiers, John Lyons, Andrew Martin and Michael Campbell, whose efforts were considerable for the past two years on the ski and biathlon team. However, their loss will be handled by the numerous returning skiers: Randall Blom, Mitch Myers, Geoff Delean, Gord Hunter, Mark Browning, Hugh Dowell and Armughan Chishti.

A special thanks goes to the coaching staff: Mr. Gaertner and Capt. McCue, who were always there, giving one hundred percent of their time and effort. Jr. MIP: Mitch Myers; Jr. MVP: Gord Hunter; Sr. MIP: Andrew Flavelle Martin; Sr. MVP: Randall Blom.

The Alpine Ski team had an amazing season this year. We had many new faces and talent, and as a result did very well overall. The season didn't really begin until after Christmas, due the fact that there was no snow to ski on, (which is very helpful in this sport).

The highlight of the season was our trip to Banff. From February 1 to 5, the team competed at the Banff Mountain Academy Slalom and GS Competition. There were more than ten different schools from across Canada, some all the way from Newfoundland. SAC didn't exactly dominate the tournament, but we gave it our best and took it as a learning experience more than anything else. The high points of the trip were almost missing the flight because of Campbell Gordon sleeping in, the hot springs, free time in Banff, and the Havergal girls ... they all will be missed. The Under-14's placed second in both the GS and Slalom levels. The 2nd team placed third in both the GS and Slalom, and the 1st team didn't do so well, but placed in the top 10 overall!

After Banff we still had two races left, including the finals. At the finals we had a great score and did extremely well. The U-14's dominated with almost half of the team placing in the top 20. The second team also raced well, despite the loss of John Houser, who tore a ligament only a week before. The first team placed well, except for a few complications. Patrick Harris fell with just two gates left on the first run, and unfortunately was then disqualified. Andrew Cronin had an amazing first run, placing in the top five, but unfortunately fell on his second run with one of the most spectacular falls the team has ever witnessed. However, the 1st team relied solely on the swiftness of Campbell Gordon who managed to secure the team's placing at 4th overall. There are no graduating players this year, and we are all looking forward to another great season next year.

At U-14, the MIP goes to Matt McIntosh, and the MVP to Richard Oosthuizen. For 2nd's, the MIP goes to Adam Rourke, and the MVP to John Houser. For First team, Mervyn Frame is the MIP, and Patrick Harris is the MVP.

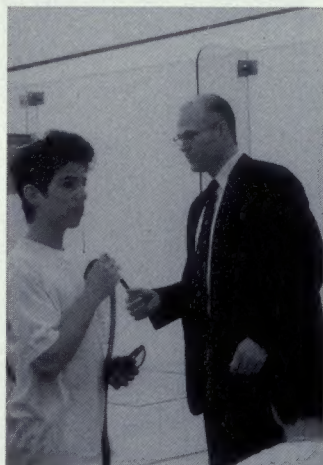

The power came from the determination, the stroke came from the practice. The finesse was built by concentration, and the fun came from the players. As a result, they produced ... WINS!!!

The U-14, Junior Squash team had a fantastic season this past term and earned a respectable rank amongst the various other teams. Led by Mr. Rush the team went into the Championship tournament with only one win throughout the whole entire season. Nevertheless, the ruthless young leaders fought to the end, finishing 3rd place overall. The team had set goals during the season and the hardwork and effort payed off as some of us swept all our opponents away in the final CISAA tournament held at S.A.C. Well done to all the members of the team, It was a great experience!

# Under 16 Squash

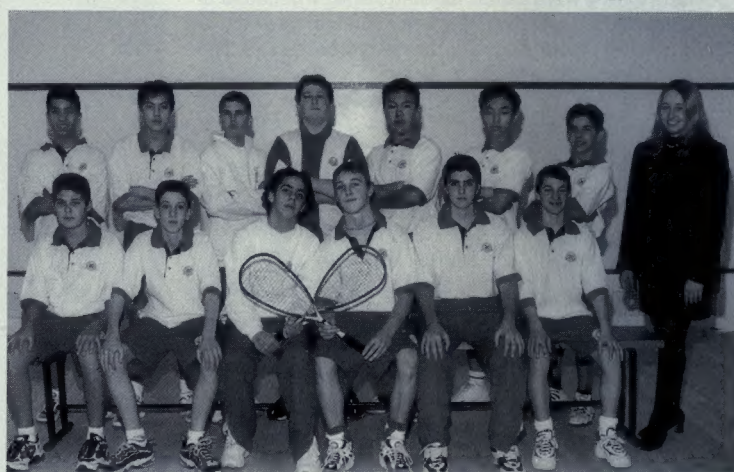

**CISAA Champions!** This year's Under 16 team squashed such schools as Ridley, Crescent, Appleby and UCC throughout the whole three month season. With a virtually undefeated season under their belt, our squash players were determined to bring home the trophy at the final tournament. This they did.

Congratulations to the following enthusiastic and positive players for their hard earned success: Michael Bottomley, Colin Lowe, Dennis Wong, Chris Attard, Bryn Fell, Gonzalo de la Mora, Eduardo Azcue, Raul Marquez, Joseph Leung, Alex Ryazanov, Sean Bornstein, Kevin Han, Nick Caron. The Most Valuable Player is Dennis Wong, and the Most Improved Player is Bryn Fell. Special consideration goes out to the following players who had never played squash before and who managed to move steadily up the squash ladder: Dennis Wong, Gonzalo de la Mora, Eduardo Azcue, Raul Marquez.

The Senior Squash Team is divided into three teams: the First team, comprised of six players, the Second team, also comprised of six players, and the Development Team. Every member of the squash program made great strides in enhancing their game this season. I am very proud of what they have achieved as they wore our school colours with pride and determination at each of our meets.

At the development level, many players showed the potential to become solid players, and will prove to be the outstanding contributors on our future competitive teams. Their daily efforts were very much appreciated.

The Second Team finished second this season in the CISAA Tier 2 Championship. I was extremely pleased with the hustle they gave on the court, and we had strong performances from all the members of the team. They are David Nudds, Armughan Chisti, Aaron Racine, Andrew Gosbee, Jordan Dudley, and Adam Brander.

The First Team members were #1 Sammy Lam "the Iron Man", challenged all season by Adam "the Tiger" Guy at number two. Our number three was our reliable Henry Ng, and number four was Clement Yau. At #5 was the veteran of the team Al Lalani, and at #6, the very talented and full of potential, Mitch Smith.

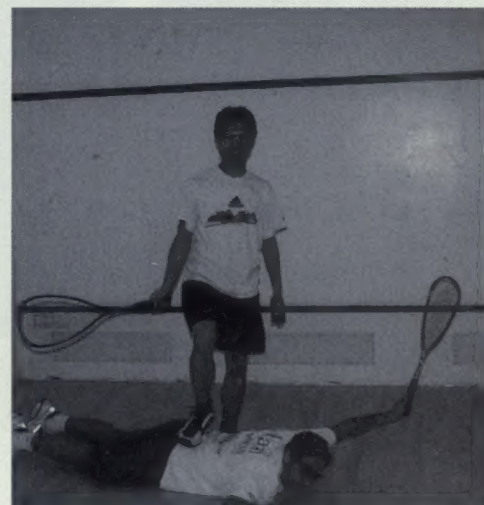

They all had an excellent season and dominated most of our opponents throughout the season, having an excellent finish in the First Squash CISAA Championship (second overall) behind the very powerful Crescent team. The future of the Team looks very bright with a great number of players returning from the squad and many quality players graduating from U16.

Second team MIP is David Nudds

First Team MIP is Adam Guy

**The Peter Frost MVP award goes to Sammy Lam.**

# Intramural Basketball

Intramural basketball this year was at its very best, fast-paced and furious as always. This year, the league consisted of five teams, each one strong enough to claim the title for its own. Over the course of the intense and demanding regular season, each team had managed to beat each other team at least once, a true testament to the balance of the squads. Once the playoffs arrived, however, the league took on a new life of its own. The two cellar-dwellers, the Tinky-Winkies and the Def Squad, quickly knocked off the Enigma and the powerful Aurora T-Rex to advance to the semis, and

beat the Fuming Eagles to set up a final showdown between the purple Tinky-Winkies and the Def Squad. When the dust settled, the Tinky-Winkies walked away with the title of Intramural Basketball champions.

All in all, it was a very successful season, with few disqualifications and much team pride. The league thanks Mrs. Perrier, Mr. McGee, and Mr. Reid for their refereeing, and Jackson Lau, the league commissioner, for putting together another thrilling season. *Jonathan Cheng.*

In only its 2nd year of existence, Saint Andrew's Under 12 Basketball team had an even more fantastic season than the first. Most members had never played on a team before and all gave a tremendous effort throughout practices and games at improving ball skills and deepening our knowledge of a rather complex game. We came from well behind to win two very exciting games against UCC and Crescent. Perhaps our crowning achievement was bringing home the UCC Invitational Tournament banner for the first time ever, with 6 straight victories, culminating in an emotionally charged but disciplined win over eventual league champions Hillfield-Strathallen College. Whether it was the smothering defensive work of Adam Lebar and Ben Udashkin, the brave "pick" setting of Dinesh Lulla, Joey Burke and Tony Lau, the dominating backboard rebounding of Adrian Bruno and Ola Ojo, the fancy dribbling of Josh Hanson and Phil Oram, the "deadly" field shooting of Bryan Lin and Tyler King, the thoughtful playmaking of Jesse Cohen, or the fastbreak "Iverson" like lay-ups of our MVP Andy Bennett, we were always a thrilling team of terrific boys, all keen to learn and give their best efforts at all times. MIP selection was a most difficult choice as improvement was prizeworthy from every member; however, after injuring his knees and having to sit out some of the season, Ola Ojo came back and worked extremely hard to effectively contribute to the success of our team's performances. For this, he most deserves our MIP award. I know our other basketball coaches our all excitedly looking forward to working with this group of dedicated boys in the future. Congratulations team! Thanks for a most memorable season, from Coach Kyle!

## Under 13

There were many challenges for this year's Under 13 basketball team. The boys worked hard all through November and December to build some team chemistry. With our smaller roster, it was great to see everyone have a chance to play and while mistakes were being made, much progress was shown by each of the players. It was encouraging to see the great strides and improvements made by players especially Erik Sodonis, Dean Hamann, Simon Euteneier and Blake Muir. We struggled through January waiting for our first win which was frustrating for the boys but I could see better performances happening at both ends of the court. It was during that time that Mike Greco, Mark Hanson and Matt Suddaby contributed great leadership both on and off the court. The team had a great trip to Ottawa to compete against a couple of teams from the nation's capital. During the weekend, we skated on the Rideau Canal, attended a Senator's game and secured our first win. We also had the opportunity to compete in the CAIS National Under 13 Tournament in Toronto where our great feat was securing back to back wins and also being able to survive each other's company in the school van for 4 hours as we fought the huge snowstorm that battered our area in early February. I was most impressed with the boys as we competed in a tournament qualifier for the CISAA tournament in late February. We travelled to Country Day School and fought hard right to the end and fell short by 2 points in a thrilling double overtime game which the boys really enjoyed despite the final result. I must thank all of the players for their outstanding performance in this final game and throughout the season and I look forward to them playing for the College in the years ahead. This year's Most Improved Players are Simon Euteneier and Dean Hamann. The Most Valuable Player was an almost unanimous choice of his team mates, Matthew Suddaby, a player that carried us in close games, is extremely coachable and a wonderful role model for his team mates.

# Under 14

Dedication, Heart, and Desire are three words that come to mind when describing this years under 14 basketball team. Many new faces were added on to the team from the previous year. The addition of these bodies gave hope to repeating the efforts of the CISAA champions from the year before. Several players began to show signs of improvement. Blas Cernichio and Mo were beginning to find their shooting touch in practice. Robbie James and Kris Wells were adding the necessary ingredients of a championship team by giving us some depth, as they both developed skills that would allow them to improve their game. Dael Behagg was becoming a force to deal with on the inside as he broke out with a ten point performance against Holy Cross. Eric Tozzi showed the most improvement as he began to show skills that we knew he was hiding all along. In his first year of organised basketball Tozzi improved the most with each game played. Things were looking bright.

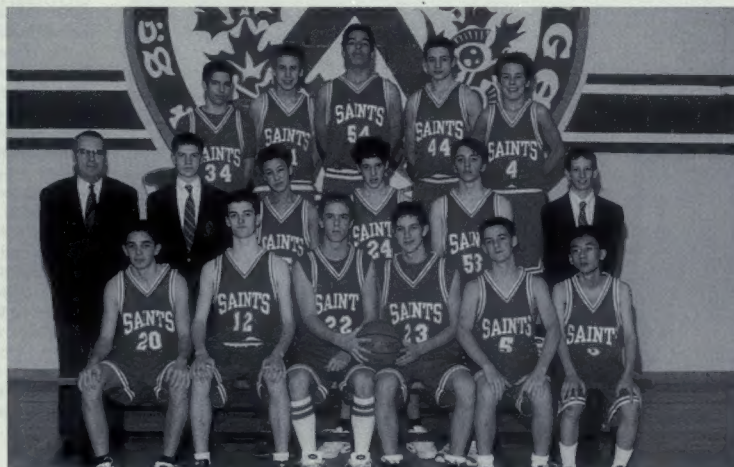

At the premiere U 14 tournament hosted by UCC in January our season had indeed made a turn for the best. We played extremely well with superb efforts by Matt Donko, Austin Smith, and Shawn Jolly. They led us to the championship game where we lost to Asbury College of Ottawa. Finally the tournament weekend had arrived and the team felt confident that a championship was in reach. Our opening opponent would be UCC and we were ready. Unfortunately it was not to be and we ended up losing by one on a last second shot. We refocused and won the next two games at the tournament to take home the Consolation Championship. The team experienced great success and improved throughout the season. Juan Del Cerro and Scott Fullerton were invaluable as managers. Our most Improved player is Eric Tozzi, who showed heart and a desire to always get better as the year went on. He showed true spirit, encouragement, and was a great team player. This year's MVP was Kalev Hess.

This was a great year for U15 basketball. The team had an undefeated season in CISAA league play and won the first two games of the final tournament. In the Championship game, the Saints fell behind early, then forced the game into overtime. The loss of three starters for the extra period, one because of an injury and two who fouled out, hampered our chance for a victory, and we had to settle for second place. In addition to the many talented players on the team, one of the main reasons for the successful season was the great team spirit and the respect and admiration players had for each other. There was a keen competitive atmosphere both in practices and in games, but players were genuinely supportive of each other. One thing which gathered a great deal of attention from other teams and coaches alike, was the bench cheering squad, which was always positive and very entertaining. The parents of the boys also gave the team tremendous support. No matter where we played, a mother or a father was always in the audience, cheering the whole team on. Special thanks to the captains for their leadership and to statistician Brian James and manager David Oram for their dedication.

This was certainly a learning season for our team. We finished up with 10 wins and 17 losses. Despite our record I liked the way we progressed through our season. When you consider that 21 of 27 games were played on the road and that 6 of the 17 losses were to U-17 teams and Tier 2 teams one gets a better perspective on how we performed. Nonetheless our start was quite poor. Turnovers were high, our defense was awful, and our skill level was just not good enough.

Improving takes effort. There were several key players who established a high standard of work ethic and led the way. In no particular order Darryl Stock, who has all the attributes to be a fine player, kept us in many games with his rebounding skills. Kyle Beatty, who has good size and strength, came through with key scores while shooting a team high 48% from the floor. Patty McGrath, who has odds of heart, demonstrated the skill and hustle to get the ball in scoring position and led our team with 10.1 PPG. Javier Torres, who was fearless in taking the ball to the hoop, provided a needed dimension to round out our attack. Jose Uribe, who played with intensity, surprised us with some significant three's. And the others Simpson Chan, Jason Lau, Brandon Townsend, Justin Ramlochan, and James Kesten were increasingly more effective as the season progressed. Finally, Andrew Wakefield excelled as manager by always assisting and keeping us fully informed of schedule and stats.

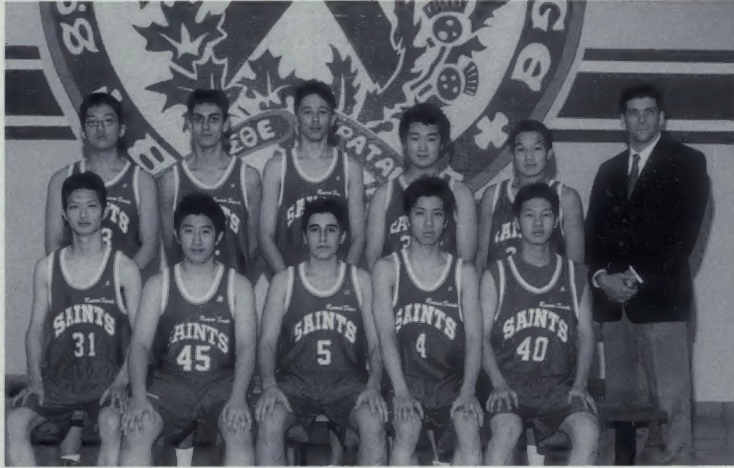

The MIP, Andrew Douglas, is an individual who came to learn and who tried to bring newly acquired skills into game situations. He has considerable potential and could easily develop into an effective player at the next level. The vote for the MVP award was a bit more decisive. It is going to a player who played the most minutes. He was a solid contributor at both ends of the floor. All facets of his game came along nicely and without him we would have been in serious trouble. We leaned on him heavily for his ball handling skills and leadership. This year's MVP winner was Nick Dadson.

The Tier Two basketball team had a reduced schedule this year and scrimmaged far more against itself than outside opponents. In league play we were in every game but our overall record was below .500. The highlight of the season was a close loss to the eventual champions by four points. We improved on our game every time out and had a good time in practice and in the games all year. Mr. Shrimpton would like to thank all players for a fun year. Most Improved Players is Jae Hee.

Every basketball season is filled with it's ups and downs. Unfortunately, this years was filled with more downs then ups. None the less the year was still a productive one for the 4 graduating players and 8 first timers who made up the varsity squad. Thanks to all the graduates who showed leadership on and off the court. Roger Chau who had the ability to stretch a teams defence with his accuracy from beyond the arc. Kenneth King had a knack for where rebounds would fall and used his strong vertical to consistently be the teams best offensive rebounder. Josh Kelson's versatility was an asset because it allowed him to bang with the big men and at the same time handle and shoot the ball from the perimeter. BoungHun Lee's impeccable free throw shooting allowed him to gain countless minutes at the end of ball games. Their contributions and enthusiasm will be greatly missed. Not everyone's leaving though and the core of returning players will make next season exciting and hopefully one to remember. Tim Thwaites many times the best player on the floor for either team has the ability to carry our team on his back when he puts his mind to it. His capability to get to the basket and penetrate allowed him to rack up many points. For some reason Tim and the referees never saw eye to eye. Our team wasn't all offence either. Tyler Smith held strong in the low post as the last line of defence against many centres who were bigger than him and DJ Bennett used his speed and quickness to harass opposing point guards into bad passes and often created steals working as a one man full court press. Although success didn't come easily team morale was never low. The up beat spirit of Jan Michael Ramlochan aka Buju (jokingly known by his team-mates as lead foot for his lack of speed getting up the floor) was infectious and from the afro to the high socks he brought a retro feel to the team. The rest of the team always kept a positive attitude and high spirits whether we had our backs against the wall in a game or we were running wind sprints led by Mr. Ruscitti. With talented additions from U-16 and U-15 to freshen things up next year, hopefully the season will be one to remember. To the graduating players good luck in your future endeavours and thanks for your contribution to basketball at SAC.

— Coach Mr. Josselyn

# U14 Hockey

Perhaps the best way to cap and comment on a successful U14 hockey season is to put it into a "TOP 10" list. But before I read out the list, I just wanted to take a moment to thank Mr. Stewart and R.J. Ellis for helping coach and doing a great job behind the bench with our young U14 Hockey players. And now The Top Ten (Fifteen) Reasons Why U14 Hockey was so much fun and had a winning season:

#15. Brock Buckley taking a 100 mph slap shot off his head, stopping the puck from going into the net during the RSG game. That's called taking it for the team Brock!

#14. Xavier Osio Buch, playing in one of our games after being called up from the MAC HOUSE Hockey league. Xavier just learned how to skate this past winter and managed to hold his own during the game, getting on the score sheet by assisting on one of our goals and getting two minutes for "roughing" at the end of the game.

#13. Xavier's friends coming to watch him play. His seven friends were a home attendance record for us!

#12. Matt Freeman's constant excuses as to why practice should be canceled today - it was raining outside just wasn't one that the coaching staff bought.

#11. The Avenue Road McDonalds, our home away from home the last two months of the season.

#10. Jay Smith's impersonations of "Tommy Boy" on each and every bus ride. Jay has every line of that movie memorized!

#9. Taping Alex Bacardi's hands to his stick in practice. Holding his stick with two hands was an ongoing battle.

#8. Scotty Johnstone taking off the edge of four pairs of skates before the CISAA championship game.

#7. Beating UCC at the Air Canada Center 4-2.

#6. Beating UCC six consecutive times this year.

#5. Going 14 and 0 at the start of the season and finishing the year with 20 wins, 2 losses and 1 tie.

#4. Watching the line of Ryan Bryce, Scotty Johnstone and Justin Lyons. They were the most talented and gifted offensive line in the league.

#3. Beating Nichols 3-2 in the CISAA championship semi-final in overtime after coming back from a 2-0 deficit in the third period. Jared Leslie's PP slap shot did the trick when we needed it the most.

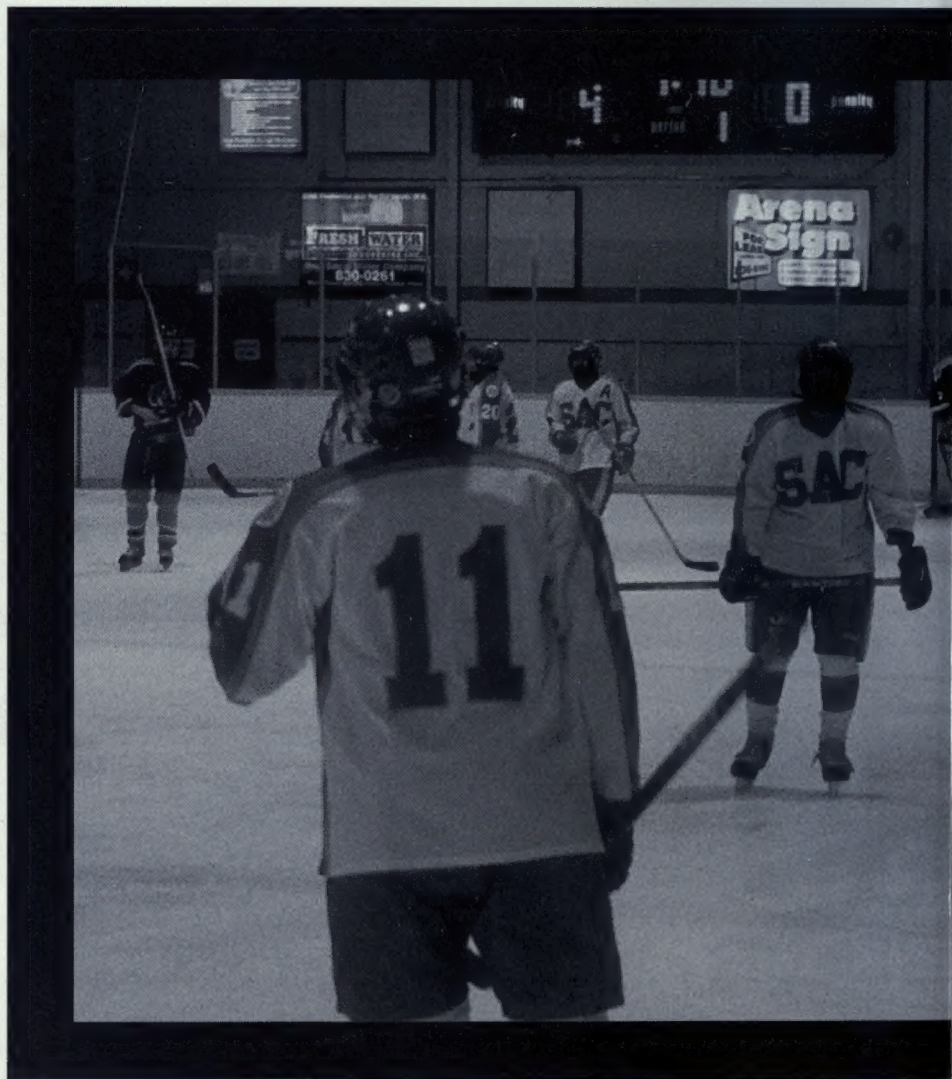

#2. Almost beating St. Mike's in the UCC Tournament Final, losing 2-1 and in the CISAA championship final, losing 6-5. It was just too close but just like this year's U16's, you'll get them next year!

#1. The outstanding team play and leadership, in particular of our captains, Jared Leslie, David Del Zotto, Ryan Bryce and Justin Lyons. In addition, the set of three goaltenders we had this year, Rob Ferguson, Cody Biggings and Charlie Abbott did a great job of keeping the puck out of our net.

# U16 Hockey

It was quite an enjoyable and successful year for U16 hockey. The highlights included winning the St. Michael College Tournament and winning the year-end tournament, both times beating St. Mike's in the final.

# Varsity Hockey I.S.A.A. Champions!

Eighteen years is a long time between championships for the First Hockey team but the 2000-2001 Saints finally brought home the Conference of Independent Schools' Athletic Association trophy. The game was played in front of a packed house at Upper Canada College with the Saints earning a well-deserved 2-1 victory.

In the year in which the School decided to withdraw from the local York Region Athletic Association (thereby foregoing any chance at qualifying for the Ontario Provincial play-downs) the Saints compiled an impressive 11-4 regular season record in the tough C.I.S.A.A. schedule. Three of four defeats were at the hands of Upper Canada - the other against eventual semi-final opponent St. Michael's College School. S.A.C. won its best of three semi-final series against St. Mike's in two games posting victories of 6-0 and 3-1 and followed with a thrilling victory at UCC to capture the School's first Independent League championship since 1983. The team entered four tournaments to round out its schedule.

The Ridley College Early Bird Tournament is where the team truly came together as a unit playing inspired hockey and finishing in second place behind Culver Military Academy. At the start of the Christmas break the team travelled to Massachusetts

to compete in the Barber Tournament. Despite a lengthy 12-hour bus ride the Saints won their opening match vs. Thayer Academy in overtime. Unfortunately the team peaked too early losing its next two matches. The team redeemed itself with a strong showing at the Nichols Tournament going 2-1 in round-robin play with victories over Culver Military Academy and Pennsylvania-based LaSalle College Prep. The MacPherson was perhaps our best tournament showing. The team captured a bronze medal (en-route to a 4-1 record) in what is arguably the most competitive high school hockey tournament in Ontario.

On-ice leadership came from Captain Paul Perrier and alternates Adam O'Meara, Ross Marshall and Jack Popiel. First-year senior Jeff Ovens was instrumental in the team's success as were Grade 12 students Jimmy Healey and James Gideon. The loss of our six seniors will be felt next year but the team returns a solid core of players. This year's team had great character and played with intensity, intelligence and creativity throughout the season finishing our 36-game schedule with an overall record of 24-12. Best of luck to departing seniors Perrier, Ovens, O'Meara, Marshall, Popiel & Mancini.

# Fencing

Our league, the Ontario Fencing Association Challenge Circuit, operates all year at the Cadet, Junior, and Senior levels. This year we competed in 6 major competitions rather than our usual 8, because SAC's change in academic scheduling in December and January precluded our competing in the other two. We began our season at a Senior OCC at Ryerson University in September and another in Newmarket in October, where Kurt Schmick picked up a third place Bronze medal. On March 3 we entered four of our squad in the Ontario Provincial Open Championships at Variety Village in Toronto, largely for the experience. In February we were back at Newmarket for another OCC, after which we entered the OFA Ontario Cadet Finals on April 1 and the Provincial Junior Finals in Toronto on the 4<sup>th</sup>. Here Kurt won a coveted third place Bronze Medal once again, losing a very tense bout, and the Second Place Silver, to a young Team Canada member by the narrowest possible score, 14 to 15.

At the present moment Kurt is seeded 113<sup>th</sup> among all the registered fencers in Canada, up from 193 last year. Ernie Lau is 166<sup>th</sup>.

Our team members would like to take this opportunity to thank Mr. Reid for his support in bringing to the School each week for extra training the former coach of Royal Military College and Queen's University, Mr. Mike McDonnell. His additional coaching has been enormously important and directly responsible for Kurt's dramatic improvements this year. Kurt Schmick, our Captain, also deserves thanks for all his help. He has done much for fencing at St. Andrew's in his time here.

This year's MVP comes as no surprise: Kurt Schmick. Our MIP is a young man who gave the sport a try for the second year in a row and showed real strength and style in competition against some heavyweights: Stanley Hon.

# Swimming

It was a banner year for SAC swimming which saw the birth of one of the most diverse and hard-working teams our school has put together in a while. The first Team and the under 16 team both managed to finish near the top of every meet we participated in, showing CISAA and York Region schools alike that we were the ones to watch out for. The U16 Team continued to dominate all the way to the CISAA championships, bringing home the cup for the second year in a row.

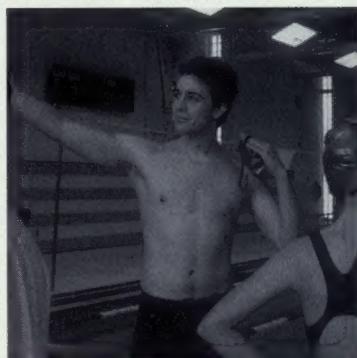

We had a tough but fun season, a highlight of which was traveling to compete in the OFSAA Finals at Brock University. Last year, SAC only brought four swimmers to St. Catherine's but this year we made the trip with a squad of 15 talented individuals.

Congratulations to both swimmers and coaches for a job well done. Thank you to Mr. Walden and Ms. Venters for their coaching and support.

One last shout-out to the Windstar crew: Bibboner, Scooter, Whitie, CL Smooth, Jads, Chuck (who was with us in spirit) and Goldie. A special "thank you" to the following establishments in St. Catherine's on behalf of the First Team: Subway, East Side Mario's, Perkins, Tim Horton's and the Pita Pit. Goodbye to the other graduating swimmers: Chris Bibby and Sammy Hsu and best of luck to the team next year.

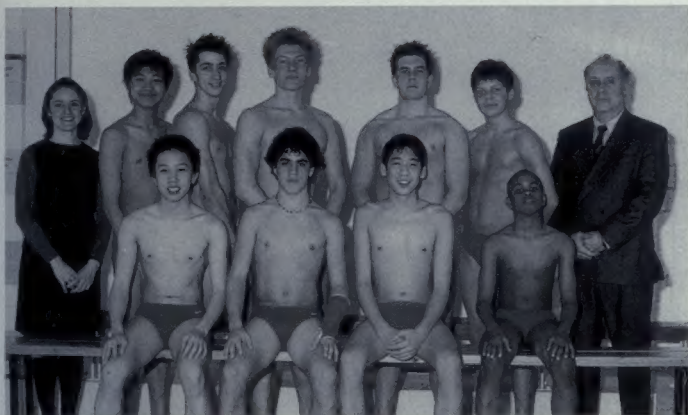

— Peter Vogel (Team Captain, 2000-2001)

*(Congratulations to Peter from his coaches on his huge success at OFSAA this year. He won a gold medal in the 100m I.M. and a silver medal in the 50m Freestyle. He was also part of the 400m Freestyle Relay team which won a silver medal at OFSAA. Other members were Scott Simmons, Dana Stewart and Robert Lee. Peter was an excellent leader this year and will definitely be missed. We wish you the best of luck, Peter!)*

# Third Term Sports

# Spring Term Athletic Assembly

May 31, 2001

Mr. Staunton, Mr. Oliver, Coaches, Faculty, Andreans; In this our last Athletic Assembly of the school year, I'd like to take a moment to congratulate all of you on an enjoyable and successful year of Athletics at St. Andrew's.

All of you have progressed towards the goal of becoming the complete man, the well-rounded citizen. Athletics, be it 1<sup>st</sup> team, Intramurals, Under 14 or House League, is an integral part of your education here. It is truly an area that promotes the development of each of you in heart, mind, body and spirit.

At our athletic assemblies we celebrate champions. We award banners and trophies to team and individual victors. We give plaques and medals to MIP's and MVP's, but the reality is that all of you have the ability to be champions. The true determination of a champion is not in the quantity of hardware one takes home, rather it is in the quality of the performance one puts out.

If an athlete gives everything he has and can leave the field of play knowing that it was his best effort, then he will leave the game with the most important thing of all – self respect. A champion is an athlete who respects the game, respects his opponents and respects himself and the effort he has put forth. If you can't compete with respect, than any victory you do achieve will be less rewarding in the end. I hope you all become champions in all aspects of your lives.

In the fall and winter season athletic assemblies, my closing remarks were directed at reminding you of the hundreds of hours that are spent in support of each sport team here at St. Andrew's. The time invested by coaches, parents, administrators, Mrs. Perrier and Mrs. Bedard, grounds keepers, maintenance and custodial staff, the health care team, scorers and timers, fans, etc. on your behalf is second to none.

Obviously, there is a long list of people associated with St. Andrew's Athletics that help to make for enjoyable and successful sport experiences for all of you, and you should be thankful for their support. In all of this however, there is someone we have missed. Someone who deserves a great deal of credit and respect for their contributions to each and every athletic event. That person is each of you. As a whole you have represented our school with dedication, spirit, enthusiasm and pride. You are truly a group of athletes of whom the Andrean community can be proud.

Congratulations to you all on a great year of Athletics at St. Andrew's.

# Golf

Each year, Mr. Gaertner and myself are impressed with the talent and calibre of play at both the junior and senior level. This year was no exception. At the junior level, we entered two, two man teams into three of the four league tournaments plus the final tournament. Team B made up of two of Rob Ferguson, Sandy MacKay, Richard Colton or Campbell Gordon had average score of 82.6 over the season, scoring an average of 80 in the final tournament and finished in 12th place overall. Team A made up of John MacIver, Campbell Gordon and in the final tournament Richard Colton with John scored on average 80.875. In the last tournament both Richard and John shot 79s. This meant that Team A finished 5<sup>th</sup> overall in the standings. The MIP for the junior team is Rob Ferguson and the MVP is John MacIver.

The senior four man teams A and B composed of Brent Brandham, Josh Gartner, Eric Heizer, Clement Yau, Freddie Tang, Eric Mancini, Mark Robinson, Adam Hoffman and J.P. Suddaby faired very well. Team B although they only played in two of the four league tournaments plus the final finished in 9<sup>th</sup> place overall. Team A who in the final tournament averaged 79.5 coming in 2<sup>nd</sup> in this important tournament averaged a respectable average of 82 over the season. As a result Team A finished in 3<sup>rd</sup> place overall. The MIP is Adam Hoffman and the MVP is Brent Brandham.

## U14 Badminton

This season the U14 Badminton Team found themselves in the "middle of the pack", competitively speaking. Like in many sports success is often measured by how an individual or a team finishes in tournament play, and, from that vantage point, we did not finish very strongly - but, as a coach, I can sincerely declare that there was vast improvement in both individual and tactical skills.

Hopefully next year, with a broadened base of players, the U-14 Team will be poised for a more successful final result.

My personal thanks for the teams enthusiasm, dedication and good humor!

## U16 Badminton

When this year's version of U16 started it had all the ingredients needed to finally dethrone UCC as the annual winner of the end of year tournament - talent, experience and team depth.

Jumping right into York Region Playoffs, the team faired extremely well, finishing 1<sup>st</sup> in singles with Brent Cheng and in doubles with Dennis Wong & Kevin Lau while David Trott and Soung Hun Lee finished 4<sup>th</sup>. The good play continued into the next level, with Cheng winning again and Wong & Lau finishing 4<sup>th</sup> in semi finals. In the York Region Championships, Brent finished with the Silver in 2<sup>nd</sup> place and Dennis & Kevin surprised and finished 3<sup>rd</sup> and took away the Bronze.

With such great success at the York Regions under their belt, the team felt confident starting the CISAA season and for the most part

they were. Some early defections from the program affected the depth of the team and may well have stilted their final success. Easy victories over Bayview Glen, The York School, Crescent, RSGC but tough losses against UCC and Appleby set the stage for the Championship Tournament at Humber College.

Arriving at Humber to an exceptionally favourable draw - a first game bi setting up the scenario that with one victory over RSGC - which we had swept the previous week 5-0 - all players would be playing in the final with a virtual lock on at least 3<sup>rd</sup> place and a real shot at 1<sup>st</sup>. Unfortunately our 2<sup>nd</sup> doubles had an off day and in spite of outstanding performances by our 1<sup>st</sup> Doubles team of Trott & Wong who won, Kevin Lau, who finished 2<sup>nd</sup> in 3<sup>rd</sup> singles, and Brent Cheng and Ravel Li who both finished 3<sup>rd</sup> in 1<sup>st</sup> and 2<sup>nd</sup> singles respectively we fell to UCC by a mere 9 points and in 3<sup>rd</sup> place...again.

While the final result was disappointing, the players made large strides in their skill and strategy development.

Thanks to all the players, including those who were on the "B" squad, for your effort and dedication.

# 1st Badminton

After last year's second place finish at the CISAA tournament, the returning players had redemption on their minds. The first sign of this redemption presented itself when Sam Lam, Brian Lin, and Eric Nei competed in the York Regionals and eventually qualified for OFSAA tournament play. Congratulations to Sam Lam, who captured his fifth straight OFSAA A-Flight Gold Medal and is recognized again as the best high-school aged badminton player in Ontario. The Toronto Star (May 11, 2001) reported: "It's a truly remarkable achievement," said OFSAA executive director Colin Hood. "With schools dropping the from a five-year program to four, chances are his accomplishments will be there forever."

After OFSAA, the team realized that they were capable of not only winning the CISAA championships, but of dominating by finishing first in all five categories. They had this much potential as a team and as it was Sam's last year, everyone wanted to see him graduate from St. Andrew's as an individual AND team champion.

The final result from the tournament was clear: First place in first singles: Sam Lam; First Place in second singles: Paul Perrier; Third Place in third singles: Ryan Lo; Second place in first doubles: Brian Lin and Eric Nei; First place in second doubles: Kenneth King and Henry Ng. Yet, despite this

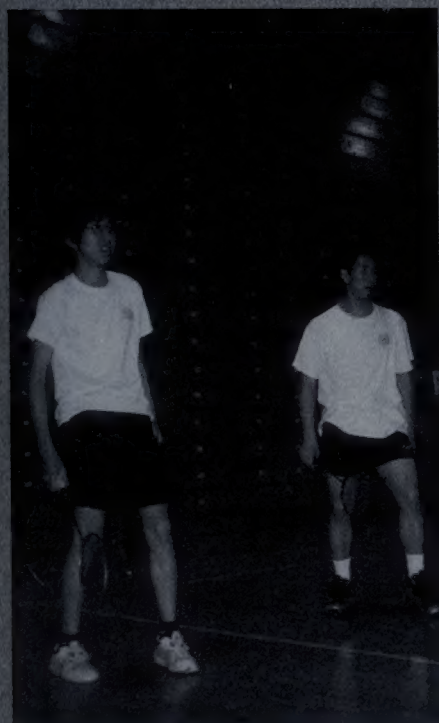

strong finish, we still only nudged out Royal St. George's College by 3 points — winning 96 to 93 to capture the title for the 2 year in the last 3. There's some serious badminton going on in the CISAA.

I would like to extend a sincere farewell to the graduating players: Kenneth King, Samuel Lam, Ivan Leung, Vincent Leung, and Paul Perrier.

This year's MIP played an extraordinary match in the final tournament to secure the team's first place finish beating a player that he lost to just the week before. He graduates as a 7-year member of the program. Paul Perrier.

The great poet Rumi said that "Rough wool in the presence of a man of wisdom becomes fine carpet." The year's MVP is a man of wisdom who has turned much rough wool into carpet here at S.A.C. He is no stranger to excellence. He's been with the program for his entire career here and leaves a legacy of sportsmanship and achievement at the highest level that will live on and that we will be reminded of this every time we enter the Bedard Gym and see the OFSAA banners hanging on the wall. His abilities have inspired his teammates year after year and his overall team approach and uncompromising standards are a model for future Andreans. He graduates as a 7-year member of the program. Samuel Lam.

Perseverance, endurance, and integrity are 3 qualities that were consistently demonstrated by the Under 14 Tennis Team this year. Despite our very short season, the team seized every opportunity to prove their abilities and strengths to the schools we played. This resulted in winning the majority of games played against Ridley, Appleby, Holy Trinity, and Upper Canada, with an overall of 35 wins, and 24 losses.

The CISAA, was a long, but rewarding day for the team. They persevered through competing against nationally ranked players, they endured the physical and mental drain of playing 6 consecutive matches, and they represented St. Andrew's in a manner that was consistent whether they were on or off the court. We know this to be integrity.

An honourable mention goes to Alex Kaptyn, Jay Smith and Matt Langer who represented St. Andrew's well in the league and the CISAA championship.

This year's MIP Award goes to an athlete who demonstrated a commitment to improve, and the ability to achieve his goals. Congratulations to Adam Bucci.

This year's MVP Award, is awarded to an individual who demonstrated qualities of leadership, encouragement, and competitiveness. He was also our Team Captain – Levin Maaskant.

The season began by shovelling snow off the courts at the end of March, but conditions quickly improved, and soon we were on the courts actually playing. Our team has allocated two tennis courts, so from a group of 18 people I had to select 10 players.

Much of the season is based on reviewing familiar tennis skills: serve, volley, smash, etc. and rediscovering footwork. Another important aspect is to play in order to establish a ranking within the team.

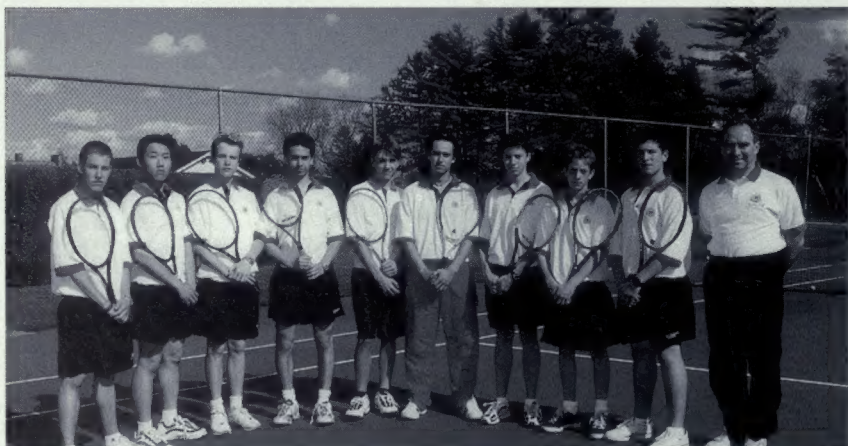

The way competitive tennis is organized is like this: on a team you need 7 players. Players are ranked in terms of ability from 1<sup>st</sup> to 7<sup>th</sup>. The top 3 players play singles (1<sup>st</sup>, 2<sup>nd</sup>, and 3<sup>rd</sup>), the next two then play 1<sup>st</sup> Doubles, and the last two play 2<sup>nd</sup> Doubles).

If during a match they win, chances are they retain the ranking.  
If they lose, they are usually bumped down.

We played 5 matches during the season. Three we lost badly, the other two we barely won. However we had enough points to qualify as one of the 8 teams for the final championship tournament, which is played indoors.

No we didn't win. However each one of our players played their best tennis of the season. In the first round we beat Ridley 5-0. In the second round we lost 3-2 to Crescent, and in the third round we lost 4-1 to UCC.

We ended up with 8 points, one less than UCC with 9. They qualified for the quarter finals, we didn't. Our day was done.

Jeff Williams, Jason Lau, Alex McNeil, Javier Torres, Matt Gnyp, Jose Uribe, Julio, Martin, Bryn Fell, Mark Gupta, Mr. Tino Paolini, Esq.

To be blunt the loss of Ms. Kravchenko and Ms. Kowaltshuck was too much to overcome. One coach for two teams has proved to be unsatisfactory, through no fault of the players.

In any case, the Tier 2 team played a "home and away" with Holy Trinity, coming second each time and had the pleasure of traveling up to Rosseau Lake two weeks in a row, the second for the CISAA final tournament. There, we lost to LCS, UCC and HTS but defeated the hosts.

The MIP winner was fairly evident. Austin Hracs brought enthusiasm to every practice. His eagerness to learn paid dividends over a very short time.

The MVP and number 1 singles player, won 2 of his 4 matches at the finals. The winner is Patrick Harris.

David Lopez, Bosco Tse, Dennis Wong, Patrick Harris, Austin Hracs, Eduardo Azcue, Andrew Cronin, Sergio Avalos, Mr. Paul Bedard, Esq.

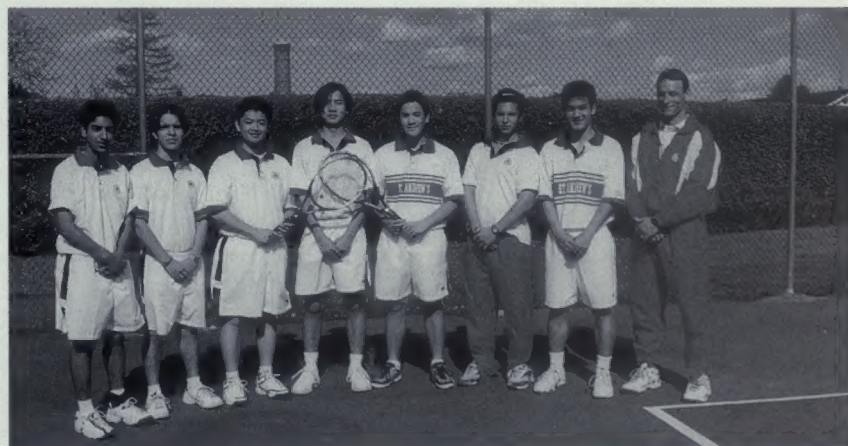

The 1st team had a very successful regular season with wins against all but one of the sevens schools in the league. We weren't under any illusions as UCC and Crescent's top players were absent. At the final tournament, we finished 3rd which was where we were supposed to be, on paper.

Before getting to the awards, I would like to recognize two and three year members of the team who graduate. Derrick Choi, Alex Tse and Ryan Cheung. Also graduating from the team will be Mexicans Patricio Gorozpe and very promising player, Roberto Figueroa. We wish all of these individuals well. Special mention to Derrick Choi who has been in the SAC tennis program since he was in Grade 7. Always a gentlemen, on and off the court, he has served, pardon the pun, as a great role model for the program.

Our MIP played very solid doubles over the course of the final tournament, helping earn 5 out of a possible 6 points toward the team total. The winner is Patricio Gorozpe.

Despite being significantly slowed by ankle injury, the MVP goes to the best player in the school and the 41st ranked Junior in the province: Tarek Merchant.

The Middle School Track team enjoyed a competitive season under various weather conditions. We competed in four meets where many of our athletes enjoyed tremendous success in their individual events. Momentum seemed to gain as the season went on as we were adding new members with each passing week. The boys worked hard throughout the week improving their individual skills and then would reap the rewards of this hard work with ribbons to show from the meets.

Mr. Perrier's work with the jumpers paid off as Mathew Suddaby won 3<sup>rd</sup> place at the CISSA Championships and Eric LeBar placed 2<sup>nd</sup> in the long jump. The sprinter's under coach Ron English won our only 1st place medals at the championship competition with Andrew LeBar winning both the 80 m and 150 m sprints. Matthew Suddaby also won the 200 m sprints on this day. Juan Del Cerro placed 3<sup>rd</sup> on the championship day in the shot put competition improving his throwing distance each meet under the guidance of Mr. Ruscitti. The long distance runners met fierce competition at the champion-

ship meet. Mr. Tsisoris was a great influence with the younger boys with Scott Giroux claiming a come from behind 4<sup>th</sup> place finish in the 400m race.

Thanks to all the boys who participated this year. Their hard work was appreciated by all the coaches and it was truly an enjoyable season.

The U12 MVP goes to Andrew LeBar who won two 1<sup>st</sup> places at the championships

The U12 MIP goes to Scott Giroux who managed two placings at the championships

The U13 MVP goes to Matthew Suddaby who was 1<sup>st</sup> in the 200m

The U 13 MIP goes to Blake Muir.

The U14 MVP goes to Eric LeBar who placed well at several of the meets.

The U14 MIP goes to Juan Del Cerro who showed great determination and improvement throughout the season

THIS SEASON HAD SEVERAL HIGHLIGHTS AND STRONG INDIVIDUAL PERFORMANCES. OUR OBJECTIVE FROM THE OUTSET WAS TO WRESTLE THE CISAA CHAMPIONSHIP AWAY FROM CRESCENT SCHOOL. THIS WAS INDEED A FORMIDABLE TASK AS OUR NUMBERS DID NOT ALLOW US TO FILL ALL EVENTS. NONETHELESS, WE BATTLED HARD PLACING 3RD OVERALL OF 12 PARTICIPATING SCHOOLS AT THE CISAA CHAMPIONSHIP MEET.

HOWEVER WE LOSE ONLY ONE TO GRADUATION THIS YEAR AND WITH SEVERAL IMPACT PERFORMERS RETURNING PROSPECTS FOR A STRONG NEXT SEASON ARE ENCOURAGING. GRADUATING THIS YEAR IS YARI AZZOPARDI. THOUGH A NEW MEMBER TO TRACK HE EARNED POINTS FOR US IN THE HIGH JUMP EVENT AT THE CISAA MEET AND QUALIFIED FOR THE CENTRAL REGIONAL CHAMPIONSHIPS.

MIP AND MVP AWARD WINNERS WERE AS FOLLOWS:

IN THE MIDGET CATEGORY BRAD DOWNEY WON THE MIP MEDAL. THOUGH A NEW MEMBER TO OUR TEAM HE DEMONSTRATED CONSIDERABLE POTENTIAL IN CROSS COUNTRY AND THIS CARRIED OVER INTO THE TRACK SEASON. HE WON THE 1500 METER RACE AT THE CISAA CHAMPIONSHIPS AND WAS CONSISTENTLY AMONST THE FRONT RUNNERS.

JONATHAN SUDDABY CAPTURED THE MIDGET MVP MEDAL. JONATHAN IS A BUDDING STAR WHOSE BLAZING SPEED WAS ENOUGH TO WIN BOTH THE 100 AND 200 METER RACES AT THE CISAA AND CENTRAL REGIONAL MEETS, AND ENOUGH TO EARN GOLD IN THE 200 METER RACE AT OFSAA. WOW!

IN THE JUNIOR CATEGORY CHARLES NG WAS THE MIP SELECTION. CHARLES IMPRESSED THE COACHES WITH HIS WILLINGNESS TO PARTICIPATE AND WITH HIS EFFORTS TO GET BETTER.

GORDON HUNTER CAPTURED THE JUNIOR MVP MEDAL. THOUGH THERE WERE NO VICTORIES HIS TWO 2<sup>ND</sup> PLACE FINISHES AT THE CISAA MEET IN THE 1500 AND 3000 METER EVENTS SERVED NOTICE THAT HE IS ON HIS WAY. HE HAS THE POTENTIAL TO BE IN A CLASS BY HIMSELF. TRAINING TO GET BETTER IS HIS PASSION.

PETER McCLELLEND, THE MAINSTAY OF THE TEAM FOR THE LAST 4 YEARS, WAS THE SENIOR MVP WINNNER. THOUGH TALENTED AND DETERMINED, PETER'S RESOLVE WAS PUT TO THE TEST THIS YEAR AS HIS BROKEN LEG REQUIRED SEVERAL MONTHS OF REHABILITATION BEFORE HE COULD START TO RUN. YET BY SEASON'S END HE WAS AGAIN EARNING POINTS AND COMPETING AT THE FRONT OF THE PACK.

AT THE BEGINNING OF THIS SEASON WE WERE NOT SURE WHAT TO EXPECT HAVING GRADUATED SO MANY STARTING PLAYERS FROM LAST SEASON. WHAT MATERIALIZED FROM THE INITIAL PRACTICES IN EARLY APRIL WAS A DYNAMIC BUNCH OF ATHELETES. THE TEAM QUICKLY GELLED WITH MANY NEW PLAYERS TO THE GAME TAKING STARTING POSITIONS ON THE FIELD. BY SEASON'S END WE WERE FIELDING ONE OF THE BEST TEAMS SAC HAS EVER HAD. BACK TO BACK GAMES AGAINST ST. MIKE'S PROVED UNLUCKY AS WE FELL TO THEM IN THE SEMI FINALS. OVERALL, WE ARE QUITE EXPECTANT FOR NEXT SEASON WITH SO MANY RETURNING PLAYERS. WE BID A FOND FAREWELL TO MANY PLAYERS: ALLEN, AJRAM, OVENS, CAMPBELL, O'MEARA, AS WELL AS OUR FOUR CAPTAINS, CRAIG, POPIEL, MARSHALL AND DAINARD. OUR MIP FOR THE 2001 SEASON WAS ADAM O'MEARA WHO DISTINGUISHED HIMSELF AS AN IMPORTANT PART OF THE DEFENSIVE MIDI LINE DISHING UP TWO OF THE MOST SPECTACULAR ASSISTS IN SAC LACROSSE HISTORY. OUR MVP WAS ROSS MARSHALL FOR HIS OUTSTANDING PROWESS AS OUR FACE-OFF SPECIALIST. HE WON 90% OF ALL BATTLES AND, DESPITE THINKING HIMSELF GOD'S ANSWER TO THE FACE-OFF, DISTINGUISHED HIMSELF AS A REAL LEADER. WE LOOK FORWARD TO NEXT SEASON WITH A TOUR IN THE WORKS AND A NEW OPPORTUNITY AT THAT ELLUSIVE LEATHER!

For the second year in a row, a huge number of boys, 48 in all, turned out for this year's team, only 7 of whom had played before.

Under the leadership of Captain Shawn Jolly, the team achieved a 2nd undefeated regular season, outscoring the opponents 300 - 60. Powerful forward play and incredible speed in the backs were the key to the team's success. Memorable victories were the 2 impressive wins against UCC, and a character-building come from behind win against Appleby.

We went into the final tournament confident of victory, only to meet a UCC side in the semifinal that bore little resemblance to the team we had already crushed twice before. That game took its toll, and we lost 4 of our starters to injury; however, we overcame a 12 - 0 deficit to win 14 - 12. The final was against CDS whom we had beaten 35 - 5 earlier in the season. While their team was large, strong and fast, a totally different look from before, we were physically drained from the UCC game and could not match them. A serious injury to one of our leaders put the nail in the coffin, and we succumbed.

However, one loss in two seasons is still a magnificent achievement.

Special thanks go to the Smurfs who saw limited action but always had fun — their final game last Monday saw them crush the CDS Smurfs 45 - 20. Many of these boys will be leaders of next year's side.

For the second year in a row, John-Ross Lennox, because of never-ending injuries was the Assistant Coach. His rapport with the boys and his impressive coaching ability were instrumental factors in the team's successes, and my sincere thanks go to him for all his hard work. Also, thanks must go to Mr. George Steeves who gave a bit of his time whenever he was available.

**Bottom Row:** Joseph Leung, Mike Bottomley, Allan Bean, Scott Lennox, Stuart Manchee, Jarryd Stock, Freddie Kane, Alex Camargo

Whoever described rugby as "The most fun you can have on an acre of grass" must have been thinking of this particular U16 team.

While St. Andrews has definitely seen bigger and stronger U16 teams, it is unlikely that there has ever been an U16 team with the combination of speed and skill that were on display this season. With the speed of Mike Gill, Dana Stewart, Simon Robinson and Colin Lowe in attacking positions, and Stewart Manchee, Allan Bean and Scott Lennox as loose forwards our opponents simply had no time to react. With the skills of Alex Camargo winning almost 100% of his own hooks and nearly 50% against the head, with Jon Milnes towering over almost every other jumper in the league, with Darryl Stock, TBirk, and Jarryd Stock displaying handling wizardry of epic proportions, our opponents simply had no chance.

We finished in first place in the East Division and took Ridley 17-0 in the semifinals, to then face our perennial arch rivals: UCC

## The finals

In what was by far the best game of the season, a tremendously exciting back and forth match, UCC managed to punch one over in the dying seconds for a 7-0 half time lead. In the second half it was our superb pressure and superior speed and handling skills that broke it free for three consecutive tries — all of them scored by pure speed and running ability for a 19-12 victory, and the championship. Overall scoring this season: 228 points for and 17 against.

We are the first ever official U16 CISAA Champions!

## The Awards:

It was an exciting and memorable season. Picking a MVP and MIP is never easy and especially in a sport that is so very team oriented. We could look at the amazing 35 points from Mike Gill, the spectacular kicking of Bots or Little Stock... all worthy feats.

But our MVP was the guy who simply never quit, the one who gave 110% in both games and practices, a young man looked up to and respected by players and coaches alike for his abilities and leadership, team captain: **Scott Lennox.**

This year's MIP is a developed his skills steadily throughout the season to the point that he was starting and playing a full game in the finals. A highly coachable player, never complaining, always working hard and who, if he learns to get just a little lower will be an excellent rugby player: **Andrew Brankley.**

## Tier II Rugby – J. Inglis

Our year began with high expectations. Initially we had over 27 students come out for the team which was quite a lot larger than I had seen in the past. Additionally, we were fortunate that many of these players had in fact played the game before and would hopefully form the nucleus of what may have proved to be a rather strong team. However, critical injuries and other commitments set in and our numbers quickly dwindled down.

Facing some very skilled, first teams of smaller schools such as Holy Trinity, Crescent, and Lakefield, our season on paper may not be viewed as overly impressive. We did, however make some gains and improved greatly from last year. Most notably was our point total which more that quadrupled from what we scored last year, and our first victory in three years against the eventual 3<sup>rd</sup> place TCS team.

I must commend and thank the core 13 players who never, lost faith, enthusiasm or were swayed by our standings throughout the year. These individuals made every practice, always worked their hardest and gave every game their best effort from the start to finishing whistle. Additionally, I must thank each of our dedicated, graduating players all of whom stuck through some rather disappointing outings to really rise to the top and lead by example. Good luck next year, and do not give up the game!

Last but certainly not least, I would like to thank Mrs. Perrier for all of her efforts. It was a pleasure to finally have a trainer to help on the sidelines and the players and I really appreciated all of your efforts this year. Thank-you.

Our MIP this year goes to an incredibly dedicated player. Never playing the game before, he never missed a practice, and as the season continues he became more confident playing the game. Our unanimous MIP for 2000-2001 season as voted by the players is **JaeHee Lee**.

The MVP voting was extremely close. The eventual winner was another newcomer blessed with incredible speed and tenacity. He never gave up in any game no matter what the score was, and his skills developed to the point that he will be a very valuable addition to the First team next year. With special mention, going to our captain and field leader Mike Charlebois, this year's MVP is **Colin Collins**.

# 1st Rugby

The season record was 8 games played, 5 wins and 3 losses. We had another great season, showing a lot of character in rebounding from losses against provincial powerhouses Barrie Central and from TCS at the tournament in April. We beat TCS later by 34 points to 3, and Ridley by 18 to 10, and 28 to 16 in the semi-final. So we were left – again – to meet UCC. The first time we barely showed up, losing 15 to 5. In the final last Saturday we played an excellent game, losing by only three tries to one. It was a short season, and a relatively healthy one. We benefitted from regular physio and hydro therapy, and recovery rates after games were much faster.

The team was young – only 6 players graduate. **Charles Long**, **Ali** and **Olivier Manigat** each enjoyed their second season. **Dave Richardson** and **Robbie Carter** were key players in the scrum in their third season on the team, and captain **Gord Birkett** lead the team with passion, skill and determination. We are going to miss the leadership from all these players. Our talented backs, spearheaded by **Oliver Radley-Smith**, **D.J. Bennett**, **James Gideon** and **Jordan Dudley**, made it tough for oppositions to attack or defend. They will lead an exciting team next year, one guaranteed to be fun to watch. With a championship under 16 group and some talent emerging from Tier II to look forward to, we are sure to compete strongly again. *I would encourage all those who are able to play club rugby and tryout for provincial teams at under 15, 16, 17 and 18 age groups. See me for details, or check the conference.*

**Awards:** There are three given each year. The first is the M. I. P award. With a number of players new to the game – **Chris McFarlane**, **Jordan Ross** and **James Gideon** – other young first team starters – **Dave Banwell**, **Mike Tzimas** and **Adam Brander** – and veterans **Dave Richardson** and **Jordan Dudley** playing their best rugby yet, the choice is difficult. But the award goes to a

*very fast, very fit and very talented player who can bounce back up after the hardest hit better than anyone I know* – this year's Most Improved Player is **Adam Brander**. Three players stand out as being more valuable than the others. For his devastating defence, and fatal finishing, **D.J. Bennett** strikes fear into the opposition whenever he's near the ball. For his outstanding leadership, great level of fitness, devastating tackling and running, **Gord Birkett** has played his most effective, dynamic rugby yet. And for his sense of timing and running, his ball skills and yes, his kicking, the third player, and the 2001 Most Valuable Player is **Robbie Carter**.

For the final award, I am pleased to present the Mark Oliver Award to the person who has made the greatest contribution to rugby at St. Andrew's. Mark was the captain of rugby at SAC in 1985, my first year here. It is my pleasure to award this to one of the game's and school's great ambassadors, the tour captain who impressed everyone he met wherever he went, and our club captain back home, **Gord Birkett**.

One final announcement. The captain of rugby for 2002 is **Oliver Radley-Smith**.

# Cricket

The 2001 Cricket season is a "good news" story from start to finish. It began with considerable optimism because of the large number of returning players, including Captain Josh Delmas, Richard Khoury, Matt Fullerton, Scott Simmons, Jason McKenzie, Zoheb Saleem, John Patton, Dominic Sacher, Armughan Chisti and Warren Chang and a new group of dedicated players, including Tim Thwaites, Mitch Myers, Ryan Foreman and Mark Robinson. It ended yesterday with a last over dramatic victory against Ridley with Mitch Myers and Ryan Foreman providing the winning runs. With the win, the team's 5<sup>th</sup> in a row and 10<sup>th</sup> victory in the last 11 matches, S.A.C. claimed its second consecutive CISAA Championship.

Somewhat like baseball, a Cricket team needs "pitchers, aka bowlers and batters". S.A.C. was blessed this season with numerous bowlers who stymied the oppositions' strongest batters. Zoheb Saleem claimed the most wickets, 17, while Warren Chang, Armughan Chisti, Tim Thwaites, Josh Delmas, and Matt Fullerton did their part as well, taking a combined 37 wickets.

In terms of batting, the story is quite simple. Without our version of Carlos Delgado, we would not have been "in the running" this season. The most challenging responsibility for a Cricket batsman is to "open", which means facing the best and fastest bowlers on the opposing team. Scott Simmons individual match scores were against UCC - 56 runs not out, and 37 runs caught out, against Ridley 36 & 12 runs bowled out, against TCS 36 runs & 3 runs LBW bowled out. These scores represent 196 runs or 28% of the entire team batting total. His two half-centuries are a considerable achievement because of the poor weather conditions he played in and the unevenness of the wickets. Undoubtedly, he is one of the finest batsman ever to represent S.A.C. in Cricket.

Other strong batting performances were given by Armughan Chisti, the team's other opener, Jason McKenzie, Josh Delmas, Matt Fullerton, Warren Chang, Mitch Myers and Ryan Foreman. The most improved player award could go to two or three individuals who played key roles in the team's success, but upon careful comparison of last year's and this year's statistics, it is clear that Jason McKenzie is this season's MIP.

I'd like to thank Mr. Rupert Gomes and Mr. Gord Gonzalez for their coaching assistance this season. In particular, I would like to thank Jason Bayley for his dedication and commitment to the team, through scoring every match ( sometimes, as much as seven hours concentrating on every call from the umpires ) and also creating a Cricket web page with match by match statistics and photographs. Thanks as well to Ryan Sequiera for his dependable behaviour as Manager of the team and our faithful supporters, Mr. Herder, Mr. Josselyn, Mr. McGee and Jihad Nehaul.

# 1st Softball

*Dedication is what these boys had,  
And that I'm loosing 6 is really quite sad.  
We had a large team of nineteen,  
Of which some a softball had never seen.  
Then there were others who'd played a lot,  
Who could watch the ball and pick their spot!*

*The season started off with a win,  
Lakefield the team and their lead a sin.  
But in inning seven we rallied strong  
And waiting for our pitch was never wrong.  
Goodbye we have to say to our "streak"  
We picked an early time to hit our peak!*

*So to four year veterans and MVPs, Tom Haney and Orson Hsu,  
Our captains strong and leaders true,  
We say goodbye and good luck next year,  
From you a lot of good advice we did hear.*

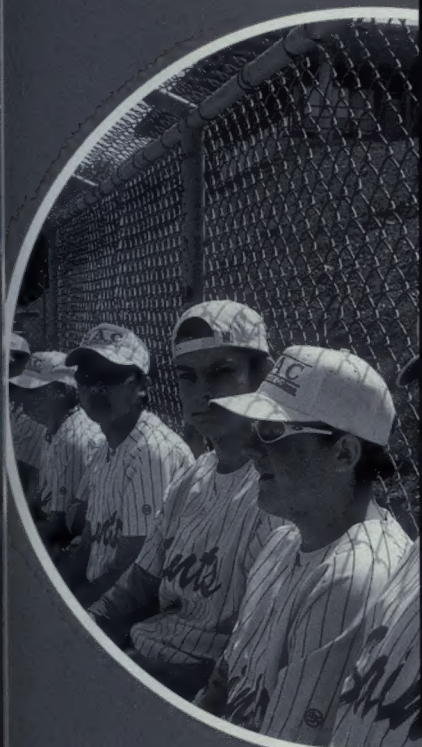

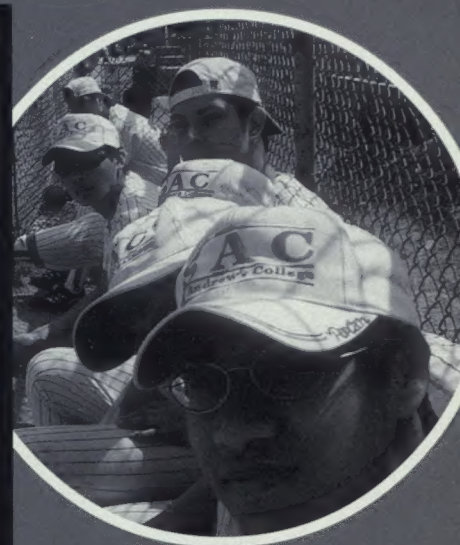

*This year we gained three really fun guys  
They were Perrier, Fullerton and Vogel who did arise.  
This leaves us to say goodbye to veteran Jason Wong  
With his dedication and team spirit he never went wrong.*

*From me and your team-mates, the other 13,  
You lead us well, potential was seen.*

*The team was fun and from the dedication I saw,  
This years MIP goes to pitcher Matthew Law.  
To all of you, for your runs and your fielding,  
Thanks for never giving up, nor never yielding.*

*And with the 6 departing players in mind,  
We'll find our swings early and not get behind.*

*Next year's team will lead the new charge,  
Come on, could two wins really be that hard?*

# Outreach Committee

## Mission Statement:

The purpose of the Outreach Committee is to encourage students to realize that as members of a community, whether local or international, they have a responsibility to others and that their help is needed. This complements the mission of St. Andrew's College: to help nurture "the complete man, the well-rounded citizen".

## 2000/2001 Successes:

- 1) The 1<sup>st</sup> Annual St. Andrew's College Terry Fox Run (*September 29*), raised just over \$8000 for Cancer Research.
- 2) The 3<sup>rd</sup> Annual Charity Coffee House (*November 24*), was the most successful one yet. We had record attendance, acts were outstanding, and approximately \$1200 was raised, most of which went to Ontario Special Olympics.
- 3) The 2<sup>nd</sup> Annual staff/student basketball game (*March 8*), was held to benefit the World Wildlife Fund. It was once again, a successful event for promoting school spirit.
- 4) Through concession stands at Homecoming, dances, sporting events, and school productions, over \$1800 has been raised for charity in the past six months.
- 5) Proceeds from each Casual Dress Day this year have been designated for specific charities including: United Way, Juvenile Diabetes Association of Canada, S.A.S.S.I.N., and Big Brothers and Big Sisters of York Region. The Outreach Committee has collected between \$600 and \$650 with each such day.
- 6) Coming up in 3<sup>rd</sup> term, the committee will be hosting a Charity Casino Night (*April 6*) and a 30 Hour Famine for World Vision (*April 26-27*).

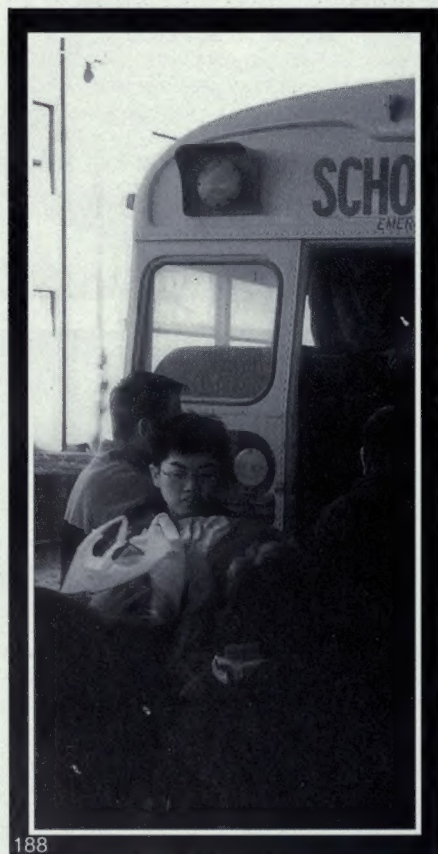

St. Andrew's students gave of their time and talents enthusiastically throughout the year. Right here at SAC, Peer Tutoring and canvassing for the Salvation Army were very well-manned volunteer activities. Locally we responded to numerous requests for assistance doing anything from assembling furniture or stuffing envelopes to helping at Toy Drives and fundraisers. At Thanksgiving and Easter, we made well-attended trips to the Toronto food bank to aid in food drives. To top it off, because 2001 is the International Year of the Volunteer, there were several opportunities further afield for students to serve in youth leadership initiatives including advisory councils and a symposium in Japan. Truly an exciting year!

Thanks to the Community Service Council and teachers for their continued efforts to involve SAC students in important volunteer work. Together we make our world a better place.

## SAC Jazz Ensemble

An impressive first performance at the "Cadets In Concert" extravaganza and a *Focus* BBQ appearance has served notice that the recently reformed SAC Jazz Ensemble is back in a big way! This year's edition of the band featured several superb musicians and soloists:

- \* Paint peeling lead trumpet and jazz solos from Dustin "The Man" Magee
  - \* Edgy lead alto and exciting sax improvisation from Nick "Big Daddy-O" Dadson
  - \* A phenomenal trombone section lead by the smooth slide of Jeff "Juiceman" Ginou
  - \* Driving rhythm section anchored by drumming sensation Andrew "Mr. Fabolous" Douglas
  - \* Smooth vocal styling and dedication of Hugh "The Intriguing Man" Dowell
- Mr. Finlay and the band would like to offer a special thank you to stellar bari sax man Mr. Jeff "Mojo" McGee and keyboard master Mr. David "Dr. Keys" Kyle for sharing their incredible talents and passion for great music with the group.

Most encouraging is that all but one of these budding young musicians will be returning to the band next year. Best wishes and thanks to our graduating lead trumpeter, Dustin Magee.

## Middle School Band

The inaugural year of the middle school band proved to be extremely successful. Over 50 students in grades 7 & 8 prepared a series of concerts throughout the year that were enjoyed by audiences both on and off campus. Among the many highlights of the year was the fine presentation of works at the middle school Celebration of Arts in December (which began with the band marching down the aisles onto the stage). In January, the band served as the pep band during the MacPherson Tournament. The third term included an afternoon concert during Focus. Most impressive was the Gold Level achieved at the Music Alive Festival in March. Mr. McGee would like to thank all the members of the band for all their hard work and fine music making.

# DECA

DECA an association of marketing/business students

This year was a very successful year for the club. Meeting once a week in the evenings to advance our understanding of marketing, management and entrepreneurial skills the members prepared for the February Provincial competition. Eleven members competed in the competition involving 35 schools and 1400 competitors. Seven of the boys competed in individual events requiring two oral presentations and a written test. Each of these competitors was acknowledged for their skills in at least one of these events and each earned a ribbon. Congratulations to Samir Bhayana, Ryan Cheung, Alex Chow, Andrew Cronin and Al Lalani.

Jason Wong (three ribbons) and Hugh Dowell (two ribbons) received medals for finishing 7<sup>th</sup> and 8<sup>th</sup> overall in their categories.

The DECA Quiz Bowl team composed of Jeff Ginou, Kevin Fullerton, Patrick Harris and John Lyons completed the season with great success. Winning the provincial championship, earned them an invitation to represent Ontario at the 55<sup>th</sup> International Career Development Conference held in Anaheim, California April 25 through 28.

There were 48 quiz bowl teams composed of state/provincial and district champions. The competitions tested the students' knowledge of Economics, Accounting and general business in a Reach for the Top format. Each game played at this level was sudden death heightening the tension and pressure for all concerned. The St. Andrew's team won their flight advancing to the semi-finals. In the semi-final, Utah came from behind in the last thirty seconds of the game to beat our team by 2 points. The team regrouped beating Alabama to win the bronze medal.

# Robot X Club

At the beginning of the year, Mr. English and Mr. Butcher never let us forget about how much work would be involved in even attempting to make a worthwhile effort at this year's Canada FIRST robotics competition. Naturally, everyone on the team thought they were trying to frighten us, as teachers tend to do. As the weeks passed, and due dates approached, it was difficult to decide which task would be getting the robot or taking our feet mouths.

Trying to find scribe the entire would be quite a like challenging, ing, fun, intense, come to mind. the entire year's word can't fit the bill. The only word that even remotely comes close would be intense. Anyone who was near our pit crew during the wee hours of the morning during the competition would have to agree as well. Anyone who went to the competition certainly learned a lot about pulling all-nighters.

Once we made it to Centennial College in Scarborough, many a team member was wondering how exactly we made it so far, in so little time, and with so little experience. The first thing that we had were great leaders, Andrew and James knew exactly what had to be done, and when it had to be done by, and Mr. English and Mr. Butcher were always eager to kick people in the pants to make sure it happened. Our three groups from mechanics turned a pile of aluminium, rubber, plastic, and various electronic junk into one SEK-C machine. (For the uninitiated that's St. Andrew's Engineering Kinetic Control, or any other combination of those four letters.) The section leaders from web design, documentation, and video also pulled their weight, letting everyone else know that this competition was not all about building a remote control toy, we would be graded

one word to de- experience chore, words time-consum- and insane all Yet to describe experience, one

on a complete professional package.

The eight weeks before the competition were a blur, we had already raised our money prior to the kick-off ceremony, and it was time to get designing. A first year team is bound to have their setbacks, and this team was no exception. The largest problem that the team had, was that most of the time was spent talking, planning, and discussing what we were going to do, and how we were planning on doing it. There wasn't a lot of construction going on. Halfway to the deadline, something clicked. Everyone realised how short a time the four weeks remaining actually were, and things started getting done. In the end, everything got finished on time, and it was time to get pumped for competition.

What happened at the competition itself is much too long and detailed to describe here, so go to the RobotX web site at <http://kilby.sac.on.ca/robotx> and check out Mr. Butcher's account of the weekend, and every last word of it is the gospel truth. Everyone on the team will agree, that this competition had way more hype than any non-professional sporting event, or CISAA tournament that they had ever been to. For a high school team that was featured in every newspaper in York Region, and countless appearances on the evening news, it is safe to say that the team was a success, despite our rookie status and lack of experience.

After four days insanity, we out of the twenty ing teams from Not to complain, have been made the semi-finals if for a rule change the competition, story. For a first

surprised even ourselves with how well we finished, and will definitely be a force to be reckoned with next year. One thing is for sure, the crowds at Centennial college will definitely be looking forward to see what those crazy SEK-C guys in the red coveralls will be up to in the future.

To finish, two words to everyone who wants to get involved next year, START EARLY!

# S.N.A.s

Every year for the past three years, a small group of students who are willing to help others, who have a sense of responsibility, and are willing to commit their time and efforts are chosen to be part of a team known as the SNAs, or the Student Network Assistants. These students are chosen regardless of their level of computer knowledge, because the most important aspect of an SNA is the willingness to help others and not the level of computer skills of an individual.

After being selected, the group of students begins their yearlong commitment as an SNA during the last week of their summer holiday. While everyone else is still enjoying their summer vacation, SNAs are already hard at work receiving the necessary training to before they are charged with the responsibility of connecting all the computers in the four residences to the school network as soon as the school year commences.

Aside from sacrificing a week of summer holiday, SNAs have to sacrifice a significant amount of their study and free time during the course of the year, the most demanding time being the first couple of months of the school year. Before the past year, SNAs faced an endless workload with computer after computer requiring service. After recognizing this as a serious problem, the 1999-2000 SNA team discussed the problem with Mr. Rush and arrived at a solution. Rather than tackling the difficulty of connecting over 200 computers as one paramount problem, we decided to divide and conquer and assigned each SNA the responsibility of connecting twenty computers. This tactic has proved to be a great success in the past year, and hopefully it will serve the SNA team next year just as well.

Although being a SNA has its difficulties at times, the rewards you get in return make it all worthwhile. The substantial number of community service hours, the computer skills and troubleshooting techniques, the free dinners at various fine diners, the entertaining bowling nights, and the free golf balls at the driving range are only a few of the numerous examples of tangible rewards you get as a SNA. The intangible rewards derived include unforgettable experiences such as the sense of accomplishment and the good feeling of being able to help others, the respect from teachers and peers, and valuable lessons that cannot be learnt anywhere else. Problem solving skills are developed over the course of the year, along with social and communication skills required to deal with frustrated computer owners who blame you for everything. Relating back to the endless workload problem, it is a good example of learning to work smarter, not harder, and better time and resource management techniques.

These are only some of the things that I have encountered, some of the experiences I am taking away with me as I graduate after being a SNA for three years. I hope it has provided you with an insight into the life of a SNA, and hopefully have inspired your interests in possibly pursuing your spot on the team. High school is a place full of opportunities to explore, to learn, and being a SNA is one of them. Take advantage of all the opportunities that lie in front of you, before it is too late.

# "Cadets in Concert"

## "Cadets in Concert" heralds new era

A musical extravaganza unlike any St. Andrew's has ever seen ushered in a new era for the Cadet Corps and the Music Department on the evening of Friday, May 11 in the Ketchum Auditorium.

Dubbed "Cadets in Concert", the show played to a thrilled and appreciative house which rose to its feet in spontaneous applause a number of times, including a prolonged ovation at the end.

The event included performances by the Pipes and Drums, the Concert and Jazz Bands and a number of soloists and concluded with a moving performance of "Amazing Grace" followed by the classic pipe anthem "Highland Cathedral" with all bands combined on the stage.

The first show of its kind at S.A.C., Cadets in Concert showcased several acts that had been perfected for the Annual Inspection the week before. The Pipes & Drums drummers' fanfare played with fluorescent orange sticks in a darkened auditorium under black light, created a musical and visual effect that will not soon be forgotten. An astonishing pipe solo by Grade 10 prodigy Andrew Douglas nearly raised the roof and had even other members of the pipe band agog at Andrew's lightening fingerwork.

Mr. Finlay's Jazz Band brought the first half to life with energy and foot-tapping rhythm. The Pipes & Drums closed the first half, displaying a sound that filled the auditorium and a quality of piping perhaps never heard before at the school.

The show even introduced the audience to a new element within the Cadet Corps - Highland dancing. Four boys had worked hard in the weeks before to master the demanding Military Broadsword, a classic male dance performed over crossed claymores.

Cadets in Concert was the brainchild of Capt. Brian McCue, who oversees the Cadet program and teaches percussion at the school. He expressed great admiration for the boys who were able to mount this production so soon after the Inspection. "These boys came together to bring the Corps into a new dimension," Brian said afterwards. "Their talent and poise under pressure really came to the fore, and the audience picked up on this and helped carry the show along. It was very exciting for all of us."

Cadets in Concert will undoubtedly become an annual post-Inspection tradition, and judging by this year's reception, tickets will be in high demand.

# SAC Christian Fellowship

*"Yet to all who received him, to those who believed in his name, he gave the right to become children of God."  
— John 1:12*

What a spectacular year! In only its first full year of existence, the SAC Christian Fellowship has grown dramatically from a small core of committed members to a diverse group of Andreans that range from the youngest Middle School students right through to OAC's and faculty. Started in January 2000 with only nine students, the fellowship has grown and grown to finish this year averaging over 30 members.

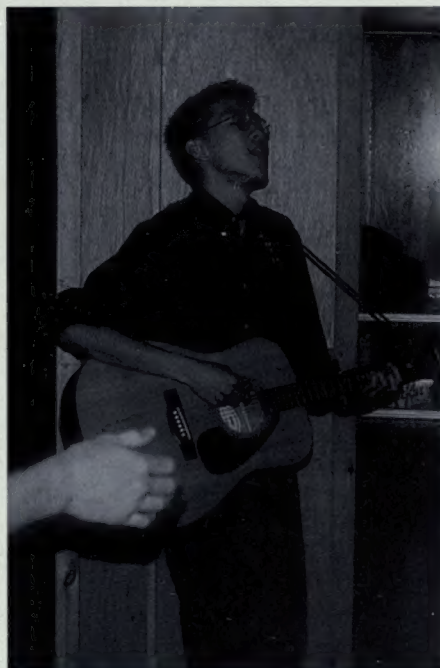

Numbers aside, the year was a complete success. Guest speakers Ron O'Hare and Dr. Norman Musewe challenged us to know and to act on our beliefs; our first annual March Break retreat strengthened the leadership of the group; term-closing Praise and Worship Nights were joyful evenings of reflection and relaxation; the Discussion series took us to new extremes, exploring everything from love and maturity to sin and the future; Fellowship Gym Nights redefined the meaning of the word 'dodgeball'; and our first family BBQ during Prize Week gave us a real time of bonding.

A teary-eyed Praise and Worship finale closed off the year in the Tuck Shop, the powerful singing and sharing a strong testament to the closeness of this tightly-knit group (the pictures here were taken that night). As the fellowship looks to the future, it says farewell to the last of its founding members, Jonathan Cheng and Tapfuma and Tatenda Musewe.

However, with the strong support of faculty and upcoming school leaders, the fellowship will only continue to grow and challenge future generations of Andreans. This year has truly been a landmark in the history of the school, but it's still only the beginning. At fellowship there exists a bond unlike any other you'll find at St. Andrew's College. It's hard to put into words, but ask anyone who's been there, and they'll tell you it's very real. — Jonathan Cheng

## Valete: MR. RUPERT RAY

The last thirty-five years have seen Rupert Ray bestride St. Andrew's College, stamping his voluble imprint on so many aspects of school life.

Among the independent schools we are unique in our Scottish factor. When Lloyd MacPherson retired in the early eighties Rupert inherited the tam, spending countless hours organizing the clans and counting points for the Hockin & Housser trophies. Who can forget him on St. Andrew's Night? Bedizened in jabot and claybeg, yellow stockinged and cross-gartered, he would address the haggis in Robbie Burns Gaelic before hacking it to gleeful death.

In preVCR days he led a stimulating Sunday night film club, shipping movies up from Toronto at a rental of over \$100. He managed parcheesi competitions during his thousand hours on Mac House duty, and ran the backgammon club. He coached the junior soccer teams and led them into battle in the national tournaments across the country. After a sabbatical year at Indiana U he returned as a Hoosier aficionado and always regretted he was too busy to coach the firsts. He was make-up chief for a succession of school plays and musicals. The list goes on. Outside the school he has been an Elder of Aurora United Church

for many years, chairing various committees, and he showed his acting skills in plays like *Private Lives* and *The Prime of Miss Jean Brodie*.

For he was always intent on the academic and personal development of the Andreans in his care. He led morning chapel with clear authority, spreading the Christian message while inspiring boys of different faiths. He spent a myriad hours in Room 32. A skilled and articulate teacher of English, he celebrated the troubles of the Ancient Mariner and Malvolio and opened the doors to Biblical mysteries. His room was a community with all students taking their parts, often marking each other's work. After the last period the room stayed busy as Rupert guided individuals towards essay success. He combined diligence with a wonderful sympathy as counsellor and confidant: a host of boys chose him as their tutor/advisor, many retaining this friendship after graduation.

This abiding helpfulness was the key to Rupert's proprietorial success as Head of Debating, a most labor-intensive responsibility for every team comprises different personnel and the debating season never closes. Public speaking is reckoned to be our most prevalent phobia, yet Rupert persuaded dozens of boys every year to speak out on school teams travelling across the country and even to Bermuda. He has promoted the art as Director of both the Ontario and Canadian Debating Unions, and last year he was honored as Head Coach of the Canadian team at the World Championship in Johannesburg.

All Andreans know that Rupert is a man of many words. Just as Nature abhors a vacuum, he hates a white page. On a report card some years ago he covered nine lines with his English comment, ending with an asterisk to indicate "letter to follow." One day he will follow Peter Ustinov's famous dictum that everything would be better for being shorter!

The Ray family will be missed on campus. Many Andreans have appreciated Kay's perceptive tutoring, while the beautiful daughters Jessica and Amanda are already set on their own careers. Health and blessing to them all! Rupert is prospecting his options – calligraphy at Ryerson is a possibility until the next world championship in Singapore in January 2002. He has a library of thousands of books to read and recordings to hear, with a hundred friends to cultivate by internet magic.

# Junior Debating

Testimony is like the shot of a long bow that owes its efficacy to the force of the shooter; argument is like the shot of a gun equally forceful whether discharged by a giant or a dwarf. The Junior Debating Society of 2000-2001 was a solid team that brought the status of Junior Debating to new levels. We had more ups in the season than downs, but our smiles did not change to complacent grins. The common message we made all our debating opponents understand was, "I am not arguing with you; I am telling you." The core team of nine debaters was active in many competitions, but the debates that left the brightest glow in our hearts were our international debates in Bermuda.

The Bermuda debates were a turning point in our debating careers. There were four prepared debates, and three or so impromptu rounds. We did exceptionally well in all circumstances as we proudly represented SAC in Bermuda. The "Guns

Trigger Violence" team of Devon Daniell, Jonathan Mackenzie, and Andrew Brankley got their photos placed in the front section of a Bermudan newspaper alongside an article about the debates at Mount St. Agnes. The team was also lucky to attend two parties; one put on by the coaches and another by a prominent debater at Mount St. Agnes leaving the team on a high note.

The beginnings of all things are small and our small team of debaters has built a solid foundation at St. Andrew's College for all young Andreans interested in debating. Other mentionable wins of the year included Jonathan MacKenzie 11th place at the Provincial Debates and Andrew Brankley's 4th place at the Fulford. Our successes could not have been possible without our dedicated coach Mr. Daniel B. Reid. We have only one debater leaving for the senior team, so there will be many experienced ones returning in the fall. We welcome new members.

## Bermuda, October 2000

Eight Junior Debaters from St. Andrew's College matched wits with several Bermuda Debating teams in Bermuda, from October 4 to 8, 2000. Our Junio Debaters showed great courage and wit while debating such difficult resolutions as "Guns trigger violence," "Physical characteristics determine destiny," "The youth of today are unprepared for the twenty-first century," and "All zoos should be closed."

The Junior Debating team from SAC faced many challenges: they debated in the unfamiliar Bermuda style of three-person teams, debated in front of large audiences, and

faced microphones for the first time.

Every one of our Junior Debaters rose to the challenges presented and, though they did not win every debate, they demonstrated great sportsmanship and a strength of character not often seen. The pride was evident in the eight-man team, which consisted of Jonathan Mackenzie, Richard Oosthuizen, Greg Willmott, Mark Hanson, Devon Daniell, Sohaib Siddiqui, Andrew Brankley, and Michael Carney. A special thanks to Andrew Martin who was a tremendous help during the trip, acting as Assistant Coach.

# Duke of Edinburgh

The Duke of Edinburgh's Award continued to grow steadily this year with numbers exceeding one hundred participants. Thirteen teams are actively engaged in expeditions, community service initiatives, and developing personal levels of fitness and skill development. This year ten Bronze Awards, three Silver and two Gold Awards have been achieved with many more Award submissions nearing completion.

Most participants would agree that the most exciting part of the Award program is the expedition component. Twelve qualifying expeditions and numerous 'practice' trips took place throughout Ontario, United States and Mexico. The Bruce Trail in Collingwood and Tobermory were popular expedition locations as were the many excellent hiking trails in Algonquin Park. Team 6 (Gold) took the plunge with an exciting scuba exploration project in Cozumel, Mexico. This special Duke's venture took a year of planning, including the Team training for their PADI scuba certifications and hours of pre-study in marine biology. Mr Galadga provided tremendous support and guidance in the development of the marine research project, which is still ongoing. Team 7 (Gold) is soon to embark on a very exciting six day hike in the White Mountains in New Hampshire. John Lyons and Adam Brander were awarded their Gold Medals for their trekking and community service in Nepal as part of SASSIN 2000.

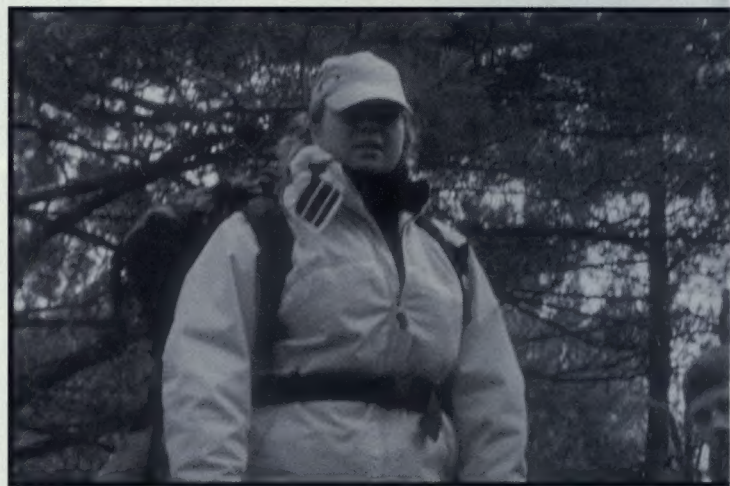

Congratulations to all Award participants for their dedication and perseverance towards achieving their best in all areas.  
Award Winners:

**Bronze:** Matt Gnyp, Simon Robinson, Chris Chmiel, Geoff Ovens, Nick Dadson, Dan Von Diergardt, Geoff Delean, Brendon Zack, Nick Caron, Darryl Stock

**Silver:** Mitch Myers, Drewe MacIver, Trevor Fahlgren

**Gold:** Adam Brander, John Lyons

**Team Leaders:** Mr. McCue, Mrs Perrier, Mr Service, Ms. Beck, Ms. O'Hare, Mr. Cowell, and Mr Reid.

# Cadets

# Cadets

The 142nd Battalion (48<sup>th</sup> Highrs) enjoyed a strong training year producing great results in Cadet courses, on parade and in competition. The Star Training program celebrated its strongest numbers ever and was enhanced by a wide array of optional programs. The scuba and rock climbing teams once again challenged themselves both above and below. The St. John First Aid course and the Life Saving (Bronze Cross) program provided valuable training for future employment in summer jobs, as did the Young Driver's course attended by eighteen new drivers.

The marksmanship and biathlon teams were both prize winners this year. Gord Hunter won the Gold Medal in the Cadet Biathlon Competition at CFB Borden, with John Lyons coming in a strong third. The marksmanship team, lead by team captain Charles Etienne Bergeron, put forward a stellar effort, placing second in the Zone Shoot and carrying on to the Provincial Championship at Connaught Ranges near Ottawa. Charles, having won the top individual shooter in Ontario, carried on to the Nationals in Aldershot, Nova Scotia where he won the Gold as a member of the Ontario Team.

The long hours of practice by the Pipe Band, Cadet Military Band, and the Cadet Lighting and Sound Team came together for an exciting musical venture, **Cadets in Concert**. Under the direction of Capt B. McCue, this "tattoo on stage" featured the electrifying S.A.C. stage band with vocalist Sgt Hugh Dowell, the Concert Band with soloist Cpl Andrew Brankley and the Pipe Band, featuring piper extraordinaire, Warrant Officer (now Pipe Major) Andrew Douglas. The black light drum fanfare brought the house down, as did the Highland Dance Team performing the military Broadwords. Special thanks to Band Masters J. Clements, Don Finlay, J. McGee and Piping Director J. McGillivray. The Food Services course, conducted by Head Chef Luigi d'Ambrosia, was also a popular new addition to the Cadet Program.

The Cadet year culminates with the Inspection week of parades and special events. Cadet Commanding Officer LCol Jason Wong along with Deputy Commanding Officer Major Andrew Martin and Adjutant Major Jackson Lau carefully put together the detailed parade orders for each practice. Regimental Sergeant-Major Gordon Birkett was meticulous, as a good RSM should be, ensuring that the drill, dress and deportment of the unit was never compromised.

The skies shone brilliantly on the cool morning of the Annual Church Parade in Toronto. The bus convoy waited patiently at 7 am while Highlanders of all ages nervously scrambled into their distinctive scarlet tunics and kilts. The parade to St. James Cathedral was nothing short of thrilling with nearly 450 Andreans parading in step to the sound of the Pipes and Drums. Reviewing Officer George (Mac) Frost '40, was duly impressed with the affair and had many favourable comments to share with Commanding Officer, Major John Stephens.

As Wednesday approached, watchful eyes were raised to see if we would be granted the same luck with the weather for the Annual Headmaster's Parade. Indeed we were, although the temperature was quite a bit higher, causing the odd fainting spell. Honourary LCol R. Reid (48<sup>th</sup> Highrs/ Class of '50) and Headmaster Staunton appeared pleased with the Inspection while the Company Coaches (Reid, Inglis, A. Perrier, Stuart, Shields, Giel and Jones) were pleased to hear that the CO had confidently given the Corps Friday off for extra shining and polishing and a well earned rest.

On the night before the Annual Cadet Inspection, the skies opened up with rain, and the clouds appeared to be settling in for long, drizzly down pour. The rain continued throughout the night but much to our amazement, the morning welcomed us with another clear blue sky. Reviewing Officer, Richard Boxer '52, LCol George Turner (CO 48<sup>th</sup> Highrs), Honourary Lt Col Kingsley Ward (Board of Governors), and RSM Darling (48<sup>th</sup> Highrs) were among noted guests in attendance at this near flawless parade.

Battling for Best Company were Flavelle and Memorial Companies and in the end, after some dynamic manoeuvres on the parade square, Captain Vladmir Kim (Company Comdr - Flavelle) gladly accepted the Trophy for Best Company. Alongside was Lt Pablo Sanders (#9 Pltn - Ramsey Company) who accepted the Trophy for the Best Platoon.

Other special Awards went to the Top Middle School Cadet, LCpl Jay Smith, Top Grade Nine Cadet Cpl Charles Abbott and Top Upper School Cadet, MCpl Mitch Myers. Drum Major Paul Perrier, Pipe Major Devon Ajram and Lead Drummer Warren Lowe all received accolades for the fine demonstration by the Pipes and Drums.

Congratulations to all ranks for one of our finest years and best wishes for an enjoyable and productive summer.

### **Never Will I Forget**

As I awoke to the sting of the cold and the dreaded pain of having little sleep the night before, I thought to myself "I am never doing this ever again!" My eyelids were heavy and my sleeping bag was pulled up over my head covering my entire body. I was wearing layers and layers of all my warmest clothes; my feet were wrapped in my down jacket curled at the bottom of my bag. I took a deep breath and told myself, "It will soon be over. Just one more day." When I exhaled, my whole body shivered from head to toe. I took off my gloves and pulled up my hat from over my eyes. I felt for the zipper and slowly pulled it down trying not to lose the little heat I had left in my cocoon shaped sleeping bag. As it opened the cold air seeped through eliminating all the warmth that I had created.

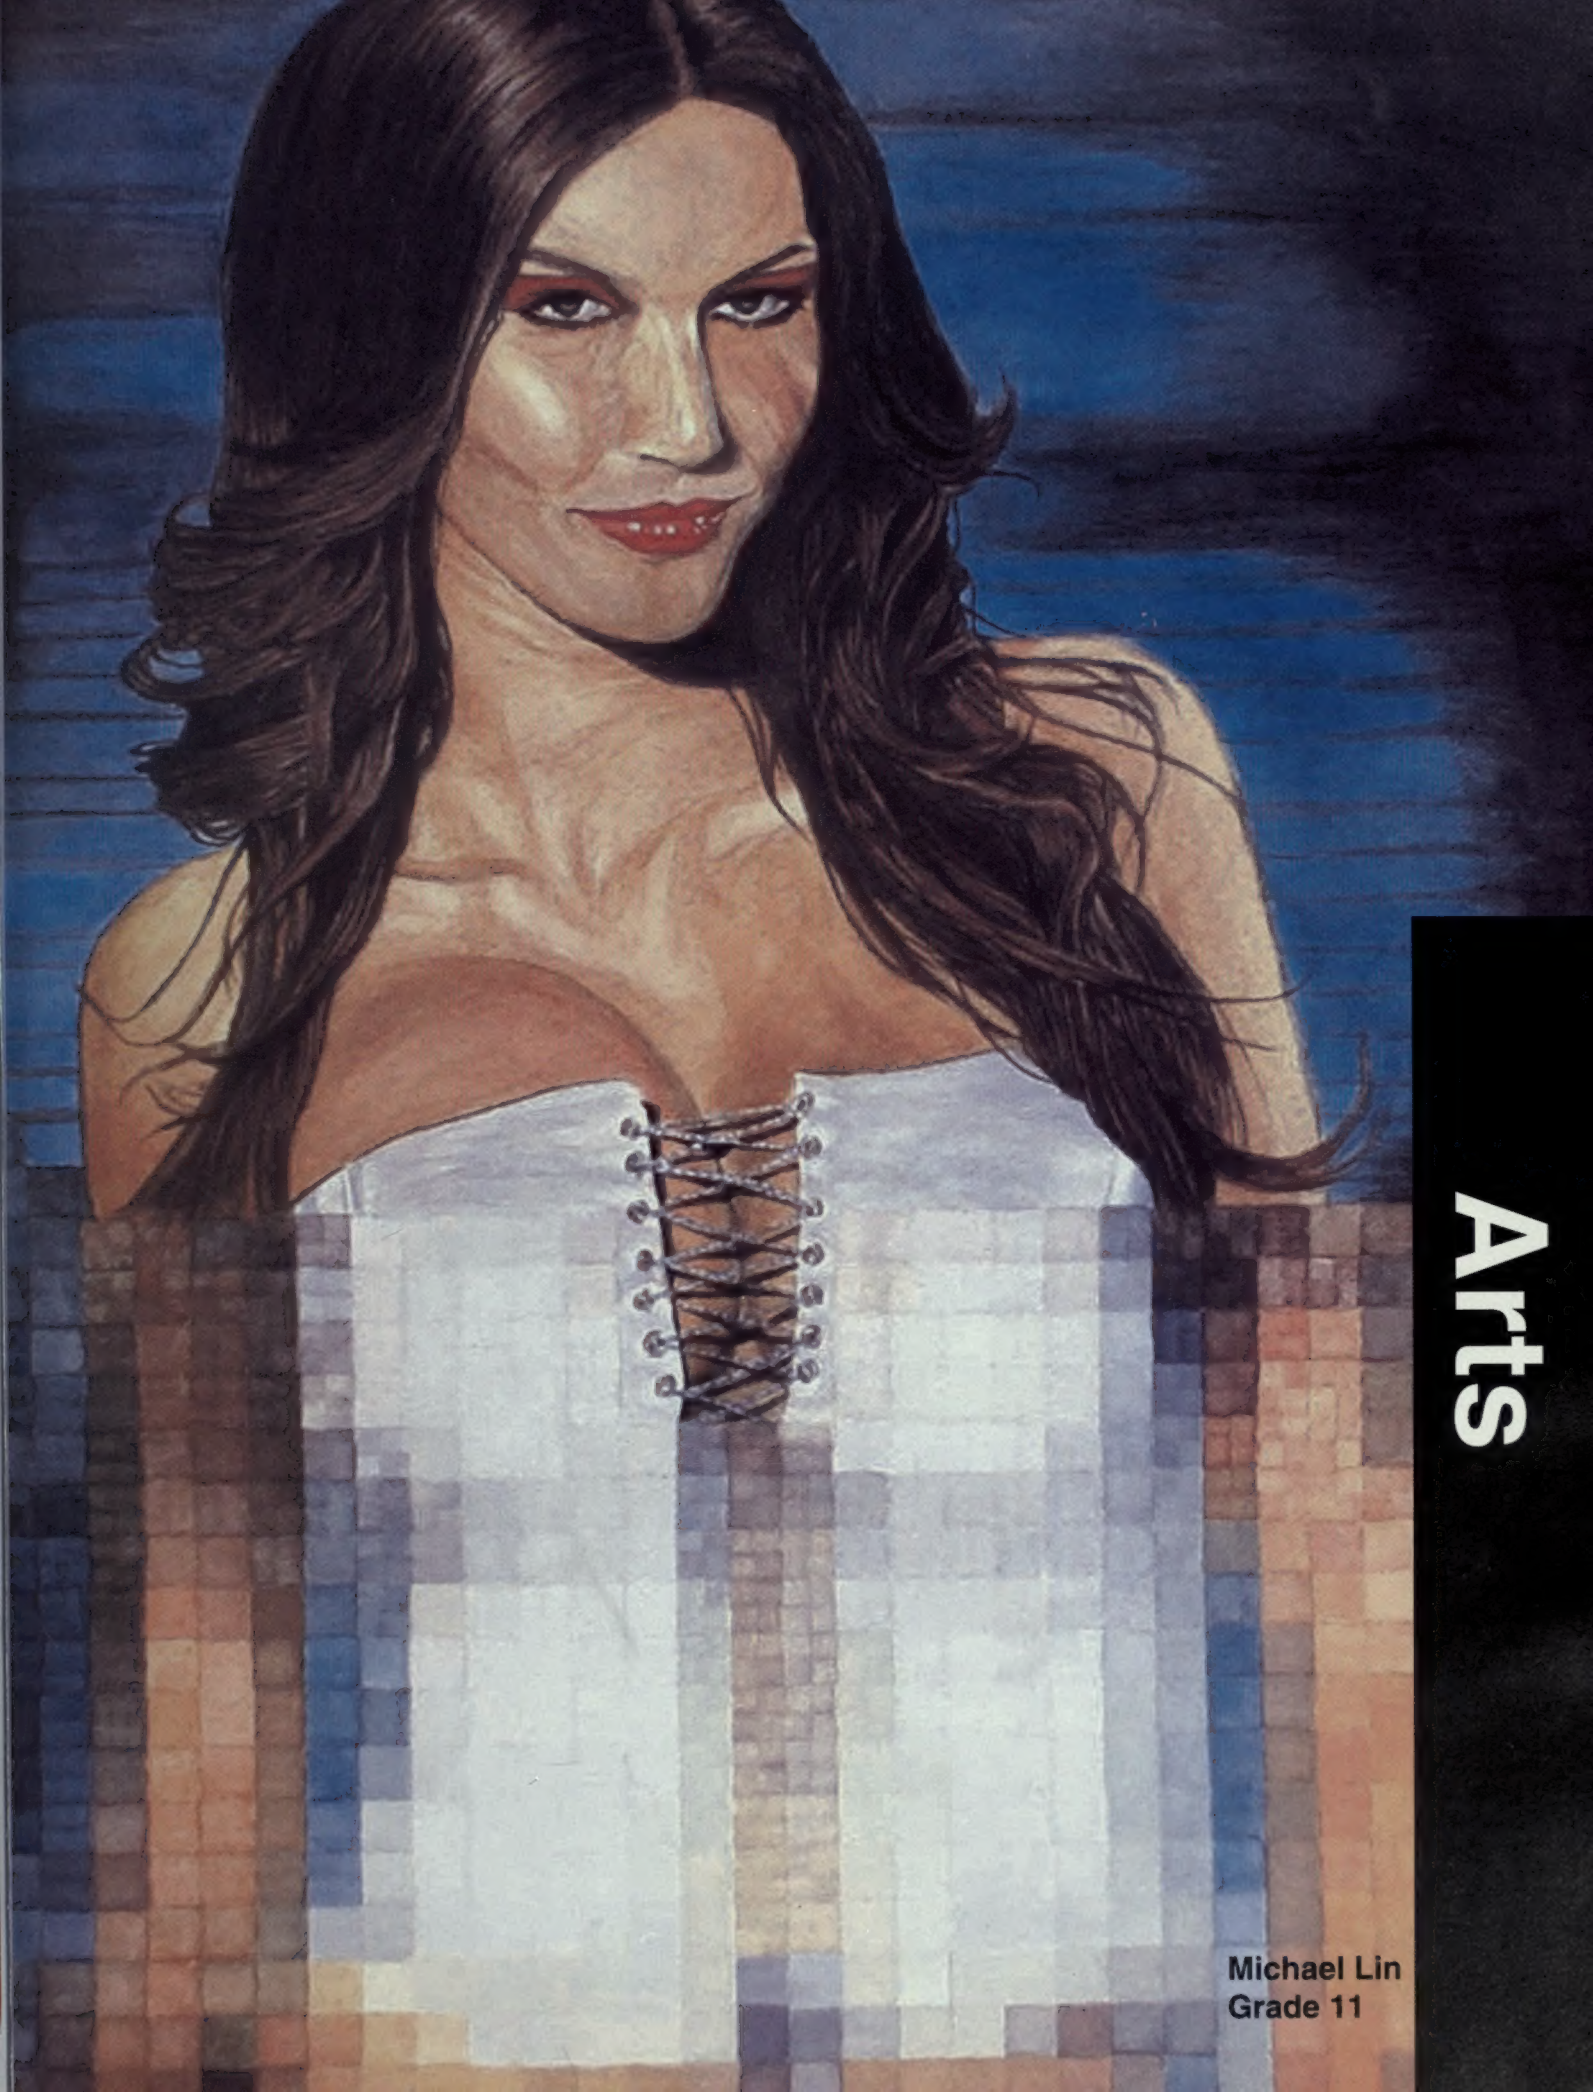

I looked out of my sleeping bag and the bright light, that had filled the tent, burned my eyes and I quickly lowered my head and shut them to stop the throbbing. I opened them again, but just a little slower so they could adjust to the sunlight. I looked to my side to see Nick and Dan curled up and totally engulfed in their warmest clothes and thermal blankets. I knew the only way to get warm was to go outside, get my boots on and start moving. So, with extreme force holding me back, I gathered all my energy and lifted myself up, pulled on my shoes and stumbled out of the tent into the fresh layer of snow the night had left. As I gathered myself together, eyes half open, I thought, "Never will I forget this camping trip!"

## The Mysterious Ray Gun

Stanley was a lonely boy. He was 12, dedicated to Lego, and very creative. No one knows where he had gone or what had happened. But, I do. Andrew knows too, but he can't talk yet. When he's old enough, he'll probably forget. But I'll tell you about Stanley Stevens.

Stanley had a toy called Lego. It was a toy made out of interlocking bricks. Stanley made a town out of it called, "Octan". Now, here's the story from Stanley's point of view.

"Almost finished!" Stanley was mumbling. "Just have to attach the power source." Stanley was holding a magnifying glass along with little Lego men while puppeteering them to talk and build a ray gun out of extra Lego. Originally, this ray gun was supposed to bring anything to life. It really couldn't because it was made of Lego; unless he used a little Lego brick that an old man had given him. The old man said any Lego it was attached to would become real. Of course Stanley didn't believe him, but he kept it anyway because it was free. Stanley put the "special" Lego brick on the ray gun as a "power source".

"Finished!" Stanley mumbled as he puppeteered a Lego man named, "Inventor." "Turn power on. Set to full. Fire!" The ray gun was mysteriously making charging sounds and looked like it was going to fire. It was too late for Stanley to move. It was aimed at his forehead through the magnifying glass he was holding, hoping to block the ray beam. "ZAP!" Unfortunately, it zapped right through the magnifying glass and hit him right in the forehead. Part of the ray beam, which was magnified, ricocheted and hit Octan (Lego town). The ray beam was so magnified that it hit all the Lego in the town. The town became alive and the Lego men were actually walking around doing what they were supposed to be doing.

Stanley shrank into a Lego man. He was all plastic and the size of a Lego man. He stood still in front of the Octan Fire Station trying to think about what just happened. He ran up to Sarah and Maxwell on the bicycle.

"Where am I?" asked Stanley.

"In Octan, silly," replied Sarah.

"Now buzz off smiley," said Maxwell. "She's my girl."

Stanley started walking away. "Come back if you need anything!" yelled Sarah.

"Yeah," said Maxwell, "like a lawsuit!"

Stanley heard a faint siren but it got loud very quickly. A policeman on a Lego police motorcycle stopped in front of Stanley.

"Hi, Stanley," the police officer greeted him.

"How do you know my name?" asked Stanley.

"Everybody knows you, Stanley," replied the police officer. "I'm Jeff, if you don't think you know me. By the way, have you seen Charlie?"

"No," replied Stanley.

"I'll check the police station," said Jeff. "I doubt it if he's there. Bye!"

"Yeah," said Stanley. "You too."

Jeff drove off and the siren was gone.

Stanley walked over to someone sitting in an Octan gas truck, which was not far away.

"Who are you?" asked Stanley.

"The name's Gilbert," replied the man. "Need anything?"

"Nope," replied Stanley.

"Not even a ride?"

"No. I'd rather walk."

"Suit yourself."

Stanley walked over to a street cleaner that he thought was empty. But it wasn't.

The man inside noticed Stanley and said, "Hi Stanley. I'm Richard. You might

already know that you can trust me with anything."

"Yeah," replied Stanley. "I know."

"Well, I have to get back to cleaning these streets. Bye."

"Bye."

And Richard drove off.

Stanley turned the other way. He noticed that in front of him was an escaped convict with a suitcase, running at him looking backwards. Ouch! The convict ran into Stanley and they toppled over. The suitcase flew out of the convict's hands and snapped open revealing a one billion dollar gold piece! Stanley recognized the convict's face. It was Charlie!

"Watch where you're going!" yelled Charlie. He grabbed the suitcase and ran off.

Stanley stood up. Jeff on the motorcycle stopped in front of him.

"Have you seen Charlie?" asked Jeff. "He robbed the police station."

"Yeah," replied Stanley. "He went that way!" Stanley pointed.

"Gotta go!" said Jeff and he was gone.

Stanley walked back to Gilbert and asked him how he could fix the ray gun so that he could get back to normal.

Gilbert said, "Speak to Inventor."

Stanley asked the others and they, too, said, "Speak to Inventor."

It was hard to find Inventor until Stanley spotted him in his car looking for something. He was dressed in blue. His sleeves were white, pants blue, and he wore a blue helmet with a visor that had a mysterious glow. "Hi, Inventor," said Stanley. "Could you fix that ray gub of yours?"

"Yeah," said Inventor. "It's really yours."

"What do you mean?" asked Stanley.

"I mean you created it," replied Inventor.

"I don't know how to fix it."

"Fine. I'll fix it."

They walked to the ray gun and Inventor started to fix it.

Stanley started to feel the ground shake slightly. Stanley's door to his room opened, and he saw something frightening. His little brother, Andrew! Andrew stumbled to the Lego town and started wrecking havoc. He crushed some Lego and drooled all over! The other Lego men were getting stuck in

the drool and couldn't move. Andrew was like King Kong, but bigger. Richard tried to clean up the drool, but got stuck in it.

Stanley yelled to Andrew that he could crush the Lego later. Andrew was convinced.

Inventor aimed the ray gun at Stanley and was about to fire when the ground started to shake and felt like an earthquake.

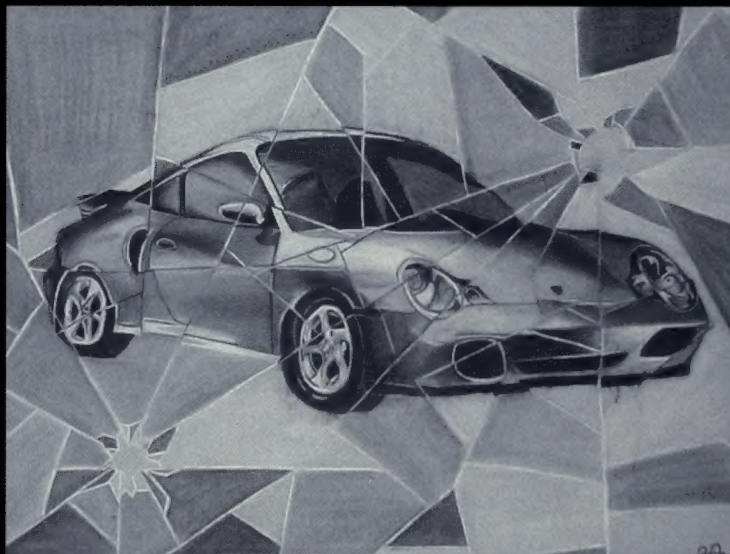

"Oh no," said Stanley. "I forgot it was Andrew's birthday today!"

The door slammed open and in came the other kids. They stampeded over the Lego and crushed everything. Inventor hit the button and disappeared. The ray gun charged up. It was about to zap Stanley then; CRUSH!!! The ray gun was crushed to pieces! Stanley was avoiding the crushing feet and couldn't believe his eyes. The ray gun was destroyed. STOMP!!! Stanley was crushed by one of the kids! He was cracked and struggled to stay alive. Finally, Andrew and the kids left the room. The ray gun was destroyed. The town was destroyed. Stanley was destroyed. Stanley took his last breath and died!

So that was the story of the mysterious ray gun. One thing though, Stanley didn't die. I was a mysterious toy even before I was brought to life. I had strange abilities and powers besides my intelligence. I fixed Stanley and he's with me now. I told you this story because we're still alive. I'm Inventor. And one more thing, give me a holler if you see that mysterious Lego piece...ever...

## Abandon Me

Never let a stranger stand in your way  
 No reason to hide  
 No reason to  
 Left me in the darkness all alone  
 You can't hide  
 No one to

They can lock up your body but not your mind  
 Nobody to run to  
 Nothing new to find  
 Is it if you get up or if you fall  
 No one can help you  
 No one at all  
 You are the victim of your wrongful fears  
 From your eyes come  
 The broken tears  
 People telling you your hopes and dreams  
 Danger and Delight  
 Grow on one tree  
 Don't speak unless you can improve the silence  
 Arm the homeless  
 Or resort to violence  
 The less I hear the more you say  
 I can't hide  
 Just run away...

## All Good Things

The day began like any other. Although, I suppose all days that end like this one begin like "any other day". I remember that it was cold. It was the time of year when fall turns into winter, when strong winds blow in the northerly air and people get a taste of the bitter days ahead. The strange thing is, until that day, the cold never bothered me. The day started slowly, almost like a gramophone grinding slowly forward before falling into a groove. Although I had nothing, absolutely nothing, to do with what I am going to tell you, I saw it all.

It was early morning in the ER. The young couple came in first. I liked them. The young man, with his shoes squeaking loudly on the clean tile floor announcing his arrival, came around the corner. Carrying one heavy suitcase in his right hand and a carry-on around his left shoulder, he almost tripped and fell before he reached the seats across from me. The bags landed with a thud and the man, exhausted and gasping, sat down. This was the first, and the last, time I had a good look at him. He was good-looking in most respects, tall with broad shoulders, but he had such a pallor that it led me to believe that he spent more time behind a desk than in the real world. He had a kind face, that you only find occasionally, one that makes you feel relaxed. Although she made little to no noise, he turned as soon as his wife came rounded the corner. She was very beautiful and very pregnant. A light bag over her shoulder caused her difficulties as she walked. With a faint smile on his face, he moved briskly to her and took the bag. His arm went around her as much a sign of affection as assistance in walking, and they sat down across from me. She looked tired, and it took no genius to realize that she "knew" it was time for the baby to make an entrance.

The other man came in next. I knew at once that I would not like him, and that where he trod problems would follow. At first I thought he was a patient. I would laugh now, looking back on that wild notion, if the events to follow were not so dire. The man came in a wheelchair, his wife pushing from behind. She was a warm looking person, with flushed cheeks and curly red hair. There was still some twinkle in her eyes. Her husband appeared to be a mean, angry man. Like his mouth, his eyes were small and tight. His whitish hair was in small wispy formations and his hands were clenched into white-knuckled fists. As they walked by a faint unpleasant aroma filled my nose. I know it now; it was a smell with death marked on it. No matter! There is a waiting order and even though there are no exceptions, everyone felt his exception was exceptional.

The old man bellowed loudly at his wife. His voice rang in my ears and set the hair on the back on my neck on fire with anger. How can a human being treated with such lack of respect, come back for more? What did she see in him? It could not be his looks.

It was not the man in the wheelchair who was there to see the doctor, but his wife. She appeared to be carrying her own bag. When she came closer, I realized she was in desperate need of medical attention. There was no glowing neon sign beside her head saying "In need of help!" but that was the only thing missing from this person's sorry figure. Her skin, save for the rouged stain on her cheekbones, was loose and ghostly white. There was a hesitation in her step that seemed tormented. She put her bag down alongside the chair beside me. I clenched my fists deep in my pocket to help suppress the disgust building inside of me. My mouth revealed nothing of my building turmoil, as he sat down beside me. I tried closing my eyes to minimize the effect. I could still feel his presence, or rather, I felt cold. When a human being is close to you, should you not feel warmth? With him, I just felt cold.

After the couples left the ER, I lost track of their whereabouts, and since I was not needed I took a walk outside. The cold winter air bit my cheeks. I turned up my collar to escape some of the sting. Snowflakes fall so beautifully in the night. I could see the light from the lamppost reflecting off the flakes. My back was turned to the hospital. It's not as much that I was afraid of what I saw when I turned around, but more that I didn't wish to deal with what was behind me. The night was beautiful. The stars were shimmering as if drops of rain in the heavens refracted a little light from the sun that was far away by now. It was strange to have snow falling and still be able to see the stars. A scream woke me from my reverie. It emanated from inside the hospital, sent a rat sized chill crawling down my spine and made my hands tremble. With snow crunching underfoot and a heavy heart, I trudged back into the hospital.

The door-handle was cold, which was not surprising considering the temperature outside. The coincidence was worth noting nonetheless. I took a strong grip on the icy handle and thrust open the door. With equal force, the air rushed back at me with such might that I almost fell into the snow bank. However, with one foot carefully placed in

front of the other, like a child taking his first steps, I powered my way through the door. Then as if Atlas had come to removed the world's weight from my shoulders, my compensation for the wind, now unneeded, almost caused me to fall forward. I am glad my feet are large enough to support me or my face would be seeing more of the floor than would the soles of my shoes. Walking calmly finally, I looked at the list of admittances for this morning and found the rooms of the couples I had observed earlier.

\* \* \* \*

The hallways, with their unsightly windows, dim lights, musty smell and floor patterned like a quilted blanket that was vaguely familiar, were like home. It surprised me that I could think about so many things but still arrive where I wanted to be. I was standing in front of the nice young couple's door, but suddenly I felt conspicuous and naked. Never taking my eyes off the door to their room, I quickly got out of the spotlight. Something was dreadfully wrong. There was no noise. Except for the common sounds of wheels on the carpet, the intercom and an occasional footstep the hall was deadly silent. They were having a baby. There should be non-stop activity, discourse and people passing in and out of the room. I walked over to one of the nurses, a tall blond girl, who seemed bubbly and kind. As I pointed at the room, the door opened and the young man walked out. His eyes were red, blood-shot, and his skin hung on his bones as if he had aged many years during the last few hours. The nurse's engaging smile quickly disintegrated to a flat line and she attempted to offer him comfort. Like she was a ghost he paid little attention to her and walked on. For an instant his eyes caught sight of the older man sitting in his chair looking sad and bitter. I walked in a neutral direction between the two to observe.

The young man, as if reborn into an alien world, seemed unsure of every step. He walked slowly, his head hanging down as though he no longer had need to hold it high. The older man was muttering to himself. Maybe he had just started or maybe he had been doing it the entire time but it was the first time I heard it. He was cursing his wife. He damned her for leaving him and for giving up on life. Most of all he cursed his circumstances. There was no one left to look after him and he blamed everyone for it. The younger man must have heard this for I could see his fist clenching. After another loud outburst about his wife, the young man spoke with a definite tone.

"Your wife did not fail you. You failed your wife."

The older man mumbled a cantankerous response despite his shock at being addressed.

The young man continued fiercely, "Did she really mean so little to you? She was not your servant, she was your wife? Your wife, the woman you promised to love in sickness and in health, until death do you part."

The old man snapped, "Love is the business of the idle."

The young man's rage welled up and in one loud explosion he cried, "Love is the breath of life. It is where the heart and mind, and the body and soul join. To love is to drink deeply of life." Tears rolled down his cheek.

"How dare you speak to me in such a tone young man!" the old man yelled, looking away from his accuser. "You cry like a child. Actors cry on stage and like them your emotion is merely a mask."

A strange look, which made me uncomfortable, came over the younger man and he said with clenched teeth, "Yes, tears may be shed for show but they ease the soul. I loved her. A shadow of her is all that I have left, yet that is the substance of which dreams are made."

I turned a cold shoulder to that scene and wandered downstairs. My mind in a daze, my feelings were running rampant or at least far away from me. Noises seemed distant. I felt myself alone in a sea of emotions. Rounding the corner, I saw my wife and a deep warmth exploded inside of me reducing me to tears. I ran toward her but, to my dismay, she walked right by me. She looked much older and sadder than when I had left her last night. She walked up to the nurse's desk and said, almost in a whisper, "I'm here to identify my husband's body." That whisper rang like bells in my ears. As a great force hit my chest, dozens of memories from the past twenty four hours flashed through my mind. I seemed to lose my balance and fall into nothingness.

I am looking at my shadow every day, and always feel guilty about one past experience. A shadow is a person's reflection, showing both negative and positive. It is like a mirror, but more honest, and it follows you everywhere. Have you heard of a mafia group called the Horror? That is one of the mafia groups with the most power in this city; opposing them is Merciless, another mafia group that keeps the balance of power. I am an assistant of the leader of Horror, Michael Kabror, and he treats me like a member of his family. He has a wife and two daughters, and I am deeply in love with one of the sisters, Shelley.

This happened two weeks after my mom's funeral, when I was about to make a trade with the local drug dealer. The police came out and arrested some of our members, capturing most of the heroin that we were about to trade. I was terrified of my responsibility in this matter. Although I escaped the situation safely, the stuff that we were about to trade was worth more than five million, and even though this is the first time such a thing has happened to me, no one in Horror has ever gotten away with such a mistake.

Mr. Kabror told me to solve this matter by myself, and to try to get the drugs back, or rob them from Merciless. I chose the latter route, which was easier, and it could also damage Merciless in a big way. A week later, I had my plan worked out, and gathered my guys to rob Merciless headquarters. When my buddies and I got there, we begin to kill all the Merciless members we saw. But all of a sudden, the police came in and began another gunfight.

We had some good shooters on our team, but they still had the advantage in numbers. I tried to escape but I got captured before I could get to my car. The police knew I was a very important person in Horror, so they offered to drop the charges in return for spying for them. They also promised that once my job was done, I would receive enough money to live in prosperity as a reward. All they asked was to help them arrest my boss, Mr. Kabror, and I would go free.

I knew that if I didn't accept the deal I would be charged, but that was not my main concern. My main concern was about my failure. I failed to do my job twice; a rule in Horror says that whoever fails twice will be punished severely. I promised the police, and left the station as if nothing had happened. My mind became empty. I didn't know what I was supposed to do, and every consequence I could imagine was bad.

Two weeks later, my boss invited me to his house for a party. Because the police had returned the drugs to prove my job was done, the boss was very impressed with me. After the party, he told me to come to the living room with him. We stood there together. All of a sudden he said, "Kevin, why are you lying to me? You told me the heroin would be coming from Merciless, but how did you get back the exact amount? Tell me the truth, and I will forgive you. Otherwise you will be punished."

My first reaction was to pull out my gun and point it at Mr. Kabror. His face filled with shock, but he couldn't move because he knew that if he did, he would be on the ground. All of a sudden, all the good things he had done for me came to my mind. But then an evil thought crept into my mind. If I killed him and pretended it was done by Merciless, I would not be hated by Shelley and I would live in prosperity. While I was making up my mind I was looking down at him. All of a sudden I saw my shadow holding a gun, pointing it at someone that I used to love so much.

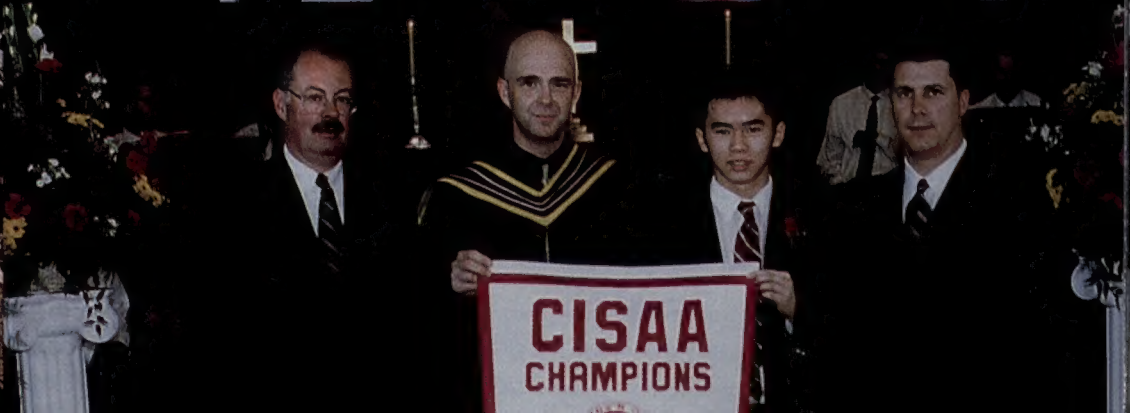

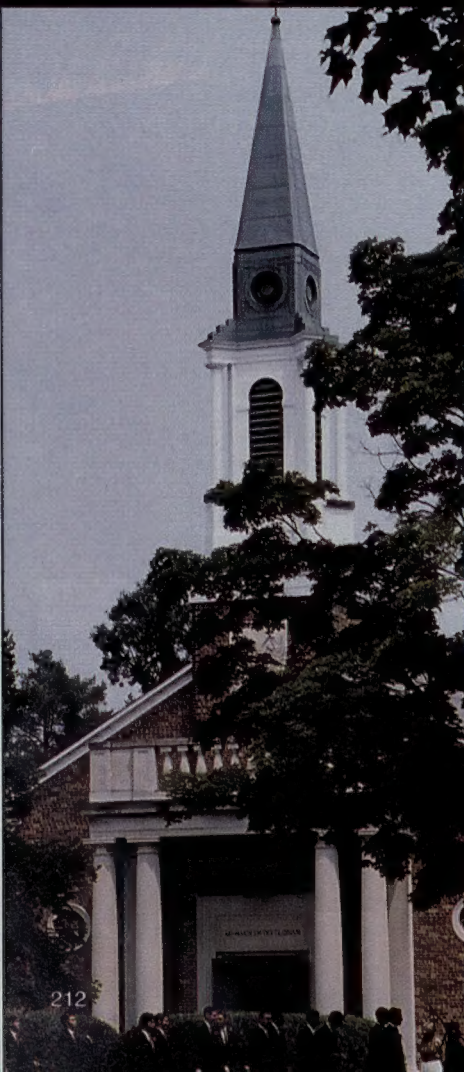

I am walking on the street, with my wife Shelley. We married two months ago, and she is already two months pregnant. I have a very happy life, and I am about to buy some clothes for the baby that we are expecting. I am supposed to be the luckiest man in the world, but when I look at my shadow, sin and guilt visit me again.

# Prize Day

# HEADMASTER'S PRIZE DAY SPEECH JUNE 2001

I would like to dedicate my address today to Mrs. Robyn Magee, an exceptionally dedicated member of the Ladies' Guild Executive, who is courageously battling the effects of multiple serious injuries suffered in a recent automobile accident. We wish she was here today to celebrate with us the graduation of her son, Dustin. We send to her our best wishes and our prayers for a speedy recovery.

Mr. Chairman; the Mayor of Aurora, Mr. Tim Jones; Ladies and Gentlemen: It is my pleasure to welcome all our guests to this 102<sup>nd</sup> Prize Day at St. Andrew's College. This must be one of the largest gatherings in the history of the School. We are very appreciative of the fact that many parents have travelled a long way and made a considerable effort to be with their sons on this special occasion.

I would like to focus my remarks today on three important issues.

The first is the theme of this school year which has been "integrity".

Usually defined as "uprightness of character", or, a "just, frank and kindly heart", as the famous French playwright, Moliere, put it, integrity, has been a unifying force in all school activities this year. From the Opening Academic Assembly on through to today, the Faculty in both the Middle and Upper Schools have encouraged the boys to respect the three elements of the School's Honour Code; personal honesty and truthfulness; academic integrity and respect for the person and property of others.

I believe we have made considerable progress. In virtually every area of School life, the boys have held true to this principle and acquitted themselves well. We would not have had such a good year without the strong leadership skills displayed by the Prefects. Integrity is the linchpin of leadership. Led by Head Prefect Mike Craig, this outstanding group of young men impressed everyone who came in contact with them. They represented the student body admirably and maintained the highest standards of personal integrity.

The Graduating Class of 2001, who we honour today, have also been superb role models for the younger students and set a very high standard of personal conduct - with the possible exception of the new Club Link course they established a few weeks ago in Dunlap Hall! Obviously, others share my confidence in their character. Collectively, the class has received 274 offers to Ontario universities; 22 offers to other provincial universities; 33 offers to U.S. colleges and 4 offers to universities in the U.K. They have been offered a total of \$ 1, 200, 000 in scholarship and bursary awards. This total includes Entrance, Scholar and Distinction scholarships; some of the major winners - the Chancellor's Scholarship at Queen's University won by Andrew Flavelle Martin; the Millennium Scholarship awarded by the Federal Government won by Michael Craig; the Descartes Scholarship at the University of Waterloo won by Chris Chui; and significant all-round scholarships were won by Paul Perrier, to State University of N.Y. at Oswego and Ali and Olivier Manigat to Columbia University.

Other exceptional academic achievements by members of this class include;

Jonathan Cheng's Advanced Placement International Diploma - never before won by an S.A.C. student for his outstanding grades on four AP exams. Cameron Steed, Michael Campbell and John Lyons finished in 1<sup>st</sup> place in the 9<sup>th</sup> Annual Canadian National Conservation Video Contest on Climate Change. Their technical and performance quality, creativity and factual content separated them from 80 other national submissions. Jon Cheng and Andrew Flavelle Martin have been awarded National Biology Scholar certificates for their scores in the University of Toronto's National Biology Competition. Chris Chui and Roger Chau have been awarded University of Toronto's 'da Vinci' Engineering Contest Scholar certificates. The first-ever S.A.C. Robotics Team would never have finished in the top 10 out of 35 schools and 1<sup>st</sup> among new entrants, without the commitment and expertise of members of this graduating class. Danny Mak, Chris Chui, Roger Chau, Jonathan Cheng and David Zhou finished 15<sup>th</sup> out of 238 schools in the Canadian Mathematics League, sponsored by the University of Windsor. This marks the 9<sup>th</sup> time in the last 11 years that S.A.C. has finished in the top 20. In the Descartes Contest, our team of Joshua Lim, Vincent Leung and Kenneth King ranked 18<sup>th</sup> nationally out of 631 teams. Josh Lim, our top scorer ranked 697<sup>th</sup> out of 10,000 students. Just in from the University of Waterloo Sir Isaac Newton Physics contest is Chris Chui's 62<sup>nd</sup> place out of 3,663 entrants. A very impressive list of academic achievements gentlemen; congratulations.

On the diplomatic front, Jackson Lau, represented S.A.C. at The Forum for Young Canadians and Josh Kelson and Jason Wong performed the same function at The National Commonwealth Forum in Ottawa.

Exceptional contributions to various areas of school life were made by Devon Ajram (Bagpipes); Warren Lowe and Austin Ball (Drama); Jason Wong, Gord Birkett and Andrew Flavelle Martin (Cadets); Dustin McGee (music); Richard Khoury (art); and David Richardson, Jackson Lau, Charles Long, Kurt Schmick, Kenneth King, and Tom Haney (House leadership)

Other academic highlights of the year include the extraordinary achievement of our DECA team (Distributive Educational Club of America) winning 1<sup>st</sup> place in the Ontario Championships and then a Bronze Medal at the DECA Quiz Bowl competition in Anaheim, CA. Coached by Mr. Rob Giel, our team of Kevin Fullerton, Jeff Ginou, Patrick Harris and John Lyons competed against 48 teams.

As you know, our boys excel in more areas than just academics. CISAA Championships were won at the First Team level by our Hockey, Badminton and Cricket teams. Led by Sammy Lam who won his 5<sup>th</sup> straight OFSAA A-Flight gold medal, First Badminton also won the York Region Championship. Other S.A.C. championship teams include U-15 and U-12 Soccer; U-14 Volleyball; U-16 Hockey; U-16 Squash; and U-16 Rugby.

Individually, our athletes received considerable media coverage. Jimmy Healy, Tyler Hurst and Paul Perrier in hockey; Peter Vogel in swimming; Sam Lam in badminton; JP Suddaby in track Charles-Etienne Bergeron in air rifle; Scott Simmons and Josh Delmas in cricket and Kurt Schmick in fencing.

The second issue that I wish to mention is the uniqueness of this school year in terms of the amount of 'inspection' and 'introspection' which occurred. St. Andrew's was thoroughly inspected in October by the Ministry of Education for Ontario; our academic records were scrutinized by the Fraser Institute for the National Post's Secondary School Report Card feature story and a comprehensive Parent Satisfaction Survey was conducted by a consulting firm. I am pleased to report that we came through all evaluations with 'flying colours'. In fact, your overwhelming support on the Parents' Satisfaction Survey – a 4.2 ranking out of 5 – the highest score from other surveyed schools being a 4.3 – has insured my employment for another year!

In terms of introspection, four important reports were prepared by Faculty Task Forces on areas vital to the School's future; the Double Cohort of 2003; Residential Life; Recruitment and Marketing and the Advisor Program. The recommendations from these reports will constitute to a large extent the School's Strategic Agenda for the next few years. I would like to thank sincerely the members of these committees for their tremendous contribution to the future success of St. Andrew's College.

The Campus Master Plan, which the Chairman has already alluded to, is a very exciting document which deals comprehensively with the need for new academic buildings and the upgrade of existing facilities. The plan, which responds to the new ministry curriculum requirements provides for the addition of a new Middle School building, a new Atrium space at the heart of the campus, renovations to Ketchum Auditorium, as a first class drama and music facility and the conversion of Dunlap Gym to a two-story art facility. St. Andrew's campus, already one of the most beautiful in Canada, will be greatly enhanced as a result of these changes. I am most grateful to the Board of Governors, Trustees of the S.A.C. Foundation and friends of the School who, over the past twelve months, have demonstrated their strong financial backing for these ambitious plans.

The third and last issue I wish to address today is the issue of a vision for St. Andrew's College. Doing the right things for the School, implies a goal, a direction, an objective, a dream, a vision. We, at St. Andrew's feel, we have created a compelling vision for the future which will stimulate, guide and nurture our students in this era of profound transformation. We hope that you will support this vision as it begins to unfold in the months to come.

Today, we say 'goodbye and best wishes' to a significant number of faculty and staff.

**Ms. Jacqueline Beck** is returning to her native province, Alberta, to continue her teaching career at Strathcona-Tweedsmuir School. Jackie's enthusiasm and effervescent personality have won her many friends in her brief two-year stay with the Modern Languages Department. Her efforts in organizing the Medieval Festival, the Grade 8 trip to Quebec and Ski Day, among other things, were much appreciated. Best of luck from all of us, Jackie.

**Mrs. Ann Burdon** has been with S.A.C. for 12 years as Assistant Manager of Food Services. She will retire this August to go sailing around the Caribbean with her husband in their sail boat.

**Mr. Bernie Douglas** has decided to return to Mississauga to teach history and civics. Bernie initiated a Karate program at St. Andrew's and very effectively.

**Mr. Ron English** who has contributed much in the area of technology at St. Andrew's is leaving to take on a permanent position at Seneca College. Ron was part of the driving force behind S.E.C.S.Y., our entry in the national RobotX competition. His legacy will be the School's ongoing commitment to this program. Best of luck, Ron.

The Health Centre will also be losing another assistant nurse. **Mary Lee Hunter** has decided to go into community nursing on a full-time basis.

**Mr. Jeff McGee** is taking a well-deserved one-year leave of absence after teaching music at S.A.C. for six years. He has some exciting travel plans which is making his colleagues on the faculty very envious. Have a safe and enjoyable trip, Jeff and we'll see you in September 2002.

**Ms. Janina Mlodecka** retires today from the Dining Room staff after 22 years.

Also, **Ann Osmond** retired as School Secretary in March of this year, after 15 years with S.A.C. Ann will be assisting her husband in the start-up of a new business.

**Mrs. Helen Younder** is leaving the Health Centre after 16 years as Assistant Nurse. She will be accompanying her husband, Joe, who many of

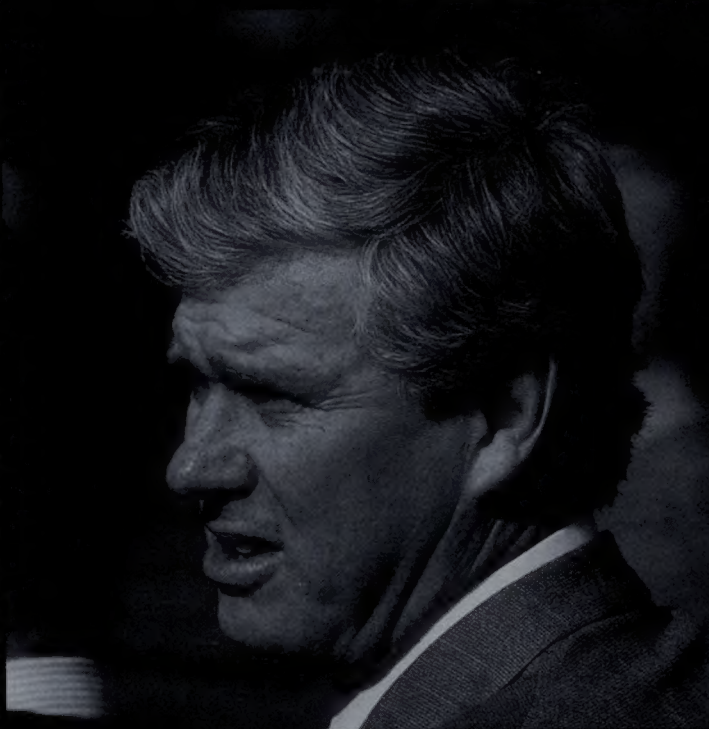

you know, to Italy where Joe will teach English at the Canadian College Italy. Thank you, Helen, for your dedication to the health of our students and best of luck.

Next year, we will be welcoming eight new faculty members to St. Andrew's in order to not only replace those who are leaving, but also to keep classes small while the School manages the temporary larger enrollment caused by the Double Cohort.

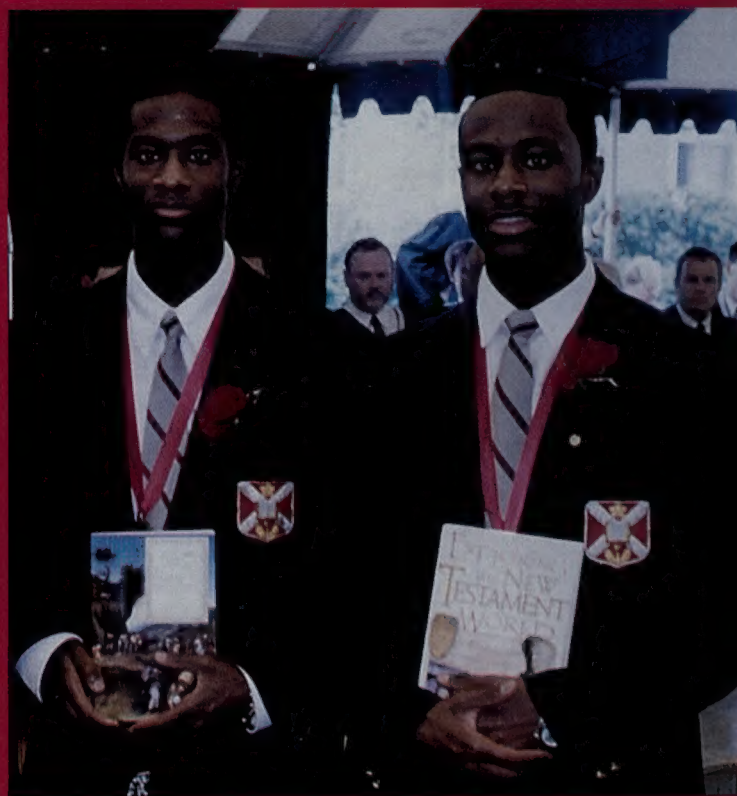

And, finally, to this splendid Graduating Class of 2001, I leave this final message. As you leave today from this special place, remember the words of a character in George Bernard Shaw's epic novel, "Man and Superman".

"I want to be thoroughly used up when I die, for the harder I work the more I live. I rejoice in life for its own sake. Life is no brief candle to me. It is a sort of splendid torch which I have got hold of for the moment, and I want to make it burn as brightly as possible before handing it on to future generations".

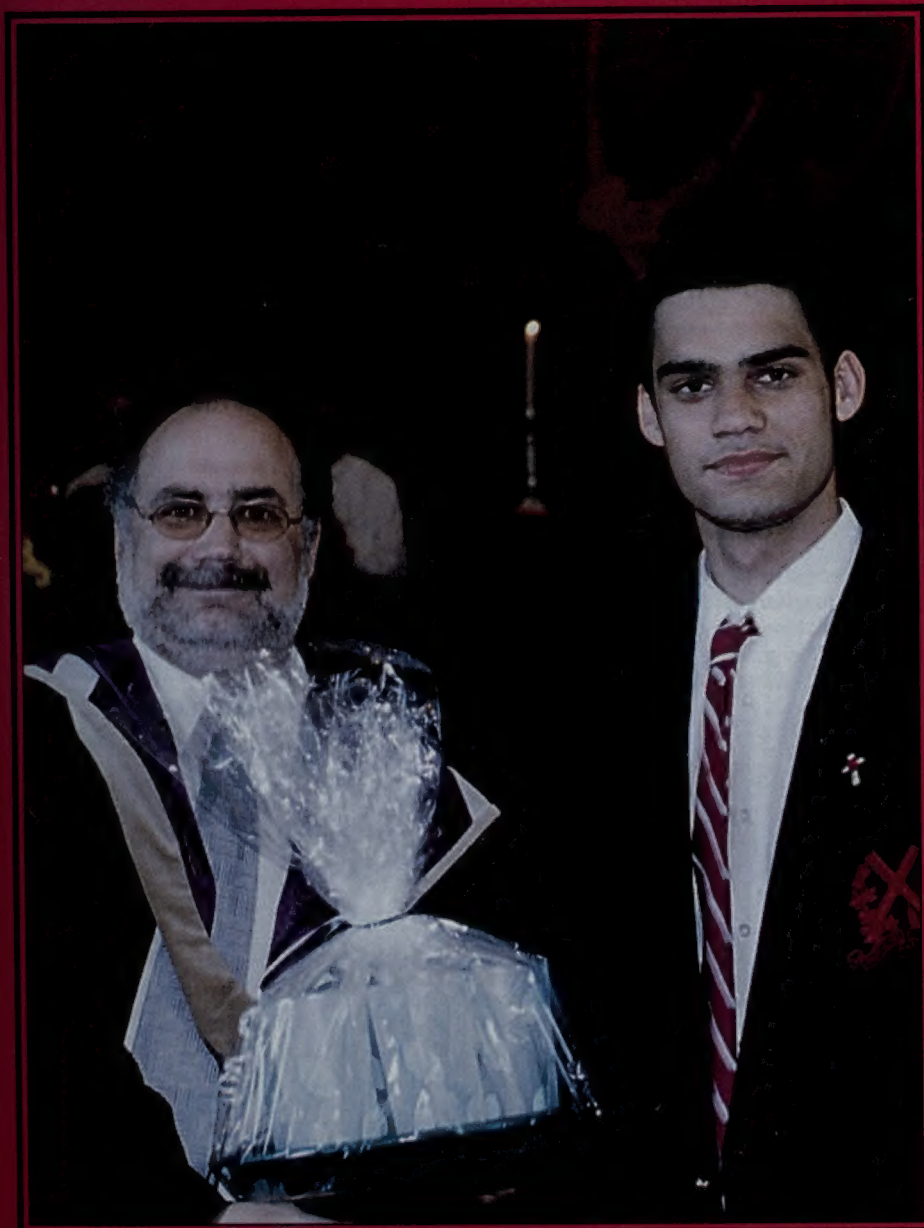

Thank you.
